SPANISH KING ASKS LEADER OF REVOLT TO FORM CABINET

Alfonso Calls Upon Primo Rivera, Chief of Army Coup at Barcelona, to Head Government After Alhucemas Ministry Tenders Resignation.

TROOPS IN BARRACKS; COUNTRY IS CALM

Refusal of Monarch to Oust Military Officers Behind Movement and Fix the Responsibility Results in Cabinet Stepping Out.

By the Associated Press.

BARCELONA, Sept. 14.—Captain-General Primo Rivera, whom King Alfonso has charged with forming a new government, declared this afternoon that the King, with whom he conversed by telephone, had accepted the directorate proposed by the military chiefs.

The directorate is to be headed by Primo Rivera, who also announced that his majesty had accepted the Captain-General's proposal to extend martial law to the whole of Spain.

Primo Rivera will leave Barcelona for Madrid tonight.

By the Associated Press.

MADRID, Sept. 14.—King Alfonso this afternoon asked Captain General Primo Rivera, leader of the military movement in Barcelona against the Alhucemas cabinet, to form a government.

It was announced by Captain-General Munoz Cobo of Madrid, who is charged with the maintenance of public order, that a proclamation of martial law was necessary.

The cabinet resigned this morning, following the return of King Alfonso.

The newspaper A B C says it understands that Primo Rivera will preside over a directory composed of competent officials who will assume charge of the various ministries. Meantime, civilians of proved capacity and independent of politics will be sought to form a cabinet to replace the directory.

The A B C says the present program is to govern without Parliament, which will be dissolved. New elections will not be held as long as the present political conditions prevail.

King Confers with Premier.

The King reached the city at 9:15 a. m. He was greeted at the railway station by the Captain-General of Madrid, the members of the Cabinet, prominent members of the military establishment and other notables. On leaving the station he proceeded direct to the palace, where he had a conference with Premier Alhucemas.

At the conclusion of his conversation with King Alfonso, Premier Alhucimas announced he had proposed to the King the immediate dismissal of the Captains-General of Barcelona, Sargossa and all the other military officers associated with the present movement. He also recommended immediate summoning of Parliament to discuss the situation and establish the responsibility not only of the members of the Government, but also all those who had prevented the Cabinet from governing.

King Alfonso replied that it was indispensable that he have time to consider the situation. Thereupon the Premier handed his Majesty the resignation of the entire Cabinet.

Complete tranquillity prevails throughout Spain, notwithstanding the military and governmental developments, according to all advices. The general public is taking little interest in the situation. Few of the military were seen on the streets of Madrid today, and the usual haunts of military circles about the city were almost deserted.

Semi-Official Statement.

A semi-official statement issued here today says:

"In view of the fact that the words 'military rising' having been repeatedly used in telegrams describing the situation in Spain may lead to an incorrect interpretation of the position, it is necessary to emphasize that in Madrid and, according to all information received here, at Barcelona, Saragossa, Bilbao and other provincial towns, calm prevails.

"All troops everywhere are confined to their barracks. The streets and public places maintain their accustomed aspect, all shops and

THREATENS TO EXTEND TULSA MILITARY RULE

GOV. J. C. WALTON.

PRESENT COOL WAVE PART OF NEW WINTER

Summer Sluggishness of Air Pressure Movements Has Passed, Weather Bureau Announces.

By the Associated Press.

WASHINGTON, Sept. 14.—The present cold wave is classified by the Government weather sharps as definitely a part of the new winter. The summer sluggishness of air pressure movements, the weather bureau announced today, has passed, and the quicker succession of areas of high and low bringing more marked and rapid change in temperature has begun.

By the Associated Press.

MADISON, Wis., Sept. 14.—Last night's frost made the harvested tobacco crop, estimated by warehousemen to be valued at $2,500,000, almost a total loss, according to reports here today from growing centers of the State. Plants which escaped the damaging frost of Wednesday night were caught in the most destructive weather of Thursday night, tobacco men said. They said that the loss to growers is unequaled in the last 15 or 20 years.

BUTTER PRODUCTION IN U. S.

Exceeded Value of the Cotton Crop, Says Banker.

By the Associated Press.

NEW YORK, Sept. 14.—The total value of butter produced in the United States in 1921 was $649,475,331, or nearly $6,000,000 greater than the value of the 1921 cotton crop. The wheat crop that year had a value of $737,068,000, according to a study of the butter and cheese markets just completed by Charles F. Junod, vice president of the Bank of America. He found that the butter received in New York City in 1922 totaled 241,604,065 pounds and had a value, at one average price of 40.7 cents a pound, of $98,332,854.

NEW ULTIMATUMS ISSUED BY WALTON IN WAR ON KLAN

Governor Says Tulsa County Will Be Taken Over Completely by Troops if Officials Do Not Resign.

CENSORSHIP OF PRESS THREATENED

Oklahoma City and Muskogee Next in Line for Military Rule, He Says—Flogging Inquiries Pressed.

By the Associated Press.

OKLAHOMA CITY, Ok., Sept. 14.—New military operations threaten Oklahoma today in the war between Gov. J. C. Walton and the Ku Klux Klan over mob floggings. These were the outstanding developments in the situation:

1. Muskogee faces martial law unless W. N. Sampson resigns as "exalted cyclops" of Muskogee klan No. 3, together with his secretary. Gov. Walton's ultimatum expires at 6 o'clock tonight. Sampson announced that neither he nor his secretary would heed the ultimatum.

Insists Officials Resign.

2. Tulsa County will be taken over "completely" by troops unless Sheriff Bob Sanford, Police Commissioner Harry W. Kiskaddon and the three members of the County Jury Commission resign within the next few days. Peace negotiations between Tulsa business men and Gov. Walton have broken down. H. O. McClure, president of the Chamber of Commerce, told klan officials it was up to them to see that the Governor's terms were met.

3. Oklahoma City and Oklahoma County are next in line for martial rule, according to Gov. Walton.

4. Military censorship will be clamped down on every newspaper in the State that continues "to incite riot" and print matter tending to cause trouble, Gov. Walton announced.

A military consor took up his post in the editorial room of the Tulsa Tribune, an afternoon newspaper, at noon today. He ordered "proofs" of all news matter relating to Governor Walton and martial law in Tulsa County, to be submitted to him for approval. The censos is Maj. Roark, of Oklahoma City, a former newspaper man and an officer in the Oklahoma National Guard contingent here to enforce military rule.

5. Investigators are running down flogging cases in a number of counties. Martial law will be declared at any place where local authorities show a disposition to protect whippers, it was stated by the Governor.

Charges of Riot Filed.

6. Dr. J. A. Walker, alleged "exalted cyclops" of the Ku Klux Klan at Shawnee, and C. M. Reber, former Major in the Oklahoma National Guard, are under $5000 bond on charges of riot filed by Claude Hendon, County Attorney of Pottawatomie County. Dr. Walker and Reber are alleged to have advised and planned the flogging of four men at a regular meeting of the Shawnee klan attended by 500 members. "We don't want marital law in Shawnee," said County Atoorney Hendon as he redoubled his efforts to clear up flogging cases that have occurred in this county.

Gov. Walton was back in Oklahoma City today from his visit to Tulsa. He spent the day in completing the details of his newest projected campaigns.

State Health Commissioner Davenport, speaking for Gov. Walton at Muskogee, pulled a sheaf of papers from his pocket and read:

"Sampson, the exalted cyclops here, and the secretary of the klan, last May attempted to whip a man just outside the city limits. They were frustrated in the attempt when their victim drew a revolver and forced them to back away."

"I will not resign and I speak for both the secretary and myself," Sampson declared last night. "It is a sorry state of affairs when the Governor resorts to the threats of troops to cause the resignation of a lodge official. I will stay in until the last ditch it it leads to the pearly gates."

Alleged Klan 'Cyclops' of Shawnee Charged With Riot.

By the Associated Press.

SHAWNEE, Ok., Sept. 14.—Dr. J. A. Walker, reputed to be the "Exalted Cyclops" of the Shawnee Ku Klux Klan, and C. M. Reber, former Major in the Oklahoma National Guard, were charged with riot in an information filed here yesterday by County Attorney Claude Hendon. The information alleges that Walker and Reber advised the flogging of Frank Cole, Claude McCannon, Will Cole and George Jones. Others charged in the information are Malcolm Couch, former Chief of the Shawnee Fire Department, Clay Pell

"JIMMIE" HOGAN TAKEN AT FUNERAL OF WILLIAM M'GEE

Detectives Find Man Sought Since Sunday Night in Cortege at Mount Carmel Cemetery.

GANG "AFTER HIM, BUT WHAT OF IT?"

Admits He Was at Corner When Shooting Occurred, but Wouldn't Identify Assailants if He Could.

At the conclusion yesterday of the funeral of State Representative William McGee, one of the two men killed Sunday night with bullets intended for "Jimmie" Hogan, detectives who had followed the cortege to Mount Carmel Cemetery stepped up to one of the men in a mourners' automobile and told him he was under arrest.

The man arrested was Hogan, himself, for whom detectives had been looking since the affair of Sunday night when shots were fired from an automobile into a crowd of men, including Hogan, at Jefferson and Cass avenues, killing Elmer Malone, a cousin of Hogan, instantly, and fatally wounding McGee.

"After Him, but What of It?"

"What do you want with me?" growled Hogan, without taking the cigarette from his mouth. "I don't know nothin'."

"The Chief wants to see you," the detectives told him, and he accompanied them in their car to Police Headquarters, where later he was closeted for more than an hour with Chief of Detectives Hoagland.

"Yes, I was on the corner when the shooting occurred," said Hogan in response to the Chief's questions. "Sure, they were after me, but what of it? I can't help you in the investigation."

"You know who the men were," said the Chief.

"I can't swear that I do," was the surly response. "I couldn't identify them and I wouldn't if I could."

"Foolish Question to Ask."

"Were they members of the Egan gang?" asked the Chief.

"That's a foolish question to ask me," replied Hogan. "What do you think about it? I thought they were coppers at first, and when the machine rounded the corner and the crowd on the sidewalk started to run, I told them to stand still. 'They'll think we've got guns on us,' I told them, and they stood still. Then the shooting commenced. I ran into the saloon."

"Where did you go after the automobile left?" the Chief asked.

"I'm not telling you that," said Hogan with a sneer. "Where I went and where I am stopping now is for nobody but me to know."

"Afraid of the Egan gang, eh?" suggested the Chief.

Taken to Father's Home.

"Well, I don't know what to make of it," was the reply. "I've passed some of them on the street in the last four months and they never tried to get me before Sunday night. I don't know what to make of it."

When the interview was ended detectives escorted Hogan to the home of his father at 3035 Cass avenue. He said he would not remain there long.

Search for two Egan gangsters, who with a third member of the gang now under arrest, are suspected of the murders, is being continued by the police.

30 Wireless Stations for Russia.

By the Associated Press.

RIGA, Sept. 14.—The soviet government has ratified a five-year agreement with the General Wireless Telegraph Company of Paris which provides that the latter will erect 30 wireless stations in Russia in that period.

A "Hunch" for the City Salesman

A city salesman can double the radius of his field, see twice as many people in half the time, and sell more goods in one day than he formerly sold in two, through the use of a good used car. That is a good investment.

Used roadsters and coupes are advertised every day in the Post-Dispatch's "Automobiles" classification in the classified columns, at prices that put possession of them within easy reach.

These columns are a recognized "clearing house" in St. Louis for used cars.

If you want to buy or sell a used car, here is the opportunity.

ENGLAND GIVING BOBBED HAIR FINAL KICKS TO SEND IT ON ITS WAY

LONDON, Sept. 14.

BOBBED hair, which is rapidly passing out here, is getting a few kicks to help it along its way. The latest comes from Manchester Hospital, where all nurses have been ordered to allow their hair to grow; in the future no lady with shorn locks will be allowed to look after the patients.

Many London restaurants and department stores have issued notices to the same effect.

GERMAN CASTLES IN DEMAND AS SUMMER BOARDING HOUSES

British Holiday Fellowships Started the Fad by Hiring Three for Season.

By the Associated Press.

HEIDELBERG, Sept. 14.—Some of the old castles of Germany have been used this year as summer boarding houses. While tourists have not been numerous in Germany this season because of disturbed political and economic conditions, the idea of living in a castle, even for a day, appeals to most travelers. So medieval dwellings for next summer for paying guests are in demand.

The idea of making such use of castles, of which there are many in Germany, appears to have originated with the British Holiday Fellowships, members of which this year made their second trip to Germany since the war.

Leaders of the Holiday Fellowships hired a castle in the Rhineland, at Braunfels on the Lahn, and at Wolfach in the Black Forest for the season. The success of the arrangement is said to have far exceeded expectations.

The aim of the Holiday Fellowships is to foster good will by social contact. The organization has established centers in Scotland and Wales, in Kent and Devon, in England, and in Germany, Italy and the French and Swiss Alps.

VITAMINES TRACED TO METALS SAID TO BE ESSENTIAL TO LIFE

Experiments at Kentucky University May Reveal Nature and Solve Puzzle for Scientists.

By the Associated Press.

MILWAUKEE, Wis., Sept. 14.—Vitamines, whose nature long has been unknown to science, now have been traced, through experiments at the University of Kentucky, to metals essential to life, according to a statement made yesterday before the division of agricultural and food chemistry at the American Chemical Society convention in session here, by Dr. J. S. McHargue, research chemist of that institution.

Dr. McHargue expressed the belief that metals might play an important part in human life. He said it had been indicated by experimentation that copper, manganese, zinc, nickel and cobalt were vital factors in animal life and might be of equal importance in human beings.

Chemistry is revolutionizing American agriculture, scientists declared before the conference. Research, it was pointed out, shows that sulphur will enlarge the nation's food supply.

The Priestley medal for outstanding achievement in science was awarded to Dr. Ira Remsen, president emeritus of Johns Hopkins University. He was unable to be present.

35TH DIVISION REUNION ON FRENCH BATTLEFIELDS PLANNED

Kansas City Captain to Lay Proposal Before Meeting at Excelsior Springs Sept. 28-29.

By the Associated Press.

KANSAS CITY, Sept. 14.—Tentative plans for a reunion of the French battlefields of members of the Thirty-Fifth Division, A. E. F., were announced today by Capt. John H. Thacher, 129th Field Artillery, Kansas City. Capt. Thacher, who has just returned from France, said he probably would lay his plans before the veterans at their annual re-union at Excelsior Springs, Mo., Sept. 28 and 29.

By moving several hundred men in a body, Capt. Thacher said, the trip could be made so cheaply that a large percentage of the veterans could attend. The voyage would be made on a specially chartered ship.

The Thirty-fifth Division was composed chiefly of national guardsmen from Kansas and Missouri.

ONE ABOVE FREEZING IN ILLINOIS

Temperature Drops to 33 at Aurora and Danville.

By the Associated Press.

AURORA, Ill., Sept. 14.—By one degree the corn crop of the Fox River Valley escaped destruction early today. At 5 o'clock this morning the temperature dropped to 33 degrees above zero, one above freezing and hovered there for half an hour. Then it began to move up and the crop was saved. There was a heavy frost in the lowlands.

DANVILLE, Ill., Sept. 14.—Official weather figures here showed a minimum temperature last night of 33 degrees. Ice formed on shallow pools this morning.

90,000 EXPECTED TO SEE DEMPSEY-FIRPO TITLE FIGHT TONIGHT

MYSTERIOUS BLAST DAMAGES HOME OF ASSOCIATION HEAD

Police Say That Body Directed by Dr. J. L. Potter Opposes Negroes Moving Into Vicinity.

ONE MAN ARRESTED, BUT LATER RELEASED

Physician Intimates Explosion Which Caused Loss of $700 Was Caused by "Moonshiner."

An explosive, the nature of which is unknown, placed at the front door of the office and residence of Dr. James L. Potter, 4635 Easton avenue, at 11 o'clock last night, caused damage estimated by Dr. Potter at $700. The front door was cracked, a number of window and doorglasses were broken and the walls disfigured. No fragments of the explosive, which might indicate its nature, were found. The explosion was heard for many blocks.

Policemen who questioned Dr. Potter said he declared he had no enemies and that the only strife he recalled was that the Central Home Protective Association, of which he is president, had opposed the purchase by William Graff, proprietor of a soft drink stand and delicatessen store at 4646 Easton avenue, of a building at 4710 Easton avenue, which he proposed to convert into a public garage.

Upon that statement, police took Graff to the Deer Street Police Station, nearby, where he was held until this morning. He denied knowledge of the explosion, saying he was at home when it occurred and previously had been automobile riding with his wife.

Dr. Potter today denied that he had made any statement to police implicating Graff. He intimated that the explosion might have been caused by some "moonshiner" in the belief that Dr. Potter had been active in opposition to illicit traffic in whisky. Dr. Potter did not detail his activities, if any, in this line.

Police say Dr. Potter's association has opposed negroes moving into that vicinity.

RED CROSS QUAKE FUND NOW TOTALS $7,121,000

Washington Division Leads in Contributions With $4,165,500 Collected.

By the Associated Press.

WASHINGTON, Sept. 14.—The Red Cross relief fund for Japanese earthquake sufferers now amounts to $7,121,000. The contributions up to today by divisions are as follows:

Washington $4,165,000, New England $489,500, Southern $173,000, Central $1,015,000, Southwestern $426,000, Pacific $650,000; insular and foreign $201,500.

PARTLY CLOUDY TOMORROW, WITH RISING TEMPERATURE

THE TEMPERATURES.

1 a. m.	51	8 a. m.	54
2 a. m.	50	9 a. m.	58
3 a. m.	50	10 a. m.	59
4 a. m.	49	11 a. m.	60
5 a. m.	48	12 noon	62
6 a. m.	47	1 p. m.	64
7 a. m.	49	2 p. m.	65

Highest yesterday, 63, at 9 a. m.; lowest, 51, at 11:50 p. m.

ANOTHER TRIAL FOR ARGENTINE BEEF
SEPT 14 23

Official forecast for St. Louis and vicinity: Partly cloudy weather tonight and tomorrow; rising temperature.

Missouri: Mostly cloudy, probably with showers tonight or tomorrow; rising temperature.

Illinois: Fair tonight and tomorrow, probably becoming unsettled tomrorow night; rising temperature tomorrow and in north and central portions tonight; light frost in northeast portion tonight.

Stage of the river at 7 a. m., 4.8 feet, a fall of .4 of a foot.

Sunrise today, 5:41; sunset, 6:12.

FACTS ABOUT RING'S MOST PICTURESQUE MATCH FOR TITLE

From a Staff Correspondent of the Post-Dispatch.

NEW YORK, Sept. 14.

PRINCIPALS — Luis Angel Firpo, Buenos Aires, of Italian - Portuguese ancestry, challenger; William Harrison "Jack" Dempsey, of Los Angeles, born in Colorado, champion.

Battleground—Polo Grounds, playing field of the New York National League Baseball Club.

Referee—To be named today by the New York Boxing Commission.

Attendance (estimated)—90,000.

Receipts of box office (estimated)—$1,200,000.

Fighters' share—Dempsey 37½ per cent or $500,000; Firpo, $100,000.

Admission—From $3 to $25, plus war tax.

Scalpers' prices—From $8.80 to $150 each. Ringside seats include the first 52 rows back of the press seats.

Favorite—Dempsey, 3 to 1.

Starting time—Championship event starts at 9:30 p. m., New York daylight saving time (7:30 p. m. St. Louis time).

Length of bout—Scheduled for 15 rounds to a decision.

Preliminary bouts — Jack Burke and Billy Reed, eight rounds; Al Roberts and Mike Burke, six rounds; Leo Brown, Australian heavyweight champion, and Dan Bright of England, six rounds; Bartley Madden and Leo Gates, 12 rounds.

Visitors attending—Estimated at 35,000.

Promoter—Tex Rickard.

Cost to public—At scalpers' prices, estimated at $2,000,000.

JOHNSTOWN MAYOR BARS NEGRO INFLUX

Only Those Residents of City for 7 Years Can Remain, Pennsylvanian Declares.

By the Associated Press.

JOHNSTOWN, Pa., Sept. 14. — More than 2000 negoes have left Johnstown since Mayor Joseph Chauffiel declared a week ago that only negroes, residents in the city for seven years, would be allowed to remain, said the Mayor today in outlining the reasons why he had taken action against them. More are going, he added, and it was his intention to see that no more were brought here from the South.

"We have been sitting on a bomb in this city," said Mayor Cauffiel, "and it almost exploded last week when two of our policemen were killed and four others so badly wounded that one of them has since died and two others so dangerously hurt their deaths may be expected at any time. This was done by a negro who had quarreled with his wife.

"I was away, and when I came home and found the city in a ferment I decided that the only thing to do was to send these newcomers out of town and keep them out. Resentment was running high. No less than a dozen flaming crosses were burned on the hill tops around the city and I feared an outbreak against the negroes unless I acted promptly."

4 MEN CONVICTED OF MURDER OF ROCK ISLAND GANG LEADER

One Defendant Gets 20 Years, Others One to 20, in Looney Case in Illinois.

By the Associated Press.

ROCK ISLAND, Ill., Sept. 14.—Anthony W. Bilburg, George H. Holsapple, George Buckley and Dan Dres were found guilty of the murder of John Conner Looney by a jury in Circuit Court this morning. Bilburg was sentenced to 20 years and the other defendants from one to 20 years.

Young Looney was killed in a pistol fight in Market Square last October between alleged underworld gangs of which Bilburg and John Looney Sr., were said to be the recognized leaders.

Bilburg and Looney were cited as rivals for years for control of local underworld privileges. The state is now seeking the elder Looney, who has been a fugitive from justice eight months. There are a dozen indictments against him with charges ranging from murder to larceny. The trial lasted three weeks.

CHALLENGER HAS 24-POUND ADVANTAGE IN WEIGHT

More Than $1,000,000 Is Expected to Be Paid In for Admission to Title Match at Polo Grounds in New York — Many Notables Will Attend.

"I AM NOT AFRAID," CHALLENGER SAYS

Bout, Starting at 7:30 P. M. (St. Louis Time), Scheduled to Go 15 Rounds, Will End in Quick Knockout, Experts Say.

By the Associated Press.

NEW YORK, Sept. 14.—Two warriors of the New World awoke in New York this morning ready for a battle to decide whether the fistic championship of the earth shall remain in North America or cross the Equator and become the property of the Argentine republic.

These gladiators, Jack Dempsey of the United States, present holder of the heavyweight championship, and Luis Angel Firpo of the Argentine, scowling chieftain of South America's sluggers, will step into a brilliantly lighted arena at the Polo Grounds at 9:30 o'clock tonight. They will be watched by a crowd of more than 90,000 persons, some of whom have come all the way from Buenos Aires to see the combat.

More than $1,000,000 will have been collected by Manager Tex Rickard. Half of this amount will go to the fighters, 37½ per cent to Dempsey and the remaining 12½ per cent to Firpo. The rest goes to Rickard. Some of the spectators have paid $27.50 for seats; others will pay $3.30, when the gates are opened at 4:30 o'clock. Still others have paid $150 to speculators, it is said.

Fight fans awoke today to find the skies leaden, the weather chilly and a threat of rain. The forecast was clear and cooler.

At 11 o'clock, when the temperature was 55, the official forecaster predicted the mercury would drop to 48 by the time the bell was to ring and that the stands would be further chilled by a moderate northerly breeze.

Dempsey will weigh more than at any time in his championship career. He scaled 192½ early this afternoon, when weighed in at the State Athletic Commission. His challenger had not put in an appearance when the title-holder stepped off the scales.

Firpo arrived half an hour late, wearing a broad grin. He made the indicator on the scales tremble at the 216½-pound mark and then stepped over to be measured. His height was officially recorded as 6 feet 2 inches, two inches taller than his opponent. He was 4½ pounds heavier than when he met Jess Willard.

To Met First Time in Ring.

When Dempsey fought Tom Gibbons at Shelby, last July 4, he weighed 188. When he fought Georges Carpentier two years ago he scaled 187.

After waiting 15 minutes in the commission's offices in the Flat Iron building, Dempsey departed and will not meet Firpo until they face each other in the ring tonight. They have never met.

Dempsey was accompanied by his manager, Jack Kearns, and bodyguard, Mike Trant, Chicago detective.

Chairman Muldoon of the boxing commission asked Dempsey not to wear an American flag around his belt during the fight and the champion agreed. The chairman also requested that Jack don a pair of black tights, but the champion asked that he be permitted to wear the pair of old white ones that he had used in his previous title bouts and Muldoon acquiesced.

Muldoon's added suggestion that

RESTORATION COST IN QUAKE AREA PUT AT FIVE BILLIONS

Nation-Wide Syndicate of Bankers Organized to Assist the Government in Rebuilding Devastated Districts—Local and Foreign Loans to Be Raised.

PLANS FOR RELIEF NOW COMPLETE

With Housing and Feeding Program Under Way, Empire Is Devoting All Efforts to Great Reconstruction Program.

By the Associated Press.

TOKIO, Sept. 14.—It is estimated that the cost of reconstruction work in Tokio and Yokohama as a result of the earthquake and fire will approximate 10,000,000,000 yen ($5,-000,000,000.)

A nation-wide syndicate of bankers has been organized to assist the Government in rebuilding the devastated area and the empire is asked to devote all surplus funds for this purpose. The banking syndicate announces it will raise the additional money required for reconstruction by local and foreign loans.

The Bank of Japan, the insurance companies and the public have contributed 50,000,000 yen toward relief.

Plans for feeding and housing refugees have been completed and the Government and the people now are devoting all efforts to a great reconstruction campaign.

By the Associated Press.

LOS ANGELES, Sept. 14.—The national credit of Japan has not suffered materially nor will her exchange be perceptibly affected as the results of the recent earthquake disaster in that country, in the opinion of A. H. Butts, until recently trade commissioner at Tokio for the United States Department of Commerce, and now a visitor in Los Angeles.

"I have noticed statements in the papers to the effect that Japan has received a blow from which she will not recover for 25 years or more," said Butts. "That is probably true as far as rebuilding Tokio and Yokohama is concerned, but it does not apply to the Japanese nation as a whole. Osaka, in the industrial center, has not been affected and this is true also of other manufacturing cities and the silk producing districts.

"I venture to say Japan could float a loan today as readily as before the earthquake. There has been practically no depreciation in Japanese bond quotations."

By the Associated Press.

WASHINGTON, Sept. 14.—Seventy-four thousand bodies were cremated in Tokio to Sept. 10, the Japanese embassy was informed yesterday in dispatches from its Foreign Office dealing with earthquake and fire casualties. Since Sept. 4, the advices said, 500,000 persons had left the capital by train, but no estimate was possible of the number who departed by foot, by boat or by other means.

"In Yokohama, up to the eleventh," the Foreign Office said, "there were 68,000 destroyed houses out of a total of 98,000. The food supply is fairly good.

"In other parts of Kanagawa prefecture, casualties known to date, (11th) are as follows: Houses shaken down, 53,000; houses burned, 4,-500; swept away by tidal wave, 70; houses partly burned, 22,000; number of dead, 4300; injured, 24,000.

"The above figures include those given below for several important cities and towns:

"In Yokosuka, houses destroyed, 11,000; damaged, 300; dead, 400; injured, 800.

In Odawara, 800 houses burned out and 1700 shaken down; dead, 230; injured, 500.

"In Kawasaki, dead 200; injured, 200.

"Kamaraku, dead, 500; injured, 1,-700.

"Uraga, dead 300; injured 3000.

"Misakai, dead 60; injured, 2300.

"Fusisawa, dead, 300; injured, 500.

"Oiso, dead, 200; injured, 700.

"No detailed information concerning loss of life or property in other prefectures has been received.

SPANISH KING ASKS LEADER OF REVOLT TO FORM CABINET

Continued From Page One.

public establishments are open and traffic is circulating normally.

"No cessation of work has occurred."

Revolt Leaders Keep Foreigners Under Close Surveillance.

By the Associated Press.

BARCELONA, Sept. 14.—Leaders of the military movement are keeping foreigners under close surveillance and are granting to only a few persons permission to cross the frontier.

Captain-General Primo Rivera said that the purpose of the movement was "cleaning up politics and making them honest." Its cause, he continued, was the "obstinacy of the government in refusing to get rid of a baleful ministry whom it forced upon the people and the King."

The revolt has extended to Madrid, according to Rivera, although the officers there have been kept to their barracks.

The Captain-General received an ovation when he appeared at the opening of an International Furniture Exhibition here yesterday.

Replying to the address of the Mayor, in which that official thanked King Alfonso for the support he had given the exhibition, the Captain-General said he hoped that the present political events would only serve to increase the prosperity of the city.

When Barcelona officials visited the stands the people cheered for the honor of Spain, for the army and for "honest men." Captain-General Rivera demanded cheers for Catalonia. He was again acclaimed on leaving the exhibition.

Spanish Naval Squadron Said to Have Reached Barcelona.

By the Associated Press.

PARIS, Sept. 14.—A Spanish naval squadron has arrived at Barcelona and it is understood that the admiral has received drastic orders to put down the revolt headed by Captain-General Primo Rivera, says a dispatch to Le Journal from San Sebastian.

King Alfonso, accompanied by Jose Sanchez Guerra, the former Premier, left for Madrid last evening, the correspondent asserts. He adds that the prevailing impression at San Sebastian is that Rivera will succeed in overthrowing the government.

All communication with France by telephone has been interrupted since yesterday morning and the strictest censorship has been established.

NEW ULTIMATUMS ISSUED BY WALTON IN WAR ON KLAN

Continued From Page One.

and Floyd L. Graves. Both Reber and Couch were arrested Wednesday on other charges growing out of the alleged flogging of Frank Cole and McCannon.

County Attorney Hendon made public an alleged confession of a member of the Shawnee Klan, upon which, he said, he based his charge that Dr. Walker and Reber "advised a riot." The alleged confession stated that about 500 members of the klan were present when arrangements were made for the whippings, and that a report was made by the floggers afterwards to Dr. Walker as "Exalted Cyclops."

Alleged Confession.

The alleged confession, as given out by the County Attorney, follows in part:

"Q. (County Attorney Hendon conducted the questioning). Had the proposition of whipping these four boys, Frank Cole, Claude McCannon, Will Cole and George Jones, ever been discussed in the official hall of the Ku Klux Klan before? A. Yes, sir.

"By whom?" "Dr. J. A. Walker."

"What did Dr. Walker say about it?" "He said, 'Gentlemen, we have got to give them a good spanking.'"

"Was he presiding as Exalted Cyclops at the time?" "Yes, sir."

"The night that the instructions were given by Dr. Walker to whip these four boys, including Frank Cole, tell what orders, if any, Dr. Walker gave in the Ku Klux Klan hall."

"Spank 'Em Hard."

"To the whole body of about 500 men Dr. Walker made this statement from the position of Exalted Cyclops: 'Gentlemen, there are four men of this city that we have got to spank and we have got to spank hard and do it soon as possible because they are members of what is known as the Anti-Ku Klux Klan, and gentlemen, while you spank 'em, spank 'em hard.' At which time he received unanimous applause. Following which —— jumped up and saluted the Cyclops for permission to speak and stated that 'Yes, it must be done and I am the guy that can do it.'

"After which Park Wyatt, the legal adviser for the Ku Klux Klan, gained the floor and in a speech to the entire body he stated that it must be done and done right away and done right, for the reason that they were members of the Anti-Ku Klux Klan and if they were not looked after they would get the upper hand of the klan."

"Who was in charge of the detachment that took Frank Cole out?" "Maj. C. M. Reber."

"Was Maj. Reber present at the time Frank Cole and the other three boys were seized and taken out?" "Yes, sir."

Regalia of Ku Klux Klan.

"Was he in robe?" "Yes, sir."

"The regalia of the Ku Klux Klan?" "Yes, sir, the regalia of the Ku Klux Klan."

Further the confessor alleges that he overheard a conversation between Reber and Ira Sims, Chief of Police, in which Sims agreed that none of his officers would interfere with the floggings and he (Sims) advised Reber to give them "a —— of a whipping." Chief Sims vigorously denied such charges.

The alleged confession reads that the victims were taken out by men in white robes, all of them armed. All alleged acts of the floggers were alleged to have been executed under the advisement of Dr. Walker.

The penalty for riot in Oklahoma is from two to 20 years. "We don't want martial law in Shawnee. I believe the situation here is well in hand and there is no need for it," said County Attorney Hendon.

J. BROOKS JOHNSON, PICTURESQUE MAN OF FINANCE, DEAD

Money Lender, Whose Accumulations Are Believed to Have Run Into Millions, Succumbs at 80.

J. Brooks Johnson, money lender and financial adventurer, died yesterday afternoon at his home, 5855 Cates avenue, at the age of 80. Death was caused by infirmities of age, which had confined him to his home for several months.

No formal funeral service has been announced. Members of the family said there would be a family gathering some time today, and that the body would be taken to Richmond, Ind., on a train leaving tonight.

Because of his financial shrewdness, plain dress and his thrifty habits, Johnson has been called the Russell Sage of St. Louis. It is believed that his accumulations in money brokerage and investments have run into the millions. His own accustomed statement as to the extent of his means was. "I have enough to pay my obligations."

Paid $12 a Month Office Rent.

His office, during the years of his greatest financial activity, was a room for which he paid $12 a month rent, and furnished with three desks, which Johnson said he had bought for $3. In recent years he had to pay more rent, but he never bought elaborate office furnishings. "A fancy office doesn't pay," he said. "The people who want to get money from me will always find me."

His customers, as Johnson once explained, were persons who found it difficult to borrow money from banks, but who appeared to Johnson to be good for the amount of their loans. He charged them more interest than a bank would charge on a secured loan, and he was accustomed to term his charge not interest, but a brokerage fee. A number of well known lawyers were borrowers from him, and Johnson, in a lawsuit, once cut short a very prominent lawyer's question as to his financial practices, by offering to tell who some of his customers were.

Johnson said he never made loans to women or children, and loaned nothing on furniture or household goods. He said he considered his business career well chosen, and that he would advise a young man to become a money broker. "Deal in in money," he said, "and you will make money and will always have money. There is always somebody looking for money and willing to pay well for it. For one man who becomes money-mad, there are many who become mad from the worry and despair of not having money."

Often Engaged in Litigation.

Johnson's favorite form of investment was business property. His chief diversion was fighting corporations which, he charged, attempted to "freeze" him out as astockholder. He engaged in litigation with the Colorado Fuel and Iron Co., the Union Electric Light and Power Co., and the Gilsonite Granite Co. and was successful in the suits, which involved the turning over of stock, to complete proposed corporate mergers.

As a stockholder of the St. Louis Transit Co., he endeavored to block the absorption of that company by the United Railways Co. He did not succeed in this endeavor, but he won a suit to collect from the United Railways Co. nearly $64,000 in Judgments against the Transit Co., which he had bought from their holders at a discount.

He engaged in prolonged litigation with Henry D. Laughlin, with whom he was associated in the ownership of hotel property in Chicago, and with Joseph Gerardi, a St. Louis hotel man, and the Gerardi litigation is still pending.

Johnson was president of the Anchor Warehouse Co., and was formerly interested in the Trinidad Asphalt Co.

Johnson came to St. Louis 50 years ago from Chicago, following the great fire. His parents lived in Richmond, Ind., where his body is to be taken.

His two sons, Herbert R. and James C. Johnson, who live in New York, were here at the time of his death. His daughters are Miss Ellen Brooks Johnson and Mrs. Mildred Clarke. Mrs. Johnson died two years ago. Johnson was fond of music, and his children were trained in instrumental music.

ITALIANS TO QUIT CORFU ON SEPT. 27, AMBASSADORS SAY

Same Date Fixed by Council for Conclusion of Greek Inquiry Into Massacre at Janina.

By the Associated Press.

PARIS, Sept. 14.—A statement issued by the Inter-Allied Council of Ambassadors today says that the Italian Government has decided to evacuate Corfu on Sept. 27, the date fixed by the council for the conclusion of the Greek inquiry into the massacre of the Italian members of the Greco-Albanian boundary delimitation mission.

The international commission that will investigate the Janina murders will depart for Albania today under orders to conduct as vigorous an inquiry as possible. The Ambassadors are understood to have decided that, if, on the day set for the evacuation, the commission of inquiry thinks Greece has not done everything in her power to bring the assassins to justice, Italy shall receive the deposit of 50,000,000 lire made by Greece under the terms of settlement decided upon by the council.

An official communique issued said: "The Ambassadors' Council has adopted a solution which it considers such as will put an end to the situation created by the assassination of the Italian delegation. The solution will be immediately transmitted to Athens and also communicated to the league council and will be made public tomorrow (Friday) at noon."

Situation Considered Regulated.

The text of the note addressed by the Council of Ambassadors to Greece has been officially communicated to the League of Nations, with a covering note expressing the opinion that the situation created by the assassination in Greece of Gen. Tellini and the other members of the Italian commission may be considered to have been regulated in a satisfactory manner.

The text, as now made public, gives five conditions which Greece must fulfill. The fifth condition says the inter-Allied commission of investigation into the assassinations will commence its work Sept. 17 at Janina and that five days later it will telegraph its first observations. If the culprits are not discovered by that time, the commissioners will report the conditions under which they are working, and the Ambassadors' Council will decide from this report whether the fifth condition of its note to Greece of Sept. 8 has been fulfilled. "This condition was that the arrest and exemplary punishment of the guilty parties should be undertaken with all possible speed."

"If this condition," says the note, "is not considered to have been fulfilled, as the Italian Government has made known its decision to evacuate Corfu in any circumstances on Sept. 27, the date fixed by the Council of Ambassadors for the termination of the Greek inquiry, the Council reserves the right to notify Greece of other measures which may be taken by the Allied Powers in coercion or punishment."

Payment of Indemnity.

Such measures, it is added, might consist of Greece's paying to Italy the 50,000,000 lire, which the Council would ask the Permanent Court of International Justice at The Hague to release from deposit, at the same time abandoning recourse to the court as previously arranged for fixation of the indemnity, except that Italy might apply to the court for the costs of her occupation of Corfu.

The earlier conditions are: First, Greece's apologies must be presented to the Allied diplomatic representatives in Athens not later than Sept. 18; second, the funeral service in honor of the victims of the assassination shall be held at Athens, Sept. 19; third, warships of the three Allied Powers will arrive at Phaleron the same day to receive the salute from the Greek fleet and, fourth, honors shall be paid to the victims, Sept. 19, the date on which their bodies are embarked for Italy.

The note is signed by Premier Poincare and addressed to the French Minister in Athens.

Italian Ministers Approve Decisions of Mussolini.

By the Associated Press.

ROME, Sept. 14.—Premier Mussolini today addressed the council of ministers, summarizing all phases of the Greco-Italian conflict and the successful results he had obtained in the diplomatic battle at Geneva and Paris. The Council of Ministers unanimously approved the decisions which had been made by Premier Mussolini throughout the course of the crisis.

Italy's rights of recourse are preserved as to requiring repayment from Greece of the expenses of the Italian occupation of Corfu.

Further semi-official advices state that if by Sept. 27, the date set for Italy's evacuation of Corfu, Greece is shown to have been negligent in fulfilling the reparation conditions, a penalty will be inflicted in the form of payment of another 50,000,000 lire gold, in addition to Italy's first demand.

Statements given out at Paris where the council of Ambassadors sits do not mention an additional penalty of 50,000,000 lire and some of the other points in the advices reaching Rome.

SEEKS TO RESUME FIUME NEGOTIATIONS

By the Associated Press.

BELGRADE, Sept. 14.—The Italian charge d'affaires here informed the Jugo-Slav government last night of Premier Mussolini's desire that direct negotiations between Rome and Belgrade regarding Fiume be resumed. No decision has yet been reached here but the resumption of negotiations on a fresh basis is considered possible.

The time limit set by Premier Mussolini of Italy for a settlement of the status of Fiume expires in two days, but the government and the public seem quite unperturbed, although Mussolini's terms are tantamount to the annexation of Fiume. The Foreign Office declares no opposition will be offered to the annexation of Fiume, and there are no signs of any military preparation here.

Italians Mine Waters Surrounding Dodecanese.

By the Associated Press.

LONDON, Sept. 14.—The Italian Embassy has notified the British Foreign Office that the waters surrounding Dodecanese, Island of Leros, have been mined for a distance of three miles.

Agreement on Fiume Issue Reported to Be Near.

By the Associated Press.

PARIS, Sept. 14.—When Premier Mussolini declares the annexation of Fiume to Italy he will announce the withdrawal of the Italian troops from Porto Baros, the adjoining harbor, it is learned here from an authoritative quarter. He will thus give up any claim to that port, to Sussak and to the Delta there, which will be left to Jugo-Slavia.

This, it is stated, is the result of direct negotiations now going on between Premier Mussolini and the Jugo-Slav Government, which are reported at about the point of completion, Jugo-Slavia being satisfied to have a free hand in the development of the ports left to it.

Premier Mussolini's declaration of the annexation of Fiume was fixed for tomorrow, the fifteenth, according to previous announcement, and it is tomorrow also that the time limit expires on Mussolini's note to Jugo-Slavia which had been construed in some quarters as an ultimatum.

The latest developments, both in Rome and Belgrade, appear to tend toward a settlement which will remove the Serbo-Italian crisis, at one time threatening the breaking of relations and possible hostilities, from the international field, as the Greco-Italian situation appear to have been removed.

Special Cable to the Post-Dispatch and Chicago Daily News. Copyright, 1923.

LONDON, Sept. 14.—While British diplomacy has remained in the background during the heated dispute over Mussolini's angry demands upon Greece and Jugo-Slavia, its effects are becoming more apparent as the atmosphere clears.

Lord Crewe in Paris has undoubtedly calmed Mussolini's rampant temper by firmly demanding assurances that Italy would evacuate Corfu by the end of the month. Throughout the controversy Great Britain has insisted upon moderation, finally using a veiled threat to prevent a rupture of peace in Southern Europe.

The same method is being used in seeking a solution of the Fiume situation. In this matter as in the occupation of Corfu, British diplomacy has stood firmly against Mussolini's methods. Experts have examined carefully all documents relating to the negotiations for establishing the boundary of the Free State of Fiume and have failed to find in them any excuse for Mussolini's ultimatum to the Jugo-Slav Government.

Realizing the danger of offering Mussolini any pretext whatever for offensive action against Jugo-Slavia, both Great Britain and France have urged the Slav Government to take all troops away from the Italian frontier. As the situation stands today Mussolini has no grounds upon which to resort to war. It is believed here that a peaceful solution of the Fiume boundary question is now only a matter of a few days.

FRENCH EXPERTS TO STUDY THE NEW GERMAN PROPOSAL

Government Wants Information on What Probably Could Be Realized on Individual Industry It Is Proposed to Pledge.

Special Cable to the Post-Dispatch and New York World.

(Copyright, 1923, by the Press and Pulitzer Publishing Cos., the New York World and the Post-Dispatch.

PARIS, Sept. 14.—Chancellor Stresemann and Premier Poincare are still a long way apart. Germany must announce her readiness to make more substantial concessions before Franco-German negotiations can be considered on a solid basis. Such seems to be the general opinion of Chancellor Stresemann's speech in French official circles.

It is agreed that Herr Stresemann's speech indicates a real desire to reach an understanding and it is realized that the Chancellor has to prepare German opinion gradually for the sacrifices the country must finally make. To that extent the Chancellor's utterances have not created a bad impression, but the correspondent finds a distinct tinge of disappointment with the actual propositions contained therein.

"There is nothing substantial in them," it is complained. "We already hold a substantial pledge in the Ruhr and Stresemann still seems to cherish the hope of persuading us to relinquish for something less tangible."

Will Study New Proposal.

The French Government, however, has asked its experts to examine immediately the value of the possibilities of sharing in Germany's individual resources, which Herr Stresemann proposed to hand over to the allies. Although something of the kind has already been a mooted scheme, the transfer of a mortgage on Germany's private sources of wealth to the allied commission in the form suggested by Stresemann, is declared to be new to the Quai d'Orsay, and it will be carefully studied.

The German Chancellor, however, must abandon his attempts to drive a bargain, which in French eyes he is still intent on doing.

In conversation today with a responsible authority the correspondent gathered that France will not yield an inch on the question of passive resistance in the Ruhr. She insists that passive resistance must cease before she will consent to enter a general discussion of the German suggestions. It is pointed out that Herr Stresemann reverses the problem by saying "evacuate the Ruhr so that we can pay you," whereas, France demands "pay—then we will evacuate."

Cash Not Expected Now.

In this connection, it is said, France does not expect actual payments in cash immediately. Guarantees or pledges representing real value on accurance of the possibility of such value being transformed into negotiable wealth would satisfy France, and would in France's eyes justify a progressive evacuation of the Ruhr.

Another important point on which there has been misunderstanding can now be cleared up. Although some French statesmen would like Germany to abandon passive resistance with a dramatic gesture, proclaiming her capitulation before the whole world, the French Government will be satisfied if resistance is simply allowed to die out with no formal declaration of its demise. It is realized that Germany is in a very bad way, but Herr Stresemann has been told that he must swallow the nasty medicine prescribed by Dr. Poincare as the only remedy for saving his country from collapse.

Chancellor Stresemann's demand for the reintegration of Germans expelled from the Ruhr is answered, according to officials here, in the document number 25 in the Yellow Book recently published, in which Poincare states that in the event of the cessation of passive resistance, each case would be judged on its merits and in general he envisages the withdrawal of virtually all writs against German workmen engineers.

French Intermediary a Diplomat of the Old School.

(Copyright, 1923, by the Press and Pulitzer Publishing Cos., the New York World and the Post-Dispatch.

BERLIN, Sept. 14.—Pierre De-Margerie, who has been placed as an intermediary during the present pourparlers between Paris and Berlin, is a diplomat of the old school. Now 61 years of age, he has been in the French diplomatic service 40 years. His career has included high offices at Pekin, Hongkong, Constantinople, Washington and Brussels. Twenty years ago he was the first secretary at Washington, serving two years. He gained special distinction for tact and shrewdness during the Algeciras conference. Subsequently he was appointed Minister.

During the war he was First Secretary to Premier Clemenceau. Later he was appointed Ambassador to Brussels. He was appointed to his present post last December, and he boasts that he has not left Berlin for a single day since his arrival here. He is a widower, his late wife having been a sister of Edmund Rostand and herself a poet.

Germans Quietly Ending Passive Resistance in the Ruhr.

Special Cable to the Post-Dispatch and Chicago Daily News. (Copyright, 1923.)

BERLIN, Sept. 14.—The Government today was quietly cancelling Ruhr credits and withdrawing ordinances relative to passive resistance. This will not be published widely, but will be allowed gradually to penetrate the nation's consciousness. The Government must spare German feelings because of the internal situation.

GERMANY HAS MADE BEST OFFER, CUNO SAYS

Former Chancellor, in U. S., Declares 30,000,000,000 Gold Marks Is Nation's Limit.

By the Associated Press.

NEW YORK, Sept. 14.—Germany can pay no more than 30,000,000,-000 gold marks in reparations, the sum offered in the last proposal made by Berlin, Dr. Carl Joseph Wilhelm Cuno, former Chancellor of Germany, declared today on his arrival on the steamship Reliance for a visit of several weeks in this country.

Dr. Cuno, who now is president of the Council of the Hamburg-American line, said he was visiting the United States for the fourth time as a private citizen and as a shipping man.

"The sole purpose of my trip," he declared, "is to renew personal and business relations with my American friends. As on my previous visits I have no connection with politics which I definitely left behind when I resigned the office of Chancellor."

Cuno, a business-like middle-aged man with a perfect command of English, freely answered questions of reporters. Before he became Chancellor, he said, he had been offered the Ambassadorship to the United States several times but refused. Asked if he were coming here now to relieve Dr. Otto Wiedfeldt, the present Ambassador, he answered: "The office has not been offered to me since I resigned as Chancellor." After some hesitation he said he would refuse the post if it were offered to him now.

The former Chancellor denied he was here in the interest of a proposed $1,000,000,000 interallied loan to Germany or to arrange extension of the Hamburg-American and W. A. Harrimann Shipping Combine.

Informed that Count Kessler, German spokesman at the recent Institution of Politics at Williamstown, Mass., had predicted several weeks ago that Germany would collapse financially and industrially within a month, Dr. Cuno laughed merrilly. In a formal statement he said:

"The Germans realize that Germany lost the war and that Germany, therefore, must pay for the war. Germany is willing to pay to the limit of her capacity. Life in the Ruhr districts, the industrial heart of Germany, is at standstill and until the Ruhr conflict has been settled no one can estimate Germany's capacity to pay."

A Yorktown striped woolen this fall

A custom tailored suit of Yorktown striped woolen,
$55

Dark blue with stripes, some narrow, some wider; some in white, others in colors. These are the Yorktown woolens for Fall.

Really, there's no way of telling about these woolens. Just stripes on blue; but so mystifying are stripes in the hands of master weavers, that full thirty distinctive patterns result.

Yorktown stripes are going to be the favorite of many men accustomed to selecting from among fine woolens. Yorktown woolens are worthy of being fashioned by hand to individual measurements.

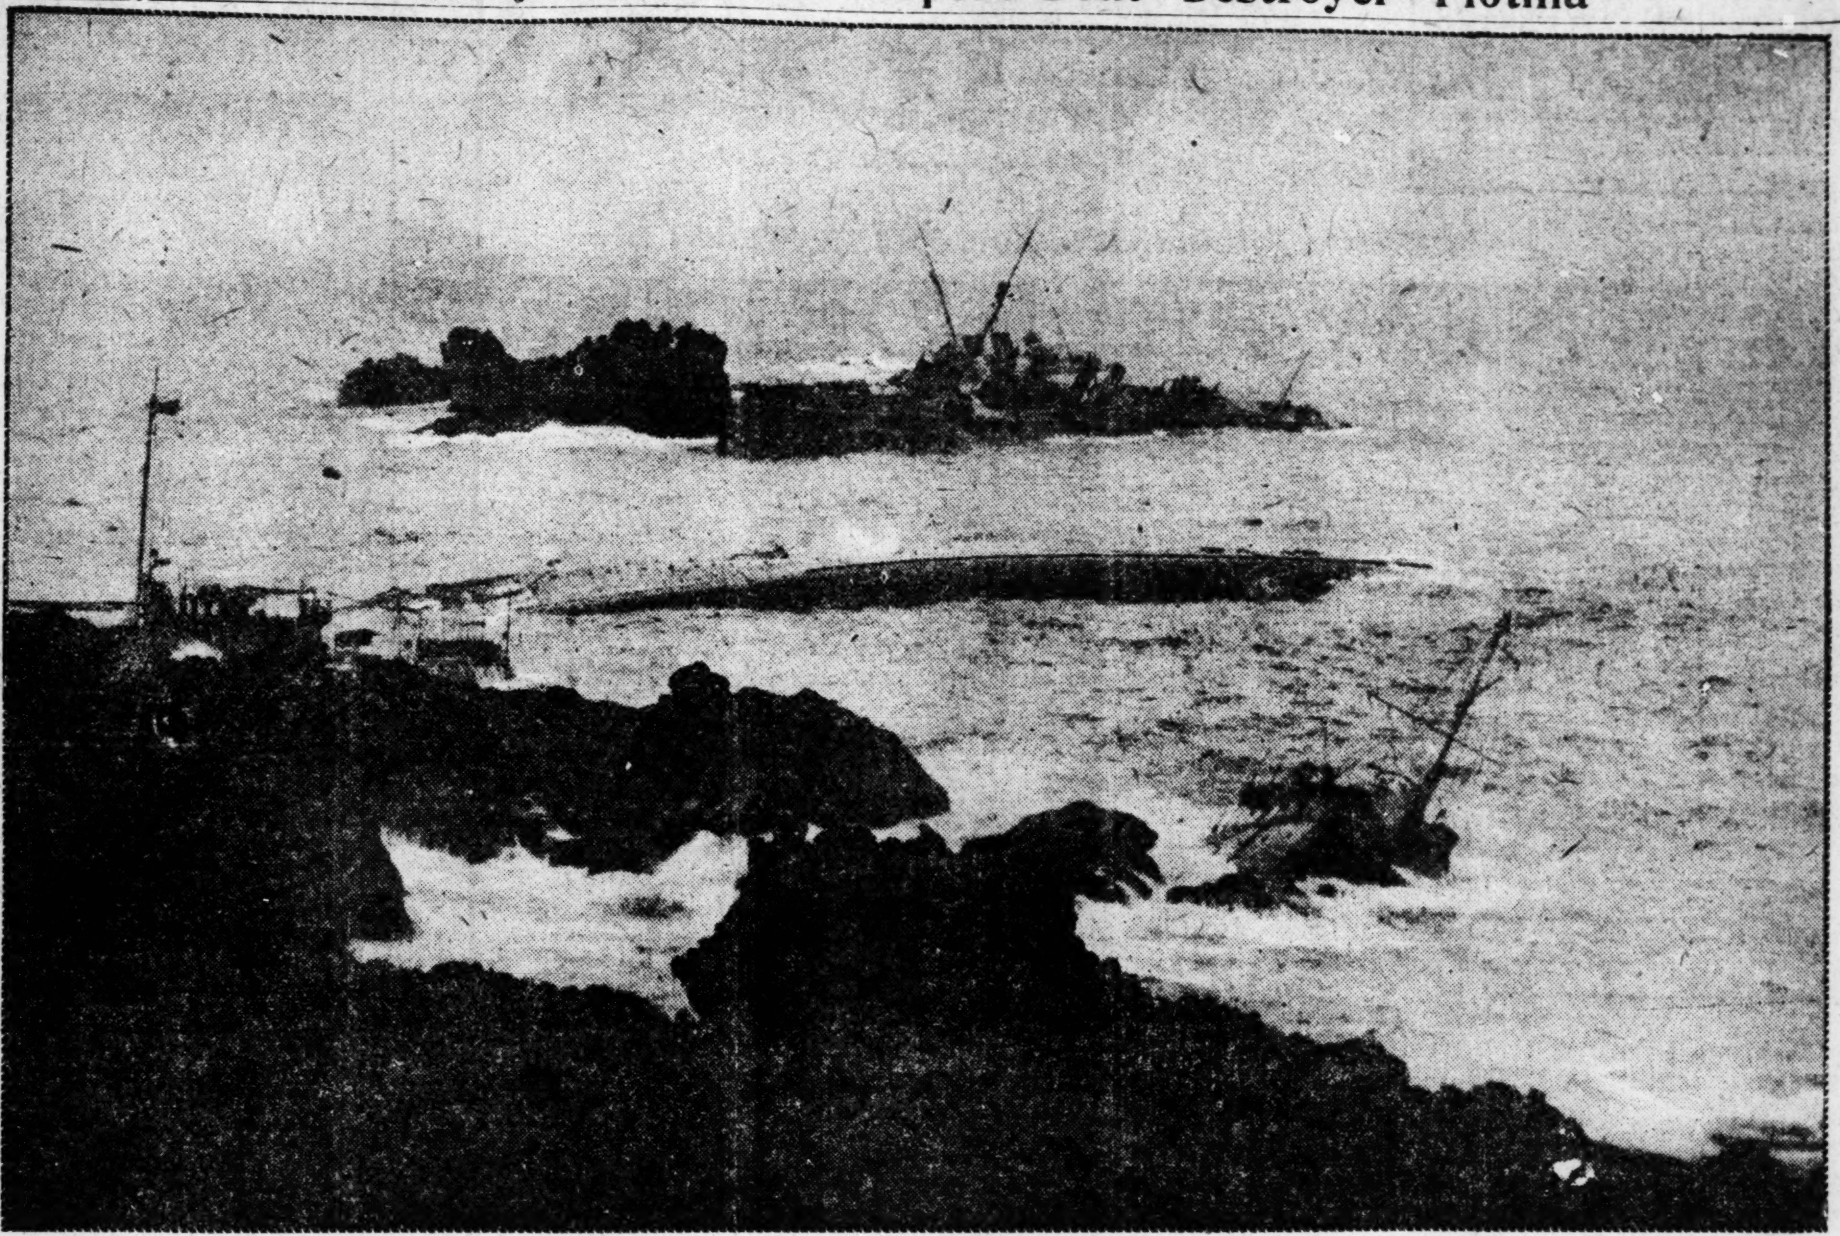
The Graveyard of the Torpedo-Boat Destroyer Flotilla



—Pacific & Atlantic Photo.

THE steamship Cuba went on the rocks off Point Arguello, Cal. She sent out a radio call for help. Seven United States torpedo boat destroyers, driving 20 knots an hour through a heavy fog to the relief of the Cuba, hit the rocks that make those shallow waters a peril to mariners, and all seven were lost. The strange affair has been called the greatest peace-time disaster of the navy. In this picture, in the foreground, is shown the destroyer which broke in two. In the middle distance is another which turned turtle. In this craft, more than twenty lives were lost. In the distance are two more destroyers wrecked on the rocks.

HUSBAND SHOOTS MOTHER OF FOUR FOR A BURGLAR

Mrs. Katherine Hembree Critically Wounded When, Awakened by Her Fall in Kitchen, He Fires.

SHE HAD ARISEN TO INVESTIGATE NOISE

Wife's Version to Be Accepted as Ante-Mortem Statement by Coroner in Event of Her Death.

Mrs. Katherine Hembree, 34 years old, of 7349 Virginia avenue, mother of four children was shot and critically wounded at 11:30 o'clock last night by her husband, Frederick Hembree, 37, a tea and coffe salesman, when he fired at an imaginary burglar.

The Hembrees retired at 10 o'clock. Soon after 11 Mrs. Hembree was awakened by a noise outside the kitchen door. She aroused her husband. He listened and, hearing nothing, went back to sleep.

Fires at Silent Figure.

Mrs. Hembree remained awake and a few minutes later when she thought she again heard a noise, went into the kitchen to investigate. She found no sign of a burglar. As she was returning to the bedroom she stumbled over a kitchen chair and fell.

The commotion awakened Hembree. He recalled that his wife had heard a noise, and when he saw a form arising from the kitchen floor, he reached over the side of his bed, picked up his revolver and fired twice at the silent figure.

"Fred, you've shot me," cried Mrs. Hembree, and fell unconscious. Hembree turned on the lights, then called policemen.

Two Bullets Hit Her.

Mrs. Hembree was taken to city hospital suffering from two wounds. One of the bullets had penetrated her abdomen and the other had gone through her right hand. Hembree, prostrated with grief, accompanied his wife to the hospital.

Coroner Richter, who is the Hembree family physician, interviewed Mrs. Hembree and her husband at the hospital today in his official capacity. He said Mrs. Hembree's version of the shooting would be accepted as an antemortem statement in the event of her death.

In the presence of policemen, the Hembrees assured the Coroner that the shooting was accidental, and that Hembree had mistaken his wife for a burglar. Hembree was not detained.

Their children are Fred Jr., 11, Loretto, 10; Adelaide, 8, and Joseph, 2. A fifth child was expected soon.

90,000 MAY SEE DEMPSEY AND FIRPO IN FIGHT TONIGHT

Continued From Page One.

both boxers be well shaven when they climbed through the ropes was agreed to by Dempsey, who usually comes into the ring with a thick stuble on his face. He was wearing a light beard today. Firpo, who arrived sporting a young pine forest, argued the point with the chairman and was permitted to come in dodging the barber.

There was a crowd of 5000 persons outside of the Flat Iron Madison Square Garden while the fighters were weighing in.

Dempsey was given a tremendous ovation when he left the building behind a troop of policemen who wedged an aisle through the crowd for him. Just before Firpo got away from the entrance the surging crowd crashed through two plate glass windows. He was not hurt by the flying glass.

With great difficulty a way was cleared for Firpo to his automobile and he was whisked away to his apartment to wait until time to go to the arena.

Crowd Outside Grounds.

Early in the afternoon the crowd waiting outside the Polo Grounds, nearly large enough to take all of the 5000 $3.30 seats that would be available to scramblers at 4:30 o'clock when the gates were to be thrown open.

As the day wore on the odds on the champion were reported to be lengthening and several large sized wagers were made at 4 to 1 that Dempsey would win. There was plenty of money in sight and several bets were made at 9 to 5 that Dempsey would score a knockout.

In mid-afternoon the sun came out in a clear blue sky, warming up the workmen who were adjusting the [illegible] for "The Battle of the Con[illegible]."

[illegible] the head of the waiting line outside the Polo Grounds was Mrs. Rose Zenzer, a matronly-appearing woman from the Bronx. She and her brother, who accompanied her, were for Dempsey.

Youngest Rooter in Line.

The youngest rooter in line was Charles Cormiskey of Carbondale, Pa., who boasted of "eight years old, going on nine." He came with his uncle, Henry Collins, in the hope of seeing Dempsey win.

A constable and a sergeant attached to the Canadian Northwest Mounted Police who journeyed long distances from their posts, were close up to the front next two New Yorkers who took turns sleeping in a rocking chair they brought from home.

Experts Predict Quick Knockout.

The actual time Dempsey and Firpo will be fighting each other cannot exceed forty-five minutes. The bout is scheduled to last fifteen rounds of three minutes each. Most experts and enthusiasts predict that it will not last nearly that long. Indeed, some have predicted that there will be less than three minutes of fighting. Most of the predictions of this sort come from those who think Dempsey will win. They are counting on a furious attack from the start with the result that Firpo will be knocked out in the first round. Many others think differently.

Firpo faces his ordeal without the backing of the experts. Virtually all of them expect him to be floored by the fighting machine North America has produced in the shape of Dempsey. "But I am not afraid," says the challenger. Psychology may play an important part in this physical test tonight. Firpo has been hailed by his countrymen as the "man of destiny." His fellows of the Latin race are counting on him. He knows the great acclaim that will be his should he win the championship.

Argentine's Dogged Determination

Firpo will fight; every one admits that and those who say he will win are basing their predictions largely on his downright desire to win. They admit he lacks Dempsey's experience, his speed, his ring generalship; they admit he is somewhat awkward as far as boxing standards go. But they say Firpo has a mighty wallop; he can stand being hit hard and they believe he will be able to take the blows Dempsey will deliver and then, finally, land one glorious punch that will spell his victory.

"If I am knocked down again and again, I will come up again and again," says Firpo.

They don't usually come up when Dempsey knocks them down. It is dogged determination expressed by the Argentine that his backers are counting on.

Dempsey enters the arena with the confidence of the champion. He has proved that he is a great fighter. Few men have been able to hit him. Only Tommy Gibbons, the St. Paul light heavyweight, has been able to withstand his onslaught for a full 15 rounds since he became champion. Gibbons was defeated even then on points in Shelby, Mont., last Fourth of July. Dempsey's other foes have faced him for a short time only. First, he pounded his way to the title by giving Jess Willard a terrific pummeling. Then came Billy Miske and Bill Brennan. Both fell before his smashing attack. Then came a dapper Frenchman, Georges Carpentier, popular idol and war hero. But Carpentier was added to the list of the mauler's victims.

May Set Attendance Record.

Dempsey stayed out of the ring for two years until his fight two months ago with Gibbons. Some said he was not the Dempsey of old in that fight; that his man-killing powers were diminished. But Dempsey, now, says he is in better shape than he ever was. There is none of the braggart in his statement that he expects to win, for he says Firpo is "big and strong and dangerous."

"If I can end the fight in one round, I'll do it," says Dempsey.

The experts expect a slashing, tearing, terrific attack from the moment the first gong sounds. Will Firpo be able to face it? That is what more than 90,000 persons are paying more than $1,000,000 to find out.

In point of attendance, it is expected the fight will rival that of two years ago when Dempsey won from Carpentier, an event that established a world's record for a prize fight. The historic Polo Grounds, home of the New York Giants baseball club, has been made over for the occasion. Rickard announced last night that seats for 90,374 persons would be provided, with plenty of standing room available.

Many notables will gather at the ringside. Men prominent politically will rub elbows with veterans of the fighting game. Captains of finance and stars of the theater will think alike for the night. Many women will have seats, adding a dash of color to the scene.

And far away downtown, still further away in every city, village and hamlet in the country will be fight fans listening to details of the battle. Some will follow it by radio; others will stand in front of newspaper offices.

Down in the Argentine and in every South American country there will be the same watchers. There they will be hoping for the news to tell of Firpo's victory

Dempsey is the eighth heavyweight champion of the world since gloves began to be used in the ring. John L. Sullivan was the first.

Odds 3 to 1 on Dempsey.

Wagering on the outcome of the fight, which so far has been comparatively light, gained impetus today with the arrival of thousands from out of town. The confidence of the majority in Dempsey's ability to win was reflected in the odds, which lengthened on the champion with reports of several large wagers at 3 to 1 that he would be the victor. One bet of $15,000 to $5000 was reported at these figures. Among numerous odd wagers was at even money, $1500 each, that Firpo would at least knock Dempsey down for a count.

The fighters were pronounced in perfect condition. Dempsey came to New York yesterday afternoon by train and went at once to a hotel. Firpo, who returned Wednesday from his training quarters in Atlantic City, N. J., spent yesterday at his uptown apartment, except for an hour or two this evening when he attended a reception given in his honor by the Spanish Society.

Under a change in the program, the title match will start as close to 9:30 o'clock, Eastern daylight saving time (7:30 St. Louis time), as possible, instead of 10 o'clock. Ring formalities, however, may cause some delay.

"Gene Tunney, American light-heavyweight champion, who was slated to appear in the semifinal 12-round bout with Leo Gates, an Indian fighter, has been forced to withdraw because of an old injury to his right hand. Bartley Madden has been substituted. The bout will be held after the main affair.

Three preliminaries, starting at 8 o'clock (6 o'clock, St. Louis time), will bring together lesser known heavyweights. They are between Mike Burke and Al Robertson, both of New York, six rounds; George Brown of Australia and Dan Bright of England, six rounds; Jack Burke of Pittsburg and Bill Reed of Columbus, Ohio, eight rounds.

Holiday in Argentina, Crowds Parading, Singing and Cheering.

Special Cable to the Post-Dispatch and Chicago Daily News. (Copyright, 1923.)

BUENOS AIRES, Sept. 14.—Buenos Aires awoke this morning in full expectancy, enthusiastic crowds appearing early in the streets, singing, cheering and parading in anticipation of a Firpo victory tonight.

Interest among the masses in the fight is astounding the Government leaders.

All other news is secondary. The uprising in Spain and other world news got no attention from the crowds massed around the offices of the afternoon newspapers, eagerly awaiting editions giving news about the condition of the fighters, and discussing the many rumors afloat.

The press has played up the fight to the extent that the populace has been whipped to a fever heat and the people look upon the bout as of great importance as a test of superiority and strength between the United States and Argentina. Some of the newspapers have been publishing daily pages of interviews with prominent Argentine residents giving their opinion on the outcome. All have insisted that Firpo could not help winning, unless underhanded methods were used to prevent the championship from coming to South America.

Throughout the Argentine in every city and hamlet the same enthusiasm and expectancy prevails. The entire nation is making this a holiday, while all other republics of South America are taking a lively interest in the fighting, showing equal pride in Firpo's fistic career. In event he wins they will celebrate the victory just as enthusiastically as Argentine.

AVIATOR SETS NEW SPEED RECORD OF 244 MILES AN HOUR

Pulitzer Trophy Race Entrant Used Plane He Will Pilot at St. Louis in October.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 14.—Piloting the first naval Curtiss airplane fitted with double concave wings, Lieut. H. U. Brow, U. S. N., Pulitzer trophy air race entrant, attained a speed of four and one-quarter miles a minute yesterday over a one-kilometer course at Curtiss Field, Mineola, L. I. Electric timers recorded the plane on one trip over the course as making 255 miles an hour.

Lieut. Brow's speed yesterday was 244.15 miles an hour. Monday a record of 238 miles an hour was made at Mineola by Lieut. L. H. Sanderson of the marine corps in a Wright navy biplane.

At Selfridge Field, Michigan, Lieut. Russell L. Maughan set the unofficial world's record when he traveled 248.5 miles an hour in October, 1922.

Lieut. Brow entered the naval aviation service in January, 1918, from Providence R. I., and is attached to the U. S. S. Langley, navy airplane carrier.

His plane was dismantled after the flight yesterday, preparatory to being shipped to St. Louis for the Pulitzer races next month.

Five Stills Seized in Gallatin County

HARRISBURG, Ill., Sept. 14.—Two United States Marshals and two United States Deputy Marshals, assisted by Sheriff Small and several Saline and Gallatin County officials, made raids at Junction, Gallatin County, 20 miles east of Harrisburg. Five large stills were seized with 100 barrels of mash and 5000 gallons of "white mule."

SHOTS DRIVE LOOTERS AWAY FROM WRECKS OF DESTROYERS

Guard on California Shore Has Orders to Fire to Kill at Unknown Vessels.

By the Associated Press.

SANTA BARBARA, Cal., Sept. 14.—Looters have begun their work at Point Honda, where the hulks of seven American naval destroyers are being beaten to pieces by the waves, following the catastrophe of last Saturday. A naval guard stationed there has been instructed to fire to kill on the approach of any unknown small boats near the wrecks.

A dozen shots were fired last night at two fishing boats which attempted to send boarding parties to the hulks, according to Lieut. C. W. Lee, commanding the guard detail. These boats appeared out of the fog, and were hove to alongside the stranded vessels, Lieut. Lee said, when he gave orders to fire. None of the shots were effective and the unidentified craft made away. Some small but valuable equipment is said to have been stolen before the guard was armed.

Two bodies were recovered yesterday. One was identified as that of Gordon J. Overshiner, of San Jose, Cal. It is the theory at Point Honda that all bodies of the victims not recovered eventually will be washed ashore.

The naval board of inquiry investigating the disaster at Honda adjourned after one session yesterday to 10 o'clock Monday morning.

LETTER CARRIERS IN CINCINNATI

St. Louisans and Band Guests at Luncheon in Ohio City.

Special to the Post-Dispatch.

CINCINNATI, Sept. 14.—Their band and 125 St. Louisans, members of the National Association of Letter Carriers, en route from Providence, R. I., where they attended the national convention of the association, to St. Louis, today serenaded at the Federal Building Postmaster Behymer and the clerks and the carriers of the Cincinnati Postoffice. The band and delegates were guests of honor at a luncheon given at the Grand Hotel by the Cincinnati branch of the National Letters Association. They departed for St. Louis.

LIGON GETS 60-DAY WORKHOUSE TERM

Real Estate Man Found Guilty of Assault and Battery Charged by Young Woman.

Hardy Ligon, 45 years old, of 4540 Washington boulevard, president of the Ligon Real Estate Co., today wes sentenced to 60 days in the workhouse in the Court of Criminal Correction after he was found guilty of assault and battery. The complaining witness was Miss Esther Volkerding, 25, of 5232 Dale avenue. She testified that the incident occurred the morning of May 14 after an evening spent in riding in his automobile and drinking in cafes. Ligon announced he would appeal.

Ligon was arrested after the alleged offense, Miss Volkerding having complained to police. She testified that she and Ligon, with others, spent the evening visiting in the West End, and at the Melbourne Hotel roof garden. When dancing ceased at the roof garden, she said, they went to a restaurant at Delmar boulevard and De Baliviere avenue, remaining there until about 3 a. m.

She alleges Ligon struck her several times when she resisted his advances en route home and that she finally jumped from the automobile at West Pine boulevard and Vandeventer avenue. She said the party had been drinking considerably although she had only one glass of wine.

Ligon denied the charge of assault and battery. He admitted that he had been drinking. He also admitted that he had been fined $100 last March on a charge of assault in connection with an attack upon C. M. Forman, also a real estate dealer.

PLUNDERING OF INDIAN'S LAND ASSAILED BY JUDGE KENYON

"Would Have Had Nothing But His Postoffice Address If Government Had Not Intervened.

By the Associated Press.

DENVER, Colo., Sept. 14.—The United States Circuit Court of Appeals here yesterday handed down a decision written by Judge William S. Kenyon, sustaining the United States District Court of Oklahoma in the case of the United States against Walter T. Apple, et al, involving the land of Benjamin Quapaw, an Indian. In the decision Judge Kenyon declared if the Federal Government had not intervened when it did in behalf of Quapaw he "would have had nothing left but his postoffice address."

"The record of this case shows plundering of Benjamin Quapaw shocking to those who have become accustomed to regard Indians as wards of the Government and not legitimate prey for grafters," said Judge Kenyon. "Before the Government stepped in and stopped this orgy of plundering approximately $178,000 of Quapaw's money had been dissipated.

"The certain man who in the scriptures went from Jerusalem down to Jericho and fell among thieves," said Judge Kenyon's decision," had but a mild financial experience compared with Benjamin Quapaw."

CIRCUS BEGINS ENGAGEMENT

The Al G. Barnes circus began a three-day engagement today at Laclede and Vandeventer avenues with performances scheduled for this afternoon and evening.

There was a parade at noon from the show grounds through the downtown disrtict.

U. S. FIGHTS TO TRY MAN FOR CAMP KILLING

Appeals From Decision Freeing Pothier, Accused in Cronkhite Case.

By the Associated Press.

WASHINGTON, Sept. 14.—The Government asked the Supreme Court today to reverse the decision of the First Circuit Court of Appeals directing the release of Roland R. Pothier, who had been held in connection with the death of Maj. Alexander P. Cronkhite at Camp Lewis, Wash., in 1918.

Said to Have Confessed.

The Government pointed out that Pothier and Robert Rosenbluth had been indicted for the murder of Croknhite by the Federal District Court for Western Washington, and that Pothier was said to have confessed he fired the shot which killed Cronkhite. Pothier contended that the Federal Government had no jurisdiction, and his contention was overruled by the United States District Court for Rhode Island, but subsequently this decision was reversed by the Circuit Court of Appeals. The latter decision prevented removal of Pothier to Washington for trial.

The decision of the Circuit Court, the Government petition alleged today, was based solely on the ground that the alleged crime was not committed on territory over which the Government had exclusive jurisdiction. The petition said that, on the contrary, the reservation where Maj. Cronkhite lost his life "had been expressly ceded by the State of Washington to the United States," and "at the time of the murder the United States was exercising, with the consent of the Legislature of the State, exclusive de facto jurisdiction over the territory."

"New Defense for Murder."

The District Court was right, the Government insisted, in refusing to discharge Pothier in a habeas corpus proceeding "merely because a controverted question of fact had been raised." It insisted that only the Federal District Court in Washington, where Pothier had been indicted, was competent to determine whether it had jurisdiction to try him.

Questions raised concerning defects of title to land deeded to the Government should not be permitted, the petition insisted, to "become a new defense for murder." Pointing out that the State of Washington had abstained "from exercising jurisdiction to apprehend and punish anyone implicated in the alleged crime," the Government declared it was "of great public importance that men indicted for murder should not escape trial altogether because neither the State Court nor the Federal Court will exercise jurisdiction."

SPEED TEST FOR ZR-1 PLANNED

Navy Dirigible to Be "Turned Wide Loose" Monday.

By the Associated Press.

WASHINGTON, Sept. 14.—The next test of the navy dirigible ZR-1 will take place Monday, when she will be sent over the vicinity of Barnegat Bay. The Naval Air Service announced today the big dirigible would be "turned wide loose" in an effort to determine definitely the geratest speed of which she is capable.

The six engines were designed to drive the airship 70 miles an hour.

ENGLISHMAN, IN CHICAGO, WOULD WED NANCY JORDAN

Wires Proposal to Young Women Who Had Announced Intention of Leaving United States.

By the Associated Press.

CHICAGO, Sept. 14. — Claude Hethington Clarke, an Englishman, who is now a Chicago salesman, yesterday telegraphed a proposal of marriage to Miss Nancy Jordan who came to Kansas City with her young son a year ago from England, to make her home with Mrs. Van Trump Warren.

Miss Jordan, who became acquainted with Frank Warren, divorced by Mrs. Warren, while he was in the service overseas, Wednesday announced her intention of returning to England, declaring that the "enobling altruism" with which Mrs. Warren extended her invitation for Miss Jordan to live with her had failed.

Clarke said he met Miss Jordan while the two were on board a ship bound for America and had fallen in love with her and now wished to shield her from whisperings which he declared would greet her if she returned to England.

Clarke last night received a reply from Miss Jordan saying she was not yet ready to answer his proposal. Clarke said he intended to press his suit and would write Miss Jordan a letter urging that she accept him.

CLASH BETWEEN JOBLESS AND POLICE IN DRESDEN REPORTED

Five Arrests Made After Demonstration—13 Rioters Wounded in City Earlier in Week.

By the Associated Press.

BERLIN, Sept. 14.—A dispatch to the Tageblatt from Dresden says that new collisions have occurred there between unemployment demonstrators and the police and that five arrests have been made.

Last Tuesday the police fired on a crowd of demonstrators outside the City Hall and 13 rioters were wounded.

Falling Coal in Mine Kills Man.

By the Associated Press.

CHRISTOPHER, Ill., Sept. 14.—"Billy" James, 45 years old, was killed at the Valier mine, three miles from here, yesterday by coal falling on him. He was a brother of Jack James, County Mine Inspector.

To Keep That Sparkle in Her Eyes

Advance Display of

FINE LINENS

—Exhibiting the Marvelous Offerings Prepared for Our 31st Anniversary Sale

TOMORROW is the last of a three-day advance display of these Linens, being held on our Second Floor. We invite your attendance.

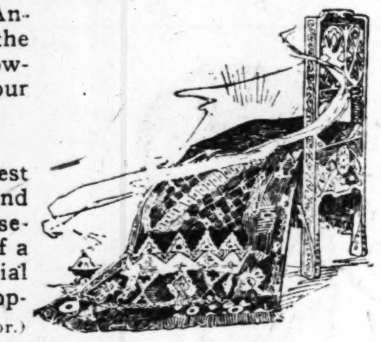
Linens of surpassing beauty, exquisite in texture and lavish in delicate handwork, have been gathered from many countries for this occasion. Countless Madeira pieces, displaying the skillful artistry of Portuguese needlewomen, vie in beauty and charm with scarfs of Italian cutwork, embroidery and filet lace. Lovely pattern tablecloths of lustrous satin damask, from Ireland, depend upon their own beauty for embellishment.

No less astonishing than their beauty are the low prices at which these beautiful Linens have been marked.

(Second Floor.)

Advance Showing of

ORIENTAL RUGS



The Oriental Rugs which have been assembled for our Anniversary Sale are on display today and tomorrow, in the handsome Moorish Room, devoted exclusively to the showing of these rare Rugs. Selections may be made from our vast collection, at prices that will obtain during the Sale.

When it is considered that these Rugs embrace the finest weaves to be found, that they are of indescribable beauty and craftsmanship, that connoisseurs have spent months in selecting them, and that they aggregate in value a quarter of a million dollars, the occasion that brings them at special prices will be recognized as a truly remarkable buying opportunity.

(Sixth Floor.)

HOSIERY SPECIAL

(Main Floor.)

A Presentation of Fall Modes

In the Misses' Store

THE thrill of choosing clothes for a new season may be indulged as modestly or as extravagantly as one chooses, for here in the Misses' Store assortments are complete and price range is wide.

The Dresses

Youthful affairs designed for the practical side of life are shown in Poiret twill. They are made in coat fashion, fastening on the side. Dresses for afternoon occasions appear in crepe satin and charmeen. *$45.00 to $95.00*

Entrancing Dance Frocks of chiffon velvet and metal cloth combined effectively with gray or gold lace. *$65.00 to $195.00*

The Coats

Winter Coats are no longer the plain things they used to be. They are glorified, but no less practical, because the materials that fashion them are thick and soft and warm. Straightline models are highly favored, tied or buckled on the side. Luxurious furs are generously used in trimming them—beaver, Viatka squirrel, fox, chinchilla, mole, kit fox and fitch. The colors: Tampa, brown, Sorrento, platinum, navy and black. Sizes 14 to 18. *$95.00 to $295.00*

(Third Floor.)

In the Girls' Store

ALL manner of apparel for the younger girl is here for her choosing—the things she wears to school, and those she must have for "dress-up" occasions.

The Coats

Fur-trimmed Coats for girls of 12 to 16 years are here in plaids and plain materials, at prices ranging from *$35.00 to $125.00*

School Coats, practical in style, at *$18.75 to $25.00*

Coats for 8 to 14 year old girls are shown in flare and belted models, in all-wool materials. They have beaverette collars and are lined throughout. *$15.75 and $19.75*

The Dresses

The Dresses of wool jersey, serge, Poiret twill and wool crepe, are varied in style, and attractively designed. Some have boyish collars—others are effectively embroidered. Velveteen Dresses are combined with other materials, in smart models. Sizes 8 to 14 years, at *$15.75 to $35.00*

The Skirts

Wool crepe and serge, in plaids and plain colors, box pleated or side pleated, in sizes 10 to 16 years. *$5.00 to $7.95*

Serge Skirts with white waists, sizes 6 to 14, at *$5.95*

(Third Floor.)

Smart Trimmed Hats

$5 and $7

IN that part of our Millinery Section devoted to Hats at popular prices, we are showing a great assortment of clever Autumn modes. The cloche with feather trimming, new pokes, embroidered tams, off-the-face styles with fancy ornaments, and black panne velvet Hats attractively shaped and trimmed.

Misses' Felt Hats Special, $3.95

Especially popular with high school and college girls. Poke styles, soft pull-down brims, and off-the-face models, with fancy ribbon trimming. Oakwood, beaver, sand, rust, and black.

Children's Hats $2.45 to $4.95

Broadcloth, felt and velvet Hats designed to frame small faces most becomingly. Poke and roll-brim styles, trimmed with tassels, ribbon, and fur pompons. In brown tones, sand, rust, Copen, red and black.

(Third Floor.)

(Thrift Avenue—Main Floor.)

ADMITS CRIME ANOTHER MAN GOT 20 YEARS FOR

Prisoner in Louisiana Tells of Carthage, Mo., Robbery After Taking "Truth Serum."

By the Associated Press.

SHREVEPORT, La., Sept. 14.—Scopolamin, the recently discovered "truth serum," resulted in a confession to police Wednesday night by Arthur Johnson that he committed a crime at Carthage, Mo., last fall, for which Jim Dawson was sentenced to 20 years in the penitentiary at Jefferson City, Mo. Johnson was shot by the police after he had robbed the home of J. P. Evans here.

"Last fall I held up and robbed a man and a woman in a home at Carthage, Mo., and took a watch and a suit of clothes," he said. "A man named Jim Dawson was arrested and confessed this crime. He was sentenced to 20 years in the penitentiary at Jefferson City, Mo. Dawson's confessions was false."

Pleaded Guilty Because Life Had Been Threatened, Prisoner Says.

JEFFERSON CITY, Sept. 14.—Dawson, a two-time convict, told the correspondent here yesterday that he was innocent of the charge, but agreed to plead guilty on the promise of Prosecuting Attorney Andrews of Jasper County that he would recommend the minimum sentence of seven years. His reason for doing so, he said, was that he had got in trouble with a man over a girl and the man had threatened his life. He felt he would be safe in the penitentiary.

He was not in Carthage at the time the robbery was committed, but was at Webb City, he explained. Andrews double-crossed him, Dawson charged, by failing to appear in his behalf when his case was called before the Judge and he received the maximum penalty of 20 years. He had been a drug addict and since coming to the penitentiary for his second term has been caught with drugs in his possession.

Dawson was sentenced to 12 years for burglary the first time and also served a term in the Boonville Reformatory.

POET LAUREATE OF ENGLAND TO SPEND YEAR AT MICHIGAN U.

Visit Will Be in Pursuance of Movement for Exchange of Lectures and Professors.

By the Associated Press.

LONDON, Sept. 14.—Robert Bridges, poet laureate of England since 1913, is expected soon to go to America to spend the college year at the University of Michigan. This will be in pursuance of the movement for the exchange of lectures and professors between the two countries, but Bridges' mission will be different from that of any of the other Britons who have gone to take part in the work of American universities.

His visit was arranged by President M. L. Burton of the University of Michigan, who sailed from England for home on the Majestic yesterday. President Burton could not say whether the poet laureate would lecture or take other active part in the university life, as that would be entirely as he chose.

MAN IN HOSPITAL ENDS LIFE

Frisco Railroad Conductor Had Been Ill Some Time.

William C. Christopher, 58 years old, of Cape Girardeau, Mo., a veteran conductor on the Frisco lines, died at the Frisco Hospital at 6:30 a. m. today from a bullet wound in the abdomen which he inflicted at the hospital at 4 p. m. yesterday.

Christopher had been at the hospital under treatment for cancer of the stomach for some time. His wife, Clara, who had been living at 5639 Rutger street, had just left the hospital when he asked an attendant to bring his suitcase from the basement. As the attendant left the room, Christopher took a revolver from the suitcase and fired one shot into his stomach. Attendants found him on the floor with the revolver in his hand, one empty and four loaded cartridges in it.

INVENTIVE GENIUS MAKES CALOMEL DELIGHTFUL

Most Valuable of Drugs, Now Purified and Refined From Its Nausea and Danger—"Calotabs" the Name.

The medicinal virtues of calomel are in no way connected with its nauseating and dangerous qualities, as is proven by the fact that the perfected calomel tablet, called Calotabs, is free from objectionable effects yet retains all of the liver-cleansing and system-purifying qualities of the old-style calomel. For biliousness, constipation and indigestion, and wherever calomel was essential, the new de-nauseated calomel tablet is a practically perfect remedy.

To inspire public confidence in their discovery the manufacturers have authorized druggists everywhere to refund the price if the customer is not "perfectly delighted" with Calotabs. Sold only in trade-marked packages. Prices ten cents and thirty-five cents. One tablet at bedtime, with a swallow of water, that's all. No taste, no nausea, no griping, no salts. You wake up in the morning with a clean liver, feeling fine, and a hearty appetite. Eat what you please—no danger.

For BARGAIN OFFERS in REMADE MACHINERY, see POST-DISPATCH WANTS.

33 CHILDREN IN THE FAMILY OF MICHIGAN RAGPICKER, 91

Oldest Is 67 and Youngest a Baby of 14 Months—Father Fought on Both Sides in Civil War.

By the Associated Press.

BAY CITY, Mich., Sept. 14. — Father of 33 children the oldest of whom is 67 years old and the youngest a babe of 14 months, is the claim to distinction of Charles L. Lucius, a ragpicker who is a descendant of two Dutch Generals, and successively a rancher, a guerilla fighter, Indian fighter, and member of both the rebel and Union armies during the Civil War.

Of the 33 children who have called Lucius father, the list includes four sets of twins, one set by his present or fourth wife, and the others by a second wife.

Lucius bears his 91 years lightly. He can do the accepted "daily dozen" exercises while the average person is making up his mind to start. With ease he can rap his knuckles on the floor without bending at the knees.

Woman Arrested and Alcohol Seized.

Mrs. Margaret Guttridge, 32 years old, of 3212 North Eleventh street, was arrested last night when Capt. Nally, North Market street district, reported finding in a basement of her home 205 gallons of alcohol in five-gallon cans, 36 cases of home-made beer, 24 quarts and a barrel and a half of beer and some crocks, caps and a bottle capper. The police procured a search warrant after they had traced an odor of liquor to the home. Mrs. Guttridge denied knowledge of the liquor.

American Civil Liberties Union in New York Says Importations Also Have Been Barred.

By the Associated Press.

NEW YORK, Sept. 14.—Mayor Joseph Cauffield of Johnstown, Pa., has ordered all negroes who have resided in that city for a period of less than seven years to leave town, the American civil liberties union announced today it had been informed by Warren Worth Bailey, former Pennsylvania representative and editor of the Johnstown Democrat.

The Mayor also issued an order forbidding all future importations of negroes and has announced that he will compel every negro visiting that city in the future to report to either the Mayor or the Chief of Police, the civil liberties union declared it was informed. Until further orders from the Mayor, the negroes living in Johnstown are prohibited from holding public gatherings and will not be allowed to assemble except for church, it was said.

The organization sent a telegram of protest to Mayor Cauffield and asked him on what authority he issued his orders.

40 Tax Suits at St. Charles

More than 40 suits for taxes have been filed by County Collector Karrenbrock at St. Charles. The amounts sued for range from $10 to $25, and extend over the last 3-year period. Karrenbrock points out that the court costs in a number of the cases will be more than the amount sued for.

"SUCKER" LIST AMONG EFFECTS OF MISSING BROKER

Records of R. W. Adams & Co. Show Concern Had Names of Many Persons Who Might Buy Stocks.

Names of thousands of persons who might be induced to buy stock if sufficiently urged—often called "sucker" lists—and an interesting card index system of "follow up" if the initial efforts at persuasion failed, were found yesterday in an examination of the records of R. W. Adams & Co., dealers in stocks and bonds, now in the hands of the State Finance Commissioner as receiver.

The principal assets found when the receiver took charge Aug. 17, last, it has been related, were a bank balance of $11.67 and the furnishings, subject to chattel mortgages. Sale of the furniture and an $8 "equity" from mortgaged rugs brought the assets up to $569. Attorneys for the receiver have been unable to find R. W. Adams, who conducted the business under the company name, since the day after they took charge.

Attorneys for the receiver and H. W. Riehl, manager of the St. Louis Better Business Bureau, examined the records yesterday in the course of an investigation of the methods and stock-selling practices of the company.

Character of "Clients."

Names of several prominent St. Louisans appeared in the lists, but the majority of the prospective "clients" appeared to be professional men and persons on salary—craftsmen, school teachers, office workers and small merchants. Stock was sold on a plan of payment in installments.

Nearly a dozen card index files were found, the cards bearing names, occupations, addresses, telephone numbers and notations on how to approach the prospect. A card was provided for each. Customers who made complaints to the Better Business Bureau on their transactions stated they were solicited by telephone and if they refused to make purchases the calls continued from day to day, from various salesmen. When the office in the Tower Building was taken over the salesmen's room was equipped with eight telephones.

Results of the various calls were noted on the cards, such as "Sore, hurry up, call him again"; "Says he is not interested, try him on——Motors"; "Says he is interested in bonds—this looks like a 'sweet mooch.'" The investigators admitted they did not know what sort of a prospect constituted a "sweet mooch."

Nature of Complaints.

Customers who made complaints stated, in almost every instance, that they were induced to buy shares of some listed stock of established value. Later, when the payments were almost completed, it was stated, the salesmen again called them and urged them to close out the stock and apply the amount to a purchase of shares of the Walsh Chemical Co., a company formed to manufacture cosmetics. This stock was not listed and the company recently was denied stock selling permit by the Blue Sky Commissioner.

Complaint was made that when diversion of orders was refused, delivery of the listed securities ordered could not be obtained. A great many of the complaints have been received by the Better Business Bureau, and Riehl stated that the investigation has not revealed an instance of delivery of Walsh stock or of other securities.

A stock sale ledger examined yesterday showed numerous sales early this year of various listed securities. The Walsh sales began in February. Record of the Finance Department and the application of the Walsh company for a stock selling permit indicate it was organized March 28. Adams was vice president and Miss Margaret Walsh, said to be a former employe of Adams, was president. The Walsh company opened an office at 1410 Pine street.

Sales of Walsh Stock.

Sales of Walsh stock at $5 a share, totaling $45,310, were listed in the ledger for six months, February to July, inclusive. Attorneys said they had found no Walsh stock certificates in the records, receipts apparently being furnished customers on their purchases. These sales were made, it was said, before the "Blue Sky" division of the Finance Department took any action on the application for the stock-selling permit, which is required by law. The permit was refused on Aug. 29, last.

Examination of check stubs and ledgers of the Adams company revealed several payments to the Walsh company, but only one expenditure for purchase by the Adams company of stock which might be intended for delivery to customers. This check was made to "M. Walsh," with a notation that it was for 10 shares of stock in the Standard Oil Co. of Indiana. Attorneys said the only stock found in the safe deposit box was 220 shares of an oil stock, quoted at about 60 cents a share.

Bank books of the company showed deposits from the first of the year to Aug. 15, totaling approximately $46,000, of which about $30,000 was for the months, March to July, inclusive. The checks against this chiefly were for salaries to salesmen, for rent, and to Adams and M. Walsh for various purposes, including "expense."

The attorneys have not set a date for filing of claims against the company.

New Zealand Premier in U. S.

SAN FRANCISCO, Sept. 14.—Premier W. F. Masey of New Zealand arrived here yesterday aboard the liner Tahiti, enroute to London, where he will attend the imperial conference of Premiers.

Wife Doing Good Work

I have been bad off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist, I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At Wolff-Wilson Drug Co., Judge & Dolph (3 stores), Enderle Drug Co. (5 drug stores), Brown-Cleudy, Johnson Bros. Drug Co. and druggists everywhere.

SEEKS TO RECOVER ON HOUSING TRUST SURE

Millspaugh Demands $23, From Company on Bonds of Trustees.

Demand on the American Su Co., against the bonds of five t tees of the Republic Housing Investment Organization, now receivership, for payment of a 960.81 deficit alleged to exist in funds of the housing trust, made yesterday by Finance C missioner Millspaugh, who is re er for the trust.

The notice to the surety com stated that the receiver found $ in cash in possession of the pany since taking it over after receivership order was issued 4, last. Sale of furniture has crease the cash to $647.

While the demand made by Commissioner is for $23,960, r senting approximately the amount received by the trust i period of operation, the actual icit, based on the "cash surren value of certificates, is said $9727.43. The difference bet these two amounts, attorneys was absorbed in the "expense f authorized in the housing trust tracts.

Some question has existed whether the liability of such t 32 of which are in receivershi the total amount paid in by con holders, or just the "cash surren value of their contracts.

The trustees of the Republic pany are William R. Edison, p dent; William P. Moss, secre treasurer; Gustave Moritz, vice ident; Maurice B. Lippmann Harry Stahl. Each of the tru was under a bond of $25,000, a of $125,000.

Moss today said the procedu meeting the deficit probably w be settlement between attorney the Finance Commissioner and bonding company, and the tru then would settle with the bon company.

The trust was organized in uary, 1922, and at the time the Legislature repealed the act u which such housing trusts formed in Missouri, the Rep company had contracts outstan with a face value of slightly less $100,000, Moss said. Approxim $24,000 had been paid in on contracts, he said.

Under the Republic contrac first four payments of $10 eac each $1000 of the contractho certificate were taken for the pense fund" and deductions cents a $1000 made each year the contract was paid up. The render value" of the contract the amount paid in, less the pense fund" deductions.

Expenses ate up about all th company was taking in, Moss The company had offices in th public Building, Seventh and streets, at $200 rental a month salaries of the officers totaled a month, approximately equ the $1000 a month he estimate company was taking in during of its existence. No real loans were made by the com which operated on a plan prop to make 3 per cent loans to tract holders, in numerical o after they had made six mon payments.

Receivership suits were filed May against 32 housing trust so-called 3 and 4 per cent comp in Missouri, by Finance Commis er Millspaugh. Thirteen of them in St. Louis. One of the local panies proposes to reorganiz a building and loan associ liquidation of several is in pro and receivership cases of the o still are pending in Circuit and Federal Court.

California Fruit Packer Fail

FRESNO, Cal., Sept. 14. nouncement of the failure of th Y. Foley, Inc., one of the la fresh and dried fruit organiz in the West, is made by local tors here. The assets are put a 000,000 and liabilities at consi bly more than a million. The cern was incorporated for $2,50 Demoralization of the Eastern market is given as the cause o failure.

SEEKS TO RECOVER ON HOUSING TRUST SURETY

Millspaugh Demands $23,960 From Company on Bonds of Trustees.

Demand on the American Surety Co., against the bonds of five trustees of the Republic Housing and Investment Organization, now in receivership, for payment of a 22,-960.81 deficit alleged to exist in the funds of the housing trust, was made yesterday by Finance Commissioner Millspaugh, who is receiver for the trust.

The notice to the surety company stated that the receiver found $45.47 in cash in possession of the company since taking it over after the receivership order was issued May 4, last. Sale of furniture has increase the cash to $647.

While the demand made by the Commissioner is for $23,960, representing approximately the entire amount received by the trust in its period of operation, the actual deficit, based on the "cash surrender" value of certificates, is said to be $9727.43. The difference between these two amounts, attorneys said, was absorbed in the "expense fund" authorized in the housing trust contracts.

Some question has existed as to whether the liability of such trusts, 22 of which are in receivership, is the total amount paid in by contract holders, or just the "cash surrender" value of their contracts.

The trustees of the Republic company are William R. Edison, president; William P. Moss, secretary-treasurer; Gustave Moritz, vice president; Maurice B. Lippmann and Harry Stahl. Each of the trustees was under a bond of $25,000, a total of $125,000.

Moss today said the procedure in meeting the deficit probably would be settlement between attorneys for the Finance Commissioner and the bonding company, and the trustees then would settle with the bonding company.

The trust was organized in January, 1922, and at the time the last Legislature repealed the act under which such housing trusts were formed in Missouri, the Republic company had contracts outstanding with a face value of slightly lesst han $100,000, Moss said. Approximately $24,000 had been paid in on these contracts, he said.

Under the Republic contract the first four payments of $10 each on each $1000 of the contractholder's certificate were taken for the "expense fund" and deductions of 83 cents a $1000 made each year until the contract was paid up. The "surrender value" of the contract was the amount paid in, less the "expense fund" deductions.

Expenses ate up about all that the company was taking in, Moss said. The company had offices in the Republic Building, Seventh and Olive streets, at $200 rental a month and salaries of the officers totaled $800 a month, approximately equaling the $1000 a month he estimated the company was taking in during most of its existence. No real estate loans were made by the company, which operated on a plan proposing to make 3 per cent loans to contract holders, in numerical order, after they had made six monthly payments.

Receivership suits were filed last May against 32 housing trusts, or so-called 3 and 4 per cent companies in Missouri, by Finance Commissioner Millspaugh. Thirteen of them are in St. Louis. One of the local companies proposes to reorganize as a building and loan association, liquidation of several is in progress, and receivership cases of the others still are pending in Circuit Court and Federal Court.

California Fruit Packer Fails.

FRESNO, Cal., Sept. 14.—Announcement of the failure of the E. Y. Foley, Inc., one of the largest fresh and dried fruit organizations in the West, is made by local creditors here. The assets are put at $1,-000,000 and liabilities at considerably more than a million. The concern was incorporated for $2,500,000. Demoralization of the Eastern grape market is given as the cause of the failure.

Ladies' Blue-White DIAMOND RING $50

GENTLEMEN'S BLUE WHITE DIAMOND $34.50

I INTEND MAKING THIS DIAMOND SALE THE BIGGEST EVENT IN THE HISTORY OF MY CAREER. THIS IS THE FIRST TIME THIS YEAR THAT I HAVE BEEN ABLE TO GIVE DIAMONDS OF THIS QUALITY AT THIS PRICE. INDEED, THEY ARE EXTRAORDINARY VALUES. NOW EVERY WORD OF THIS STATMENT IS THE ABSOLUTE TRUTH!

This is a magnificent assortment of Diamond Rings. Each one a beautiful gem, beautifully cut, perfectly mounted and with the brilliancy of a stone at a much larger price. The mountings—for both ladies and men—are beautifully carved and of the latest designs. A great many of them are hand-pierced. In fact, these wonders will indeed be a treat to your eyes.

I am most conscientious when I tell you these Diamond Rings—while only $34.50—are worthy to adorn the most particular buyer. ARONBERG'S will be glad to have you open a long-time charge account. You can take eight months, ten months or even a year to pay for one of these Rings.

Every word—in every advertisement of mine—IS THE TRUTH. Chas Aronberg

WEEKS REPLIES TO LEGION'S QUERY ON BERGDOLL'S STATUS

Slacker Will Be Compelled to Serve Full Term If He Ever Returns, Secretary Says.

By the Associated Press.

INDIANAPOLIS, Sept. 14.—Grover Cleveland Bergdoll, wealthy war slacker, would be far better off in every way had he remained in the United States, in the opinion of Secretary of War John W. Weeks, expressed in a letter to Lemuel Bolles, national adjutant of the American Legion, which was made public today.

Secretary Weeks declared that Bergdoll would be compelled to serve his full prison sentence if he returns to this country, no matter how many years intervene. He added that being a fugitive from justice, the man is not entitled to return of any property or money taken from him under the provision of the trading with the enemy act.

The letter from the Secretary of War was in reply to a communication from legion officials asking "whether there is any real desire on the part of those having the power to do so to actually bring this man back and make him serve his sentence."

"The right of Germany at the present time to refuse to surrender Bergdoll is undoubted," Weeks said in his letter. "The expediency of complying with a request that he be surrendered, assuming such a request was made, is a matter for Germany alone to decide. Were the United States in a legal position to demand the surrender of Bergdoll, there would be, I am sure, no hesitancy on the part of this or any other department of the Government in taking steps to that end."

Gets 21 Years for Killing Father.

Special to the Post-Dispatch.

LEXINGTON, Ky., Sept. 14.—Taking upon himself entire blame for slaying his father, John Schumaker Sr., in order to exonerate his twin brothers, Herbert and Hobert, under indictment as accomplices, John Schumaker Jr. pleaded guilty of murdering the elder Schumaker when called to trial for the third time in Clark Circuit Court at Winchester, 18 miles east of here, and was sentenced to 21 years in the penitentiary. Indictments against his two brothers were dismissed. The elder Schumaker was killed in September, 1920.

COURTHOUSE SITE COMMITTEE POSTPONES RECOMMENDATION

Will Inspect Property Adjacent to Present Location and Determine Value.

The special committee of the Board of Aldermen appointed to select a site on which to construct the new courthouse, a $4,000,000 bond issue project, yesterday decided to postpone making a recommendation until after next Wednesday, when it will inspect the site proposed adjacent to the present courthouse. The value of the property it would be necessary to purchase will be considered.

The petiitno presented by George J. Breaker, attorney for the Downtown Improvement Association, which, he stated in a letter to the committee, were signed by 7320 citizens favoring the location of the courthouse near the present site, were examined by the committee.

A letter from Frank E. Lawrence, secretary of the City Plan Commission, favoring the Memorial Plaza site, pointed out to the committee that members of the St. Louis Bar Association by a referendum vote had approved the plaza site, as had many other organizations and individuals.

Chairman Udell of the committee saidthat Breaker had asked for time to present more signatures. On motion by Alderman Wiehe it was decided togive him that opportunity.

Udell said he had been informed that the block between Market and Walnut streets and Fourth and Broadway, which has been proposed for the downtown site, would cost about $1,20,000, where as the west half of the block between Chestnut and Market streets and Eleventh and Twelfth boulevard, the Plaza site, could be purchased for about $330,000. The city now owns the eastern hal fof the block.

POLICE SEIZE GOODS IN HOME

Two-Wagon Loads of Merchandise Found; Occupants Sought.

Two wagon loads of merchandise, the value variously estimated at from $1000 to $2000, were seized by detectives last night in a residence at 8500 Gravois avenue. Occupants of the house were away and are being sought. The merchandise includes clothing, kid gloves, umbrellas, automobile tires, tubes and rims, cigarettes, safety razors, three shotguns and two rifles.

Suspicion of detectives was aroused by reports that the occupant of the house had been selling kid gloves, which retail at $7.50 a pair, at a very much lower price.

METHODIST MISSION PROPERTY IN QUAKE AREA DAMAGED

$20,000 Cabled to Meet Immediate Needs of Workers in Japan.

By the Associated Press.

CHICAGO, Sept. 14.—Methodist Episcopal mission property in Japan was damaged or destroyed in the earthquake, according to a cablegram received here today from Herbert Welsh, presiding Bishop of the Japan and Korean area.

Many of the buildings of the Methodist College for Boys in Tokio have been irreparably damaged, a cable from President Ishizaki states, but classes will open Oct. 1 on schedule.

The Woman's Foreign Missionary Society, which maintains schools for 5000 girls in the devastated area, faces a loss estimated at $250,000 on a total property valuation of $460,000, according to an announcement, and the Methodist Publishing House, which was in the heart of the business district of Tokio, is believed to have been destroyed. Seven school buildings of the Woman's Foreign Missionary Society were destroyed, and one high school, which accommodated 900 girls, has been damaged beyond repair. Nothing is yet known as to the fate of the Woman's Christian College. The board of foreign missions has cabled $20,000 to meet immediate needs of its workers.

LEAHY SUES FOR RECEIVERSHIP

Real Estate Man's Action Affects Janet Realty Co.

Suit was filed yesterday by David P. Leahy, a real estate dealer, for a receiver for the Janet Realty Co., of which he was president and principal stockholder. He also asks for judgment for an accounting to show his present interest in assets of the corporation, an interest which is estimated at $100,000. Robert L. McLaran, a lawyer, who succeeded Leahy as manager in 1915, is named as a co-defendant.

The petition recites that McLaran took over management after his mother, the late Mrs. Anna McLaran, had extended a mortgage for a loan to the company. The mortgage was a lien on Walnut Manor, a subdivision owned by the company on Florissant avenue. The loan originally was for $150,000 but had been reduced to $68,300 at the time the mortgage was extended it is set forth. Although 521 lots have been sold under McLaran's control, the mortgage now appears to be $128,000, Leahy declares in his suit.

Against Birth Control.

By the Associated Press.

TRINIDAD, Colo., Sept. 14.—Delegates to the convention of Colorado Women's Clubs here voted down a resolution yesterday indorsing the principles of birth control. The resolution was defeated by a vote of 48 to 11.

$150,000 Grocery Fire.

FORT SCOTT, Kan., Sept. 14.—Fire of unknown origin this morning totally destroyed the building and entire stock of the Fort Scott Wholesale Grocery Co., entailing a loss of about $150,000, which is covered by insurance. The company did business today, however, in its two warehouses, and expects to continue operating in this way until arrangements are made for quarters. The company has been operating here since 1886.

MOVE TO AID LEGION FINANCES

State Department Said to Have Only $30.65 in Treasury.

Special to the Post-Dispatch.

JEFFERSON CITY, Sept. 14—The American Legion in Missouri has exactly $30.65 in its state treasury, Bird Cole of California and Bryan Wilson of Mexico, members of the State Executive Committee, told Roscoe Enloe Post No. 5 here last night. Nor will there be additional funds from the usual sources by payment of dues before Jan. 1.

So the Jefferson City post, on motion of former Lieutenant Colonel Paul Hunt, voted to contribute $50 as a donation to state funds of the organization to help finance work of the new officers, elected at Excelsior Springs this week, until the regular flow begins. The hope was expressed that other posts would follow the example, as it is understood that the state officers face the necessity of borrowing money on their personal notes to keep their work going, unless relief is speedily received.

PRINCE LOST IN TIDAL WAVE

Body of Nijo's Daughter Washed to Shore After Earthquake.

By the Associated Press.

OSAKA, Sept. 14.—It is reported here that Prince Nijo was carried away with the tidal wave that engulfed his villa at Kamakura. The body of his daughter was washed ashore.

Countess Yoshikawa, widow of Count Yoshikawa and mother of Count Yamagisawa, a member of the house of peers, was crushed to death.

WIFE SUES REAL ESTATE MAN

Seeks to Set Aside Agreement to Relinquish Dower Interest.

Mrs. Marion B. Saunders filed suit today against her husband, Virginius O. Saunders, president of the Saunders Realty and Investment Co., 800 Chestnut street, to set aside an agreement entered into last July in which she accepted $150 a month in consideration of a quit claim to a dower interest in her husband's estate. Saunders recently filed suit for divorce.

Mrs. Saunders alleges that se was coerced into signing the agreement and that she did not know she was signing away her dower right. The coercion, she alleges, consisted of threats by her husband to make public the fact that **they had lived** together for some time as husband and wife before being formally married. The law firm that filed the suit estimated Saunders' estate at $30,000 to $40,000.

MERCHANT HELD IN INQUIRY INTO DEATH OF GIRL

Tennesseean Arrested After Chase, Following Finding of Body on the Roadside Near Nashville.

KILLED ACCIDENTALLY BY AUTO, HE SAYS

Boston Physician Is Sought in Connection With Finding of Dismembered Body of Woman in Two Suitcases.

By the Associated Press.

NASHVILLE, Tenn., Sept. 14.—Ben F. Morse, prominent merchant of Gladeville, is held here on a charge of manslaughter, while Coroner J. R. Allen is preparing for an inquest into the case of an unidentified young woman, whose body was found on a roadside near here, yesterday afternoon.

Morse declared to the officers that the woman had been killed accidentally when struck by his automobile. Officers say indications are that the woman, apparently 20 years old, met her death by means other than by having been struck by the automobile.

At the General Hospital, it was said, no wounds, such as would be inflicted by the force of a collision, were found. The body bore finger prints on the right forearm and a slight laceration of the throat.

Although scores of persons attempted identification of the body, none succeeded. One family, after viewing the body, claimed it as that of the daughter of the family, but on returning home met the daughter on the street.

Morse was arrested as he drove rapidly away from the spot where the body was left lying at the edge of road, being overtaken after a chase of a mile.

Woman Victim of Boston Murder Believed to Be Identified.

By the Associated Press.

CAMBRIDGE, Mass., Sept. 14.—Belief that the dismembered body of a woman, found in the Merrimack River, at Tyngsboro, in two suitcases, two weeks ago, had been identified today intensified the search for Dr. William M. Robb, who had offices in the Back Bay section of Boston.

District Attorney Reading said he thought the woman was Mrs. George Wolschendorf of East Bridgewater, who had been missing since Aug. 28. She was the mother of four children, the eldest being 20 years old and the youngest 12.

Information given by members of the Wolschendorf family led the authorities to seek Dr. Robb.

One suitcase found in the river contained a torso, the other had the legs of the same body. The head has not been found.

Body of Woman, Clad in Nightgown, Found in River.

By the Associated Press.

DETROIT, Mich., Sept. 14.—The body of a woman, apparently 25 years old, clad only in a nightgown and bathrobe, and with the legs tied together with cotton strips, was found in the Detroit River, off Windsor, Ontario, yesterday afternoon. Dr. H. A. Grasswo, Coroner of Essex County, Ontario, said he believed the body was thrown from a passing steamer or from the Detroit shores, probably yesterday morning. No marks of violence were discernible on the body. The woman wore a gold wedding ring on one

BUDER UNDECIDED ABOUT APPEAL

Assessor to Heed Advice of Brother on Bill Held Illegal.

City Assessor Buder was not prepared to say today whether he would appeal to the courts from Attorney-General Barrett's opinion that he was not entitled to be reimbursed by the State for $7,007.86 expended for clerk hire to handle the assessment of income taxes. He will consult his brother, Oscar Buder, an attorney, and be governed by his advice, he said.

The Assessor is allowed a fee for his work in connection with the income tax and Buder accordingly rendered a bill of $29,497.19, in which the disputed $7,007.86 was included. He says the money was expended for one man the year round and eleven men hired for about four months during the assessment period.

ight to Take Over Gas Plant.

d to the Post-Dispatch.

FERSON CITY, Sept. 14.—The Charles Gas Company has ap- to the Missouri Public Service mission for authority to issue 1800 shares of a par value of $100 to its stockholders and for a certificate of public necessity and convenience to acquire and operate the gas plant and property at St. Charles, formerly belonging to the St. Charles Gas and Lighting Co., and later acquired and operated by John C. Atwood. Atwood has obtained a franchise that has been assigned to the new company, of which John C. Atwood is president and James W. Tierney, secretary.

CARDINAL BOURNE OPPOSES CATHOLIC POLITICAL PARTY

All Its Inevitable Mistakes Would Be Blamed on Church, English Churchman Says.

Correspondence of the Post-Dispatch.

BIRMINGHAM, Aug. 31.—At the English Catholic Congress recently held here the plan of creating a political party in harmony with Catholic interests was broached, but met with stern opposition from Cardinal Bourne. His argument is thus briefly given by the English Catholic News Service:

"Repeating the solemn warning he gave nearly 20 years ago, Cardinal Bourne said that a Catholic party would be a great misfortune, since, if such a party were once in existence, all its inevitable mistakes would be blamed on the Catholic Church.

"As the Cardinal pointed out, anything that is done in these days detrimental to Catholic interests in the country is done through ignorance and not through malice. Which makes all the difference between conditions in Gerat Britain and certain parts of the Continent, where the formation of a Catholic political party is the only defense against a rabid and devastating anticlericalism. Yet even in France and Spain, where anticlericalism is not unknown, the Catholic Bishops have spoken out very strongly against anything in the shape of a Catholic political party."

The English Bishops are said to be unanimous in their opposition to the formation of a Catholic political party.

AMRICANS ADVISED TO TAKE CHEAP BAGGAGE TO EUROPE

Thieves Will Ignore It and Hotel Bills Probably Will Be Lower.

By the Associated Press.

COLOGNE, Aug. 24.—If Americans would carry less expensive-looking baggage they would not have so much of it stolen, was the advice a Cologne baggage-smasher gave to a New York woman who was bewailing the loss of a suitcase which contained her passport and travelers' checks.

"Leave all your high-priced bags and cases and boxes at home when you come to Europe," the baggageman advised. "Buy yourself cheap cases and bags. Get those which look as if they were made in Europe for the use of second or third class passengers. Wash off them all the steamer pasters and high-priced hotel labels. You will never lose baggage of that sort. Furthermore, you will find your hotel bills are much less. Rates in many European hotels are fixed in accordance with the appearance of the travelers' baggage and attire."

ITALY TO HONOR BOLIVAR

Boulevard May Be Named After South American Liberator.

Special Correspondence of the Post-Dispatch.

ROME, Aug. 26.—This ancient city is about to honor Simon Bolivar, the founder of South American independence, the George Washington of Latin America. To the left of the Via Nomentana, outside of Rome there has arisen a "garden city"—the first of its kind in this part of the world. The site is of venerable antiquity, for it adjoins the famous Mons Sacer, still known as the Monte Sacro.

Nowhere more appropriately can Bolivar's fame be commemorated, for it was on the Monte Sacro, more than a century ago, that Bolivar vowed his arm should never rest until it had freed South America from Spain.

It is proposed to name a wide and beautiful boulevard after the Liberator. The honor is more than delicate, it is politic. For Italy has very close relations with South America, particularly with the Argentine.

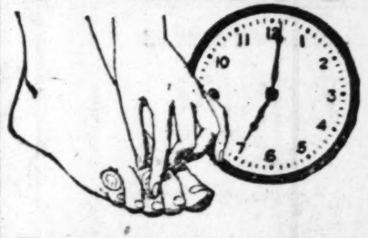
BELIEVE STOLEN BABY IS FOUND

Fort Worth Officials Says Child Was Taken Three Years Ago.

By the Associated Press.

FORT WORTH, Tex., Sept. 14.—Saying they believe her to be the bargain baby of Mrs. Thelma Adams, taken from its mother after its birth in a maternity hospital here three years ago, county officials last night took charge of little Ruth Darrah when they found her in a house in the suburbs. She was taken there by Mrs. Agnes Darrah, her foster mother, at 3 o'clock last Tuesday morning when Mrs. Darrah, lying seriously ill on a cot, was carried from her apartment in a hotel. Mrs. Darrah has not been found.

Mrs. Darrah fled with the child, which she asserts is not the missing baby, to avoid the serving of commitment papers for contempt of court.



CORNS

Stop their pain in one minute!

For quick lasting relief from corns, Dr. Scholl's Zino-pads stop the pain in one minute by removing the cause—friction and pressure.

Zino-pads are thin, safe, antiseptic, healing, waterproof and cannot produce infection or any bad after-effects. Three sizes—for corns, callouses and bunions. Cost but a trifle. Get a box today at your druggist's or shoe dealer's.

MINERS DECLARE
REDS ORGANIZED
ON MOUNTAIN T

Lenine Emissary Alleged
Have Presided When Co
munist Party of Ame
Was Founded.

MEMBERSHIP TODAY
SAID TO BE 1,000,0

So-Called Popular Auth
Accused of Writing Re
lutionary Matter for "
tellectual Pinks."

By the Associated Press.

NEW YORK, Sept. 14.—An
leged description of how the C
munist party of America was fou
ed amid dramatic secrecy ato
mountain in the Catskills 28 mo
ago, and has mushroomed over
United States and Canada, is c
tained in an article just made p
lic by the United Mine Worker
America, which charges that t
is a movement to bring America
der the banner of the Moscow C
munists.

At first, the article asserts,
party was an "underground" or
ization, functioning in secrecy.
day, according to the miners, it
a membership, direct and auxili
of 1,000,000, with interlocking
rectorates binding it to 45 natio
organizations and 200 locals,
working in the open.

Prior to May, 1921, the Com
nist Internationale was represe
as having become so impo
through Federal prosecution and
portation of members that for
tion of an "underground" so
was determined upon.

Story of Mountain Top Sessio

So, having chosen one of the
historically primitive spots in
East as a setting, "70 Commu
leaders, representing the two
tions of the Communist party
the United Communist party, g
ered in the ancient hotel on the
of Overlook Mountain on the m
ing of May 15, 1921, to comp
their differences and unite in a
gle group, to be known as the C
munist Party of America," said
article.

"This assembly was not only h
at the command of Lenine and Z
oviev of the Communist Internati
ale, but it was accompanied w
the threat that if the factional
ferences were not put aside an
united front presented for invad
the labor unions of the United Sta
no more money would be forthco
ing from Moscow for financing
revolutionary movement in
country. Up to that time, Mos
had contributed money to both
these factions, but had decided t
their hostility to each other
neutralizing the results of th
work." A personal emissary of
nine and Zinoviev was alleged
have dominated the session.

Guards Everywhere.

"Silent and taciturn, this emiss
met the 70 delegates near Kings
N. Y.," the narrative contin
"They were conveyed to the foot
Overlook Mountain in automobi
Guards saluted them along

MINERS DECLARE REDS ORGANIZED ON MOUNTAIN TOP

Lenine Emissary Alleged to Have Presided When Communist Party of America Was Founded.

MEMBERSHIP TODAY SAID TO BE 1,000,000

So-Called Popular Authors Accused of Writing Revolutionary Matter for "Intellectual Pinks."

By the Associated Press.

NEW YORK, Sept. 14.—An alleged description of how the Communist party of America was founded amid dramatic secrecy atop a mountain in the Catskills 28 months ago, and has mushroomed over the United States and Canada, is contained in an article just made public by the United Mine Workers of America, which charges that there is a movement to bring America under the banner of the Moscow Communists.

At first, the article asserts, the party was an "underground" organization, functioning in secrecy. Today, according to the miners, it has a membership, direct and auxiliary, of 1,000,000, with interlocking directorates binding it to 45 national organizations and 200 locals, and working in the open.

Prior to May, 1921, the Communist Internationale was represented as having become so impotent through Federal prosecution and deportation of members that formation of an "underground" society was determined upon.

Story of Mountain Top Session.

So, having chosen one of the most historically primitive spots in the East as a setting, "70 Communist leaders, representing the two factions of the Communist party and the United Communist party, gathered in the ancient hotel on the top of Overlook Mountain on the morning of May 15, 1921, to compose their differences and unite in a single group, to be known as the Communist Party of America," said the article.

"This assembly was not only held at the command of Lenine and Zinoviev of the Communist Internationale, but it was accompanied with the threat that if the factional differences were not put aside and a united front presented for invading the labor unions of the United States, no more money would be forthcoming from Moscow for financing the revolutionary movement in this country. Up to that time, Moscow had contributed money to both of these factions, but had decided that their hostility to each other was neutralizing the results of their work." A personal emissary of Lenine and Zinoviev was alleged to have dominated the session.

Guards Everywhere.

"Silent and taciturn, this emissary met the 70 delegates near Kingston, N. Y.," the narrative continued. "They were conveyed to the foot of Overlook Mountain in automobiles. Guards saluted them along the roads. For more than two weeks these guards had been stationed in the vicinity of Fort Montgomery, Tannersville, Saugherties and Kingston. Trains arriving at these towns were observed by sentinels. A guard remained behind the delegates, to watch the village Marshal in Woodstock, other guards were scattered around the countryside as farm hands. There were guards also in the Grand Central Station at New York."

When the party reached the hotel military discipline was alleged to have been inaugurated. Delegates were forbidden to write letters or take notes. Twice a day, everyone was searched. An "out-of-bounds" was established and as night approached "guards could be seen signaling each other with flashlights from the mountain tops that all was well."

Thus, according to the article, was born the Communist party of America, and "the Central Executive Committee of the new party was chosen from among the prime leaders of the Communist organizations throughout the country." These committee members were alleged to have had places on the central executive committee of the workers' party when it later was founded.

Radicalism Profitable.

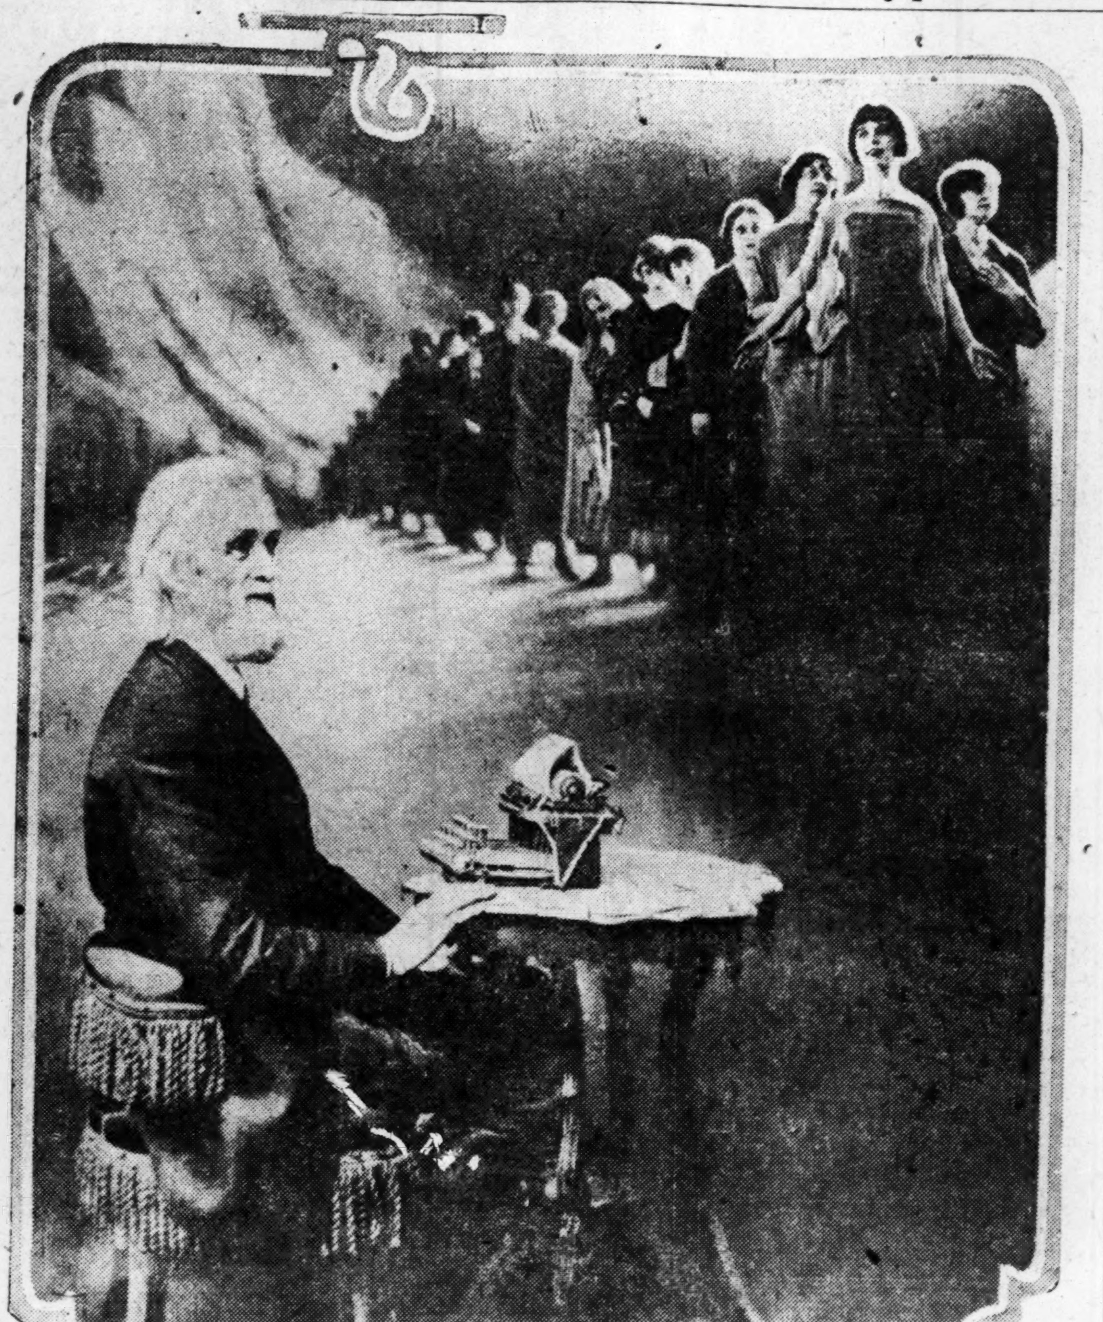
"Mass action by the workers, seizure of labor unions and converting them into militant enterprises; boring from within the American Federation of Labor, and, in particular, the United Mine Workers of America," was the platform adopted, declares the article.

"The extreme radicals are promoting the revolutionary movement, and a dozen intermediate degrees of 'liberal' radicals and 'parlor pinks' are co-operating with them intimately and closely, so that the contact is complete from end to end of the scale,' the article charges, referring to organizations alleged to be allied with the Communists. "There is no gap or breaking point.

"A larger volume of pernicious ultra-radical activity is centered around Los Angeles than any other city in the United States with the exception of the metropolitan district of New York. Revolutionary radicalism is profitable around Los Angeles because it is made so by the wealthy 'intellectuals' there who are dabbling in it.

"Pernicious and revolutionary propaganda distributed among the coal miners in the strike of 1922, and intended to arouse them to violence and 'mass action' was, in a number of instances, turned out by so-called popular authors and novelists in Los Angeles who are receiving $600 to $800 a month from the 'intellectual pinks' of that vicinity for doing that sort of thing."

Symbolic Picture of Inventor of the Typewriter



—Underwood & Underwood.

Fifty years ago Christopher Latham Sholes, a Milwaukee newspaper man, invented a machine that has released millions of women from economic dependence on man—the typewriter.

This photo-sketch shows the inventor at his first perfect machine, with a symbolic procession of grateful women above.

Today this 50th anniversary of the writing machine is being celebrated at Ilion, New York, where the first commercial typewriters, as perfected by Sholes, were made by the Remington firm.

REPEAL OF DRY LAW VIRTUALLY IMPOSSIBLE, W. C. T. U. IS TOLD

Official of World League Against Alcoholism Says Liquor Forces Realize It.

By the Associated Press.

COLUMBUS, O., Sept. 14.—The repeal of prohibition in America is virtually impossible, Dr. Ernest H. Cherrington, general secretary of the World League Against Alcoholism, said in his address last night at the national convention of the Women's Christian Temperance Union.

The attack on the Eighteenth Amendment and the Volstead law, he asserted, goes deeper than the question of prohibition of the beverage liquor traffic and strikes at the foundation of free government.

"No other amendment to the Consituation received such a large majority as the Eighteenth Amendment," he asserted. "It was submitted by a larger majority in Congress than any other. It was ratified by the two houses of each of 46 of the 48 states.

"Repeal of the Eighteenth Amendment is impossible so long as 13 states are against repeal, for to change the Constitution requires the affirmative vote of both houses of the Legislature in 36 states.

"The attacks on the prohibition law are really attacks on popular government and constituted authority, for the liquor forces know that to amend the Constitution is a hopeless task."

Senate Passes Mobile Port Bill.

By the Associated Press.

MONTGOMERY, Ala., Sept. 14.—Passage of the bill providing $5,000,000 for the development of Mobile port by the Senate of the Alabama Legislature featured yesterday afternoon's session. Provisions are made in the bill that a further sum of $5,000,000 shall be used in the development of the Alabama seaport should a dividend be realized from the present improvements.

LEAGUE HAS MET TEST, WICKERSHAM SAYS

No Other Comprehensive Plan to Avert War Is Before World, He Declares.

By the Associated Press.

NEW HAVEN, Conn., Sept. 14.—No other comprehensive plan to avert war is before the world than that builded up in the covenant of the League of Nations, George W. Wickersham, Attorney-General in the Cabinet of President Taft, told the public meeting of General Unitarian Conference last night. He said the first test of the League of Nations, a crisis precipitated by the Greco-Italian controversy, had been successfully met.

Wickersham was one of several speakers on "international relations" and his own text was the "test of the league." He laid the groundwork for his analysis of the league's action by sketching the causes which led to the World War and drawing an analogy between the assassinations in Serbia and the recent killing of the Italian members of the international commission appointed by the Council of Ambassadors to fix the boundary line between Greece and Albania. He quoted from William Penn that "governments like clocks, go from the motion men give them and as governments are made and moved by men, so by men they are ruined, too." He declared the League of Nations was no exception to the rule.

"Rejected by the American Senate because it would be a superstate over-riding national sovereignty," Wickersham said, "we who believe in it as the only practicable mechanism in existence, have witnessed these last few days a severe test of its capacity for anything superior to an international debating society."

It was perfectly obvious, he claimed that the demands made by Italy and Greece constituted a circumstance "affecting international relations * * * likely to lead to a rupture. Italy claimed that it was an invasion of her national honor, not one that could be disposed of by the league.

"The fact that neither the council nor the assembly of the League of Nations felt itself strong enough to assert the provisions of the covenant against Italy under existing circumstances," he said, "is not necessarily the breakdown of the entire covenant, nor does it demonstrate that the league has ceased to be a useful body."

As to this latter point, Wickersham pointed out that our Supreme Court had patiently, quietly, from decade to decade transacted its business until finally it reached its present position of recognized power.

FOSTER TO ADDRESS ILLINOIS UNION SESSION

Expected to Urge Recognition of Russia — Denounced by Gompers' Representative.

By the Associated Press.

DECATUR, Sept. 14.—Speeches by William Z. Foster, alleged Communist, in support of resolutions calling for the recognition of soviet Russia and amalgamation of trade crafts into industrial unions, and a vote on both proposals were on today's program of the convention of the Illinois Federation of Labor.

Foster was denounced yesterday by speakers who included Matthew Woll, president of the International Photo Engravers' Union and vice-president of the American Federation of Labor, personal representative of President Gompers of the American Federation of Labor.

Woll repeatedly called him "Mr. Foster, the imposter," and demanded where he obtained the money with which he carried on the Trade Union Educational League, of which Foster is president, and how the money was spent.

He accused Foster of stealing the name of the Farmer-Labor Party for the Federated Farmer-Labor Party, and also accused him of theft of the name of the organization he now heads.

The amalgamation movement advocated by Foster, Woll declared, was an attempt to take control of the political power of the State and to destroy the leadership of the American Federation of Labor. Recognition of soviet Russia, Woll said, would make the United States Government responsible for enforcement of all trade agreements entered into with Russia by American capitalists.

DRYS PLEASED WITH COOLIDGE

Anti-Saloon League Commends President's Attitude on Prohibition.

By the Associated Press.

WESTERVILLE, O., Sept. 14.—Commendation of the attitude of President Coolidge on prohibition was expressed in a meeting here yesterday of the Executive Committee of the Anti-Saloon League of America.

Attorney-General Daugherty was given praise for the report which he made to President Coolidge and for what the Executive Committee denominated a determination to make drastic enforcement of the Volstead act.

COAL COMMISSION ADVOCATES GOING SLOW ON COERCION

Recommends to Coolidge First Trying All Ways to Hold Miners and Operators to Responsibilities.

REPORT OPPOSES FORCED ARBITRATION

Instead, Proposes Compulsory Investigation by President Whenever Coal Pay Fight Appears Likely.

By the Associated Press.

WASHINGTON, Sept. 14.—Improved means of co-operation between miners and operators in meeting their mutual responsibilities to the public is the keynote of recommendations in a report submitted by the Coal Commission to President Coolidge on the national coal industry.

Summing up its study of the industry in the report, published today, the commission declared that until all measures for holding both sides to their responsibilities had been exhausted, "it would be extremely unwise for the public to embark on coercive measures of regulation of labor relations."

The commission made 37 specific recommendations as a basis for adjustments in the industry to assure a dependable fuel supply to the public, adequate wages to the miners and a reasonable return to the operators. Outstanding among these was the recommendation for compulsory investigation whenever failure to agree on a renewal of wage contract appeared imminent.

For "Moral Pressure."

The commission proposed that such investigation be made under the direction of the President after each side had submitted its case to him 60 days prior to expiration of the existing agreement. For the purpose of using "moral pressure" upon the negotiators, the President, the commission recommended, should then obtain a report and award on the questions at issue.

Incorporation of the unions would not have the effect of "binding the union to its contracts" the commission declared, adding that apparently "neither side desires that wage contracts shall be specific enough to be binding through judicial enforcement." It recommended special compulsory investigation as soon as failure to renew an agreement appeared imminent, and inclusion in every wage contract of a clause providing for automatic renewal, except respecting such provisions as may be denounced 90 days prior to expiration of the old contract.

Other outstanding recommendations in the report are:

That each side place "some check upon the provocative and truculent publicity" which tends to undermine good relations.

Establishment in each district and nationally of joint commissions of operators and miners to make studies of the principal jobs and of existing rate differentials to "develop an adequate basis for the needed revision of the rate structure."

Continuation by the Government of its study of the industry generally and of specific phases, such as unemployment and inequalities in rate structure and "continuous, compulsory collection and publicity of rates and rate changes in non-union fields."

Establishment throughout non-union fields of check-weighmen, selected and paid by the men.

Discontinuance throughout the industry of "sub contracting."

Abolition of convict-leasing to operators.

Abolition of all "discounting of scrip."

"Serious study by both sides" of the problem of undue limitation of output and of causes leading thereto.

Recognition of the union's right to encourage new members "through the example of service to its members * * * and by peaceful and honest persuasion of every sort," with recognition of a similar right by operators "by good works and honest persuasion" to maintain a non-union status.

Oppose Forced Arbitration.

"We do not feel," the report said, "that the check-off is vital enough ever to justify a suspension of operations."

More training of mine officials in dealing with labor under a union agreement, was recommended, and a policy in each company of centralized responsibility was commended. Closer contact and greater educational services between national, district, and local union officers and men is needed, the report said.

"We believe," it continued, "that the union will need to depend more on facts and less on force if it is, in the future, to advance the interests of its members as successfully as it has in the past. We, therefore, suggest the importance within the union of continuous facilities for research.

"We do not advocate nationalization as a means of meeting the national strike or other parts of the labor relations."

The report opposed compulsory arbitration, because "there is no way to enforce a compulsory award which does not involve enforced operation or enforced labor."

Continuous investigation and publicity, the report said, "with the possible resort to mediation at the instance of the President of the United States may remove the necessity for drastic emergency measures. * * * Until measures for holding both sides to their responsibilities have been exhausted, it will be extremely unwise for the public to embark on coercive measures in regulation of labor relations."

By the Associated Press.

HARRISBURG, Pa., Sept. 14.—A message of congratulation from President Coolidge to Gov. Pinchot on the settlement of the anthracite coal controversy was made public at the executive offices here last night. With it was a brief statement by the Governor, explaining that the telegram was given out upon receipt of word from the President's secretary, C. Bascom Slempt, that Mr. Coolidge expected Mr. Pinchot to make it public.

President Coolidge's message was dated at the White House, Sept 7, the day before the anthracite operators, representatives and miners' union officials, in conference here, agreed finally upon the terms of settlement. The message said:

"Please accept my heartiest congratulations on the settlement of the coal controversy. It was a very difficult situation in which I invited your co-operation. Your management of it is a distinct public service. I cannot commend it too highly. Certainly there ought to be some method devised for a settlement of disputes of this kind in accordance with principles of justice and fairness to all parties concerned. The constantly recurring danger of lack of an adequate fuel supply is of itself a grave criticism of a great industry and an intolerable condition for the public to endure."

Noice Describes Eskimo Girl, Who Alone Survived on Wrangell Isle, as a Heroine of Epic Stature

Vainly Tried to Save Last White Man From Scurvy—Outfaced Terrors of Arctic Night and Polar Bears.

By HAROLD NOICE,
Commander of the Wrangell Island Relief Expedition.

Following is the fourth installment of the exclusive personal story of Harold Noice, who returned to Nome, Alaska, Aug 31, after his dash into the Arctic in hope of relieving four white men and an Eskimo woman marooned on Wrangell Island since the fall of 1921.

Previous installments told of his battle with the ice floes, the delays due to engine trouble and fog, his first sight and impressions of Wrangell Island, and the rescue of the Eskimo woman, Ada Blackjack, sole survivor of the expedition.

NOME, Alaska, Sept. 6.—The Arctic has added many names to the scrolls of the great. But most of these have been names of men. To that long list must now be added the quaint name of Ada Blackjack, a little Eskimo girl, less than 100 pounds in weight, who, although brought up in Nome and familiar with the comforts of a modern city, nevertheless managed to live by her own efforts on a desolate Arctic island, providing food not only for herself but also for a dying companion, whom she nursed for six months. After his death, she lived alone in terror of prowling polar bears, but determined to fight for life to the end and to endure another winter in solitude if necessary.

She never had fired a shot in her life, nor had she ever set a trap, yet she learned how to do both, and triumphed where many strong men in the past have failed. Her story, as she told it to me that morning in the cabin of the Donaldson, surpasses anything that I ever have come across in the North, nor have I ever read of anything that quite equals it.

Heard Whistle; Thought It Dream.

Only the night before we rescued her Ada had dreamt she heard the whistle of a boat. And when she heard our whistle the next morning as she was cooking her meager breakfast of tea, dried duck and seal oil, she could hardly believe she was not dreaming. The fog added to the unreality. Often as she sat in my cabin telling me her story she would look up quickly and say: "I wonder if this is only a dream? I can hardly believe you have come."

When the little party found that they would not have food to last them through the winter, an attempt to reach Siberia was determined upon. Ada made new clothing for the men, doing her utmost to send them away well equipped.

Knight, who was developing symptoms of scurvy, was to remain with Ada, while Crawford, Maurer and Galle were to make the attempt. The short party left Jan. 28, 1923, leaving Ada and Knight to their long and lonely vigil—a vigil which my poor old pal still keeps beneath the soil of Wrangell Island.

The day after the boys left a severe gale sprang up which lasted for three days. When she tried to tell me of this, little Ada broke down, sobbing till I thought her heart was breaking. Then she calmed. In her eyes was a faraway expression. She seemed to visualize the battle which the boys must have had with that awful gale amid the crushing floes and the opening leads in the darkness of the Arctic continuous nights as they struggled on in their weakened condition with only five half-starved dogs to haul their sledge.

Vain Fight to Save Man.

At first Knight was able to get about a bit; but one day, while chopping wood, he fainted. Thereafter he did not leave the tent. It was not long until he took to his sleeping bag for good. From then on to the end little Ada was his untiring nurse.

Knight knew, and so did she, that his only hope lay in getting fresh meat, for he had been cured of scurvy once by Stefansson, who put him on a diet of raw caribou steaks when we both were down with disease on a sledge journey in the Far North.

So Ada set out to trap foxes. She learned how to set traps and cover them with thick blocks of snow, so that foxes would not see them. Day after day she would visit her traps and carry home the catch. But Knight's condition rapidly became worse and she had to spend much time attending him. Thus she was not able to go very far from camp, and consequently caught few foxes.

Gradually the long winter passed, the ice broke up and the snow left the land. The birds returned in millions and other game became plentiful. The day for which Ada and Knight had been longing had arrived, but alas! poor Knight was too far gone. His gums had receded and his teeth had dropped out. He became too weak for any food but broth. Still Ada hoped. But jolly, big-hearted Knight passed out on June 22. And Ada was left alone, except for the kitten—now grown to a cat—which the boys had brought from Nome.

Her Fight After His Death.

After Knight's death Ada moved her quarters to a little tent 100 yards away from the one in which his body lay, and it was there that we found her. The little girl had a hard time, physically and mentally, all by herself on that lonely island. Her slender store of provisions had dwindled nearly away and she, who never had fired a gun in her life, now took down a big 30-40 caliber rifle, set up a target 40 yards distant and began daily shooting practice. And day after day she tramped the hills in search of game.

One day she encountered two polar bears, but did not shoot at them for fear of merely wounding them and arousing their rage. She fired over their heads and they scrambled out of sight. Another time, after the seals had come out upon the ice, she crawled patiently to where a seal was sunning itself. Then, using a little wooden rest she had made for her gun barrel, she took careful aim and fired. The bullet found is mark and the seal died without a quiver.

But seals always lie very near their breathing holes or near the edge of the ice, and, even though dead, they frequently slide into the water before the hunter can reach them. Ada, therefore, as soon as she fired, threw aside her rifle and raced over the ice toward the seal, which was then beginning to slip toward the floe's edge.

Polar Bear Stalking Her.

As she grasped the seal by its flipper, she sensed a presence near her and glancing over her shoulder saw a great polar bear, which evidently had been stalking her. Dropping her hope of immediate fresh meat, Ada raced for her tent. But the bear soon was too busy gorging upon the seal which she had killed to pay any attention to her.

This adventure and the tracks of polar bears found outside her tent when she awoke several mornings made Ada timid about venturing far from camp. When we rescued her she was working on a net with which she hoped to catch seals. She also had made a small canvas boat with which to paddle out to ducks that she shot.

When we arrived she had about 12 pounds of mouldy pilot bread which she was saving for next winter.

The world has a curious habit of looking upon the Eskimos as a race inured by nature to all sorts of hardships and capable of sustaining hunger indefinitely. But after living among them for six years, I can truthfully say they are as human as any one else. They feel the cold as we do. Their bodies require as much nourishment as do ours. And they value companionship perhaps more than we do.

So I greatly fear that this tale of lonely fortitude, which in all human annaus has certainly been rarely surpassed, will fail of any great appreciation, because its heroine is only a poor Eskimo girl.

MISSOURIANS SET RECORD FOR CALLS AT WHITE HOUSE

Vast Quantity of Conversation Poured Into President's Ear by Republican Workers of State.

SPENCER MAKES PLEA AGAIN FOR GARESCHE

Others at Capital Include Babler, Reily, Millspaugh and Fred Essen of St. Louis County.

By CHARLES G. ROSS,
Chief Washington Correspondent of the Post-Dispatch.

WASHINGTON, Sept. 14.—After a half hour talk with President Coolidge yesterday afternoon Senator Spencer said he was still satisfied that former Circuit Judge Vital M. Garesche would be chosen for the Federal bench at St. Louis.

Spencer said, however, that he did not wish to leave any inference that President Coolidge had made a commitment in the matter. Besides the judgeship, Spencer said, he discussed the prohibition situation and several other topics with the President. He declined to go into details of the conversation.

Another Missouri Republican, Frank C. Millspaugh, State Finance Commissioner, was with the President for 15 minutes just before Spencer called. Millspaugh said he discussed crops and the Missouri banking situation with Mr. Coolidge.

Babler and Reily See Haynes.

Jacob L. Babler, Republican National Committeeman for Missouri and E. Monte Reily of Kansas City who have been at the same hotel here for several days refrained from visiting the White House but sallied forth together to talk to Prohibition Commissioner Haynes about pending appointments to the dry enforcement squad of Missouri.

The list of Republican visitors to the Capital was augmented by the arrival of Fred Essen, St. Louis County boss and former Congressman.

Reporters who regularly "cover" the White House are willing to lay odds from day to day that some Missourian will show up. With the exception of Massachusetts the President's home state, no state has equalled Missouri in the quantity of conversation its political workers have poured into the President's ear. Senator Spencer has set a mark for others to shoot at by conferring with the President before breakfast.

"There may be some Republicans left in Missouri," commented a White House attache, "but I'll bet you can't name them."

He was assured that others would be along presently.

Mrs. Hocker Tells of Call.

Mrs. Lon Hocker of St. Louis, Republican National Committeewoman for Missouri, who was received by Mrs. Coolidge yesterday, gave the President's wife a bouquet of 115 pink roses—one for each Missouri county and the City of St. Louis. She told Mrs. Coolidge that the state was very friendly to her and her husband and wanted to do all it could to make the present administration a success.

In their respective sons, Mrs. Hocker said, the two women found a topic of conversation that greatly appealed to them both.

"I was perfectly fascinated by the charm of Mrs. Coolidge," said Mrs. Hocker.

The President, with whom Mrs. Hocker had an earlier interview, impressed her as a man of serious purpose and worthy of confidence. She asked him for a message to give the women of Missouri and he replied with the advice that women should interest themselves in and study public affairs.

In telling of her Washington visit Mrs. Hocker emphasized that she had not come on any political mission, but had just stopped off at the capital for a day or so on her way home from her summer vacation.

WHITE HOUSE EFFICIENCY PLAN

Coolidge to Discuss Method of Eliminating Irksome Details.

By the Associated Press.

WASHINGTON, Sept. 14.—Plans under which the nation's chief executive would be relieved of many of the present irksome details of his office will be discussed next week by President Coolidge and Chairman Brown of the Government organization committee.

Brown, who conferred with the President yesterday, said details of the plan would be left until after the conference. He added that there were many ways in which his result might be accomplished and asserted that from his first study of the Government executive machinery he had been convinced that the organization of the executive offices was inadequate.

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

Veterans Vocational Training.

To the Editor of the Post-Dispatch.

A FEW words on vocational training as given by the Ninth District office, by one who has finished his course under their supervision. The disabled man who can meet the following conditions is entitled to vocational rehabilitation under the rehabilitation law.

1. He must have been separated from the military or naval forces of the United States under honorable conditions since April 7, 1917. 2. He must have a disability that was incurred, increased, or aggravated while a member of such forces, or that is traceable, in the opinion of the board, to service with such forces.

What has the Veterans' Bureau done to cure this disability, which should be their part of the agreement? During the two and a half years in training he should receive medical attention and treatment. A schedule of treatment should be prepared to cover the time of his training program. Fifty per cent of men in training now leave their training, once or twice a year, to enter a hospital for a month or two. This means that their training program is interrupted, and all this time is lost to the trainer. After leaving the hospital he must start school at the beginning again.

If the program of treatment were carried out disabilities would decrease. If the program is not carried out the ex-service man will have the same disability at the end of his training program. His compensation rating will not decrease. Can Mr. Hines improve this situation?

3. His disability must, in the opinion of the Veterans' Bureau, be of such a nature as to cause him to be in need of vocational rehabilitation to overcome the handicap of such disability. Why do they give a one-arm veteran training to make him an accountant? Why do they give a college education to an ex-service man who has tuberculosis? Why do they learn a man who walks on crutches to sell real estate?

If Mr. Hines will examine the personnel of the Ninth District, he will be vindicated. These are only a few points.

Under these conditions vocational training is an absolute failure. Disabilities will not decrease, but will increase, as will compensation increase, only to be paid indefinitely by the taxpayer.

J. WM. M.

Stop Sign Wanted.

To the Editor of the Post-Dispatch.

WHY not put a stop sign at Jefferson and Russell, for the safety of our school children, where at least 1000 cross? This is a very busy corner since the improvements have been made on Russell avenue.

L. K.

Cutting Rail Workers' Wages.

To the Editor of the Post-Dispatch.

I SEE in the daily papers where the railroads carry large announcements telling the public what great things they are doing and how it would be putting things on the bum if the Esch-Cummins law was changed or repealed at the next Congress. Well, what I would like to know is, why don't they live up to the law.

Inclose an application for a machinist on the M. K. and T. R. R. The labor board cut the rate from 77 to 70 cents an hour July 1, 1922, now they pay 63 cents per hour. How is it that the dear public is still soaked full rates and we are called outlaws. Don't you think the old saying about "the public be damned" is working O. K.?

A FORMER R. R. MACHINIST.

Passed Up By the Motorman.

To the Editor of the Post-Dispatch.

SINCE Col. Perkins is so proficient in explaining the shortcomings of our rapid transit system, kindly pass this on to him for the benefit of your readers.

This morning, at Gano and W. Florissant avenues, I waited about five minutes for a car. A Bellefontaine car came along at 7:21 a. m. with a sign, "Washington only," and as it neared the corner several persons including myself stepped out to board it, but the motorman motioned us back and passed on. This car had plenty of room for quite a number according to U. R. standards.

Immediately behind it was another car so crowded boys and men were hanging on the step, yet it stopped to take on more passengers. We couldn't get on that one, but had to take another one behind it. It too was crowded to the steps, and on account of the two cars in front of it, had to run on slow time.

This is not the first time it has happened. Every morning on this same line two, and sometimes three, uncrowded cars pass up waiting passengers at different times between 7 and 8 a. m. and leave them to try and get on some other car so crowded it takes a shoe horn to get in.

Now, if Col. Perkins is such a "bear" at explaining, let's see what he has to say about this. And if he doubts the time and my words, I will furnish him with motorman and car numbers and the hour and minute.

WAITING AT THE CORNER.

NO REBELLION AS YET.

Attorney-General Daugherty's opinion that the navy cannot be used for the enforcement of prohibition seems to be good law and good sense. The Attorney-General, answering the questions put to him by the late President Harding, denies the power of the executive to use naval forces in enforcing prohibition in the absence of an emergency, and this not being lawful, he holds that an emergency does not exist.

Attorney-General Daugherty insists that without an emergency in time of peace the executive cannot use the naval forces for the enforcement of law, unless authorized by Congress to do so, and that an emergency does not exist until the courts and civil departments of the Government are unable to enforce the law by reason of conspiracies and organized oppositions with which the civil authorities cannot cope. He says there are "no unlawful obstructions, combinations or assemblages of persons, or rebellion against the authority of the United States and the enforcement of prohibition statutes such as to render it impracticable to continue to enforce these laws by the ordinary course of executive and judicial proceedings."

The situation in connection with the effort of the Government to control personal conduct with regard to intoxicating liquor would be desperate indeed if the armed forces of the United States had to be used to enforce sumptuary laws. Naturally, if the navy could be used to enforce prohibition on the sea, the army could be used, and the country would be practically in the throes of civil war, with the army and the navy engaged in searches, seizures, arrests and other extreme measures to prevent the people from making, obtaining or using intoxicating beverages. In that event the United States, the boasted home of liberty and individual rights, would present a spectacle of compulsory control of personal morals and habits unparalleled in the modern history of the world. The military forces of a constitutional free Government would be engaged in suppressing liberty and destroying the Constitution.

Although an emergency in the sense defined by the Attorney-General does not exist, yet it cannot be denied that an extraordinary situation exists. The report of the Department of Justice shows that 90,000 persons have been arrested and tried for offenses not in themselves crimes, but merely designated as crimes by law; 70,000 have been convicted, and subjected to penalties of fine or imprisonment, and in many cases to both. That the 90,000 arrested constitute only a small percentage of law violations goes without saying. Thus through drastic sumptuary laws and their enforcement we are creating a vast and increasing element of law breakers and jail birds.

The fanatical prohibitionists find a cause for rejoicing and congratulations in this record of criminal-making law and jail-bird-producing law enforcement, but we cannot agree with them. We find in this attempt at the compulsory regulation of personal morals and habits an assault on free constitutional government and a policy which is creating widespread disrespect for law and hostility to law-enforcing agencies.

The situation in some cities is desperate. There has been an outbreak of violent crimes and banditry in all the centers of population, and to some extent in the rural districts. The Detroit News, in a spread of facts and discussion of prohibition enforcement, cites 97 killings in that city alone since 1919, which are ascribed to underground liquor selling. They quote Chief of Police Croul and other heads of city departments as declaring that the prohibition laws are a total failure in Detroit. Profitable bootlegging has created a new underworld, more menacing to life, property, law and order than any that has hitherto existed. The situation in Detroit is duplicated in other centers of population. Throughout the length and breadth of the land not only the worst but the best elements of society are joined in the breaking of laws that are regarded as the fruits of intolerance. The intolerance expressed in the prohibition laws is creating intolerances of all kinds. There is a wave of intolerance, an effort to impose by compulsion the standards of one part of the people on the other parts of the people. The prohibition movement is the chief factor in the organization of the Ku Klux Klan and other intolerant movements designed to control morals, religion and the political activities of races and persons regarded by the leaders as undesirable.

GERMANY'S NEW PLEDGES.

Chancellor Stresemann, speaking in behalf of the German Government and the German industrial magnates, offers France as a guarantee for reparations payments what amounts to mortgages on private property of German industrialists, as well as the mortgage on state properties which was provided for under the Versailles treaty. This must mean that Stinnes and what has been called the grand staff of German industrial magnates have come to the conclusion that the alternative to this action is ruin for themselves and for Germany. Whatever their motive, the action, if taken in good faith, stands out as the most astounding movement on the part of capitalists that the world has ever seen. If France accepts the offer, it will mean the end of the communist menace in Germany and the beginning of a promising era of German production.

The offer is conditional on France restoring to Germany full control of the Ruhr and complete evacuation by French troops and officials of that region and the Rhineland generally. It remains to be seen whether Poincare and his advisers will accept such a condition. Chancellor Stresemann points out that, with the mortgages in hand, France could at once issue bonds against these securities and raise large sums of money on account of her reparations claims. However, it appears that before any agreement can be made, the two Governments must mutually decide the very difficult question of how much Germany actually owes. The latest bulletin issued by the French Bureau of Information, in New York, dated Sept. 10, summing up the various payments and claims, shows that, after crediting Germany with receipts in cash, receipts in kind, various deliveries and paper marks requisitioned, totaling 1,832,184,378 gold marks, Germany is still over 11,000,000 gold marks behind, with not a cent credited on account of reparations. This means that Germany is in a worse situation than she was before she paid anything. The cost of the French army of occupation, amounting to 1,843,195,828 gold marks, has swallowed up all Germany's payments and left her with a debt, over and above the reparations debt, of more than 11,000,000 gold marks. It is evident that the longer the Ruhr occupation continues, the farther off will be the time when Germany can begin to pay anything on reparations account.

Germany has reached the end of the rope and, as the saying goes, is chewing on the knot. She is in extremis. But France cannot afford, the world cannot afford, to let her die financially and industrially. France must come to terms.

TOO MANY FILLING STATIONS.

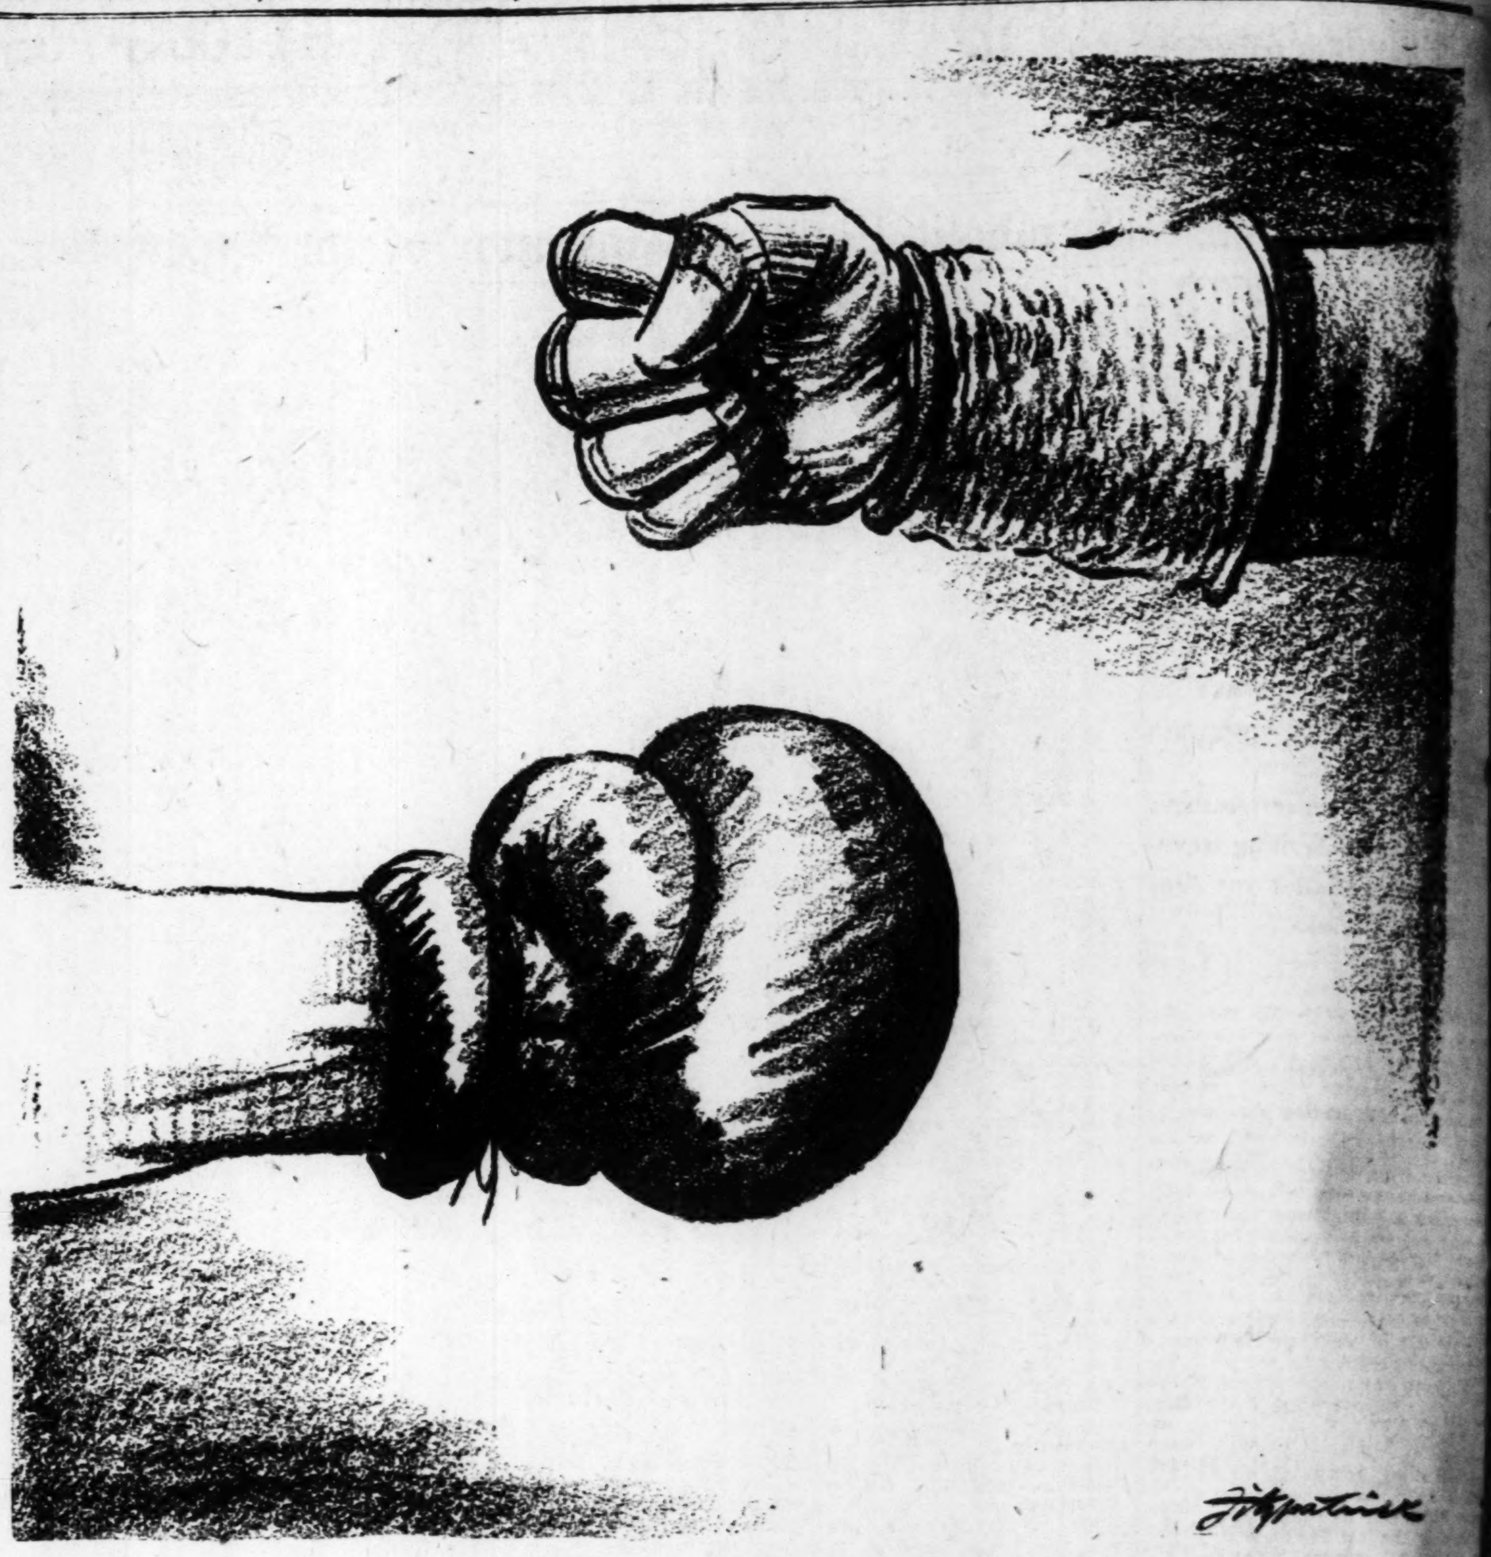
Gov. McMaster of South Dakota, the man who started gasoline prices tobogganing, while speaking at the State Fair in Syracuse, N. Y., the other day, said gasoline could be sold much cheaper except for the excessive number of filling stations. He quoted the Kansas City Star as saying that there were 400 stations in that city and that 100 could probably take care of the trade adequately.

Kansas City's case may be extreme, but most cities and towns are suffering from a similar condition. And those unnecessary filling stations work other mischief in addition to making gasoline needlessly expensive. In many instances they occupy valuable property which could be used to better public advantage by some other business.

Every superfluous filling station, obviously, adds to the distributing cost of gasoline. But as long as desirable locations can be had the number of stations will increase. How the problem is to be solved is a question. The city of Joplin, Mo., has attempted a solution by passing an ordinance enjoining the erection of any more filling stations within its limits. Whether the ordinance will stand a court test is debatable.

The evil could be remedied, of course, by the exercise of a little restraint and foresight by the big oil companies.

"KAMERAD!"



FISTS IN AMERICA AND EUROPE.

JUST A MINUTE

(Reg. U. S. Pat. Off.)

ONLY A CORK.

HERE'S a ditty,
Dear Luella,
Of a cork from
Gallia bella,
Antwine sent
From Paris City,
Pleasure bent,
But, what a pity!
Corking time
Had Just-A-Minute,
But our cork,—
There's nothing in it.

Tantalizing
Us who stay here,
Minus wine or
Even beer,
Whence good liquor
Long since vanished,
Volsteadized and
Banned and banished,
In their place to
Curse the nation,
Bootleg booze,
Distilled damnation.

Was it claret,
Port, or sherry,
That, uncorked, did
Make you merry,
Tokay pale, or
Rich-hued Rhenish,
Old Sauterne, or
Absinthe greenish,
Burgundy, or
Soft Malvoisie,
Made you cheery,
Maybe noisy?

Not a smell the
Dry cork gave us,
Not a drop from
Drought to save us.
Just a cork
My sweet Luella,
Poor, bare cork
From Gallia bella!
Oh, so cruel,
To remind us
We have put good
Drinks behind us!

Diverting.

The world is full of more or less diverting situations, and the minister's little boy is out there in front of the house at this very moment, playing rum runner.—Ohio State Journal.

* * *

MYSTERY.

We must, after all, come to terms in some way with the emotions underlying mysticism. They are very dear to us, and scientific knowledge will never form an adequate substitute for them. No one need fear that the supply of mystery will ever give out, but a great deal depends on our taste in mystery; that certainly needs refining. What disturbs the so-called rationalist in the mystic's attitude, is his propensity to see mysteries where there are none and to fail to see those that we cannot possibly escape. In declaring that one is not a mystic, one makes no claim to be able to explain everything, nor does he maintain that all things are explicable in scientific terms.

Indeed, no thoughtful person will be likely to boast that he can fully explain anything. We have only to scrape the surface of our experience to find fundamental mystery. And how, indeed, as descendants of an extinct race of primates, with a mind still in the early stages of accumulation, should we be in the way of reaching ultimate truth at any point? One may properly urge, however, that as sharp a distinction as possible be made between fictitious mysteries and the unavoidable ones which surround us on every side.

JAMES HARVEY ROBINSON.

ARTHUR WHIZBANG'S COLUMN.

LOS ANGELES, Aug. 21.

California, the beautiful. California, the marvelous. That is what this writer has found.

My readers should know more about California. California was leased from God about 50 years ago and since then has been improved extensively. You can go from San Francisco to Los Angeles in a few hours. You can travel from Los Angeles to San Pedro in less time. What does this mean? Why, it means that space has been annihilated. That's what it means. You're darn right.

* * *

Here is a tip. I have it on the word of no less a person that an officer of the Los Angeles Chamber of Commerce that California is THE coming place! This will mean freedom itself to at least some of my readers who are now inhaling the sooty air of New York, Baltimore, Chicago. Why not come out here and inhale some real sooty air? Think this over.

* * *

The roads here are wonderful. Caesar, the greatest roadmaker of the past century would consider it a privilege to cut his initials in the concrete. Sisyphus, condemned to push a stone for all eternity would feel like a 3-year-old rolling a hoop on a city sidewalk, if his itinerary were along California's boulevards. Diogenes, in less than two hours could roll in his barrel in perfect comfort from Tia Juana to Los Angeles. At that he might not achieve his lifetime ambition but he would see at first hand how movies are made.

* * *

And the women here are wonderful. They are intensely intellectual. One young lady just out of college even succeeded in stumping me in a statistics spat. My readers will realize what this means.

* * *

At the great State university near here, it was my privilege to preside over a class of girls for a period. I tried to perplex them by a quiz on all sorts of matters but they told me to the milligram how much more suspense there is in Brooklyn Bridge, how much stuffing a turkey can hold and the route to the town's best bootlegger. Young men in quest of wives would do well to pick from these girls. Nothing like knowledge. And there's nothing can spoil an evening at home more than a poorly informed wife, unless it's a poorly prepared meal.

* * *

New Yorkers, smug in their atmosphere of sordid filth and crime disdain to consider California's attractions. Naturally they wouldn't. They are too sodden. California has the most beautiful hills and mountains in the world, the most progressive people and the closest view of the Pacific Ocean. It has the most magnificent residences, the most picturesque boulevards, the fewest backyards, tile bath and an all-year around heating plant. It is close to all car lines, has four-wheel brakes, will not peel or crack and is not good after five and one-half innings have been played. People choking in the congested districts of Kansas and North Dakota will do well to remember this.

Long-winded.

Colored Maid (returning from morning service): Dat man sho' did preach long; he must a-preach from Generous to Regulations.—Boston Transcript.

The MIRROR *of* PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

SECRET POLITICAL SOCIETIES.

From the Louisville Courier-Journal.

WRITING in World's Work of the Know Nothing Party, the "A. P. A." and their latest successor in the realm of secret political societies, Robert L. Duffus pertinently revives what Josiah Quincy of Massachusetts said a great many years ago respecting this menace to American institutions. Here is Mr. Quincy's judgment of the value of hooded philosophers and masked patriots: "The liberties of a people are never more certainly on the path of destruction than when they trust themselves to the guidance of secret societies. Birds of the night are never birds of wisdom. One of them, indeed, received this name, but it was from his look and not from his moral and intellectual qualities. They are for the most part birds of prey. The fate of a republic is sealed when bats take the place of eagles." Into that paragraph is compressed the truth respecting political secret societies like the ones that Mr. Duffus writes of. He predicts that the "bats" that are now flying about by night will become extinct by 1925, just as their predecessors became extinct after short shifts of life. Certainly it is Josiah Quincy of Massachusetts rather than "Col." Simmons of Georgia who understands the genius of his country's institutions and the true significance of the American spirit.

PETTY PATERNALISM.

From the Vancouver Sun.

WHILE the Canadian Parliament had the good sense to recant on the absurd proposition that comment on horse races should be barred from newspapers, Ontario still suffers from such a law, which came not from Ottawa, but was self-inflicted. Since it is a crime under this Ontario law to display any newspaper containing such racing news, nearly every newspaper outside of Ontario is, technically at least, barred from the news stands. If a man traveling in Winnipeg sends his wife a Winnipeg paper which happens to contain racing news, and his wife runs to the back fence to show her neighbors a new dress pattern in it, she is guilty under this law and subject to a fine of $500 or six months' imprisonment. Petty paternalism of this kind is prevalent in the United States, but should not be allowed to develop in Canada. Most of these silly prohibitive laws are as nonsensical as this one, which says, in effect: "You may race, if you like, but you must not talk about it." If we are not competent to choose our reading matter, we are not competent to choose legislators to chose it for us.

THE LIFE OF A BUSY EDITOR.

SOLOMON BULKLEY GRIFFIN in "People and Politics."

"DO you think you have had a fortunate life?" asked my wife after we had been discussing the passing of a friend. Since I have no fellowship with troubled souls who waste time and force in introspection, the interrogation was disconcerting. But as thought came of the lines wherein my lot had been cast—of surroundings of boyhood, of the joy experienced in my own home, and in newspaper work long sustained; of the friends made, and of the city wherein I have lived and toiled; above all, of the interesting people with whom I had come in contact, and the public events observed at close range and often with intimate knowledge of them—as all these considerations passed in panoramic survey, there seemed to be but one reply to make to the challenging question. As not before apprehended came the conviction that more of the fullness of life had come to me than falls to most persons. Education comes through experience, and my experiences, while intensive—in that I had been allied with only one stated calling—had been broadly manifold, insomuch as newspaper work touches men and events at all points.

FIRST OF AIR SQUADRONS DUE HERE TOMORROW

Motor Convoy of Twenty Trucks With Equipment on Way From Chanute Field.

The first air squadrons of the rmy and navy are expected to reach t. Louis tomorrow to make camp nd prepare for the racing pilots who will arrive next week for the nternational air races at St. Louis Field Oct. 1, 2 and 3.

A motor convoy, consisting of 20 rucks with equipment and 100 men f the Fifteenth Aerial Squadron and ifth Photo Section, from Chanute Field, Rantoul, Ill., will be the first ig unit to arrive. They left Chanute Field yesterday and expect to reach St. Louis Field Monday, where he last touches in finishing the ield are being given by a large rew of workmen.

Next week will be devoted to a tudy of the 30-mile triangular course, over which the classic Pulitzer Trophy Race for speed airplanes will be flown, and trial spins over the course probably will be made during the latter part of the week by some of the racers.

Field Mile Square.

St. Louis Field, which only a few onths ago was obstructed with atural mounds, ditches and scattered trees, has been thoroughly leared, graded, filled, rolled and owed with rye, so that today it presents an emerald sward about one mile square and smooth enough to nd an airplane safely at more than miles an hour.

On the south side, skirting Natural ridge road and about midway of he field, are the boxes and reserved at sections, and directly in front the seats is the starting and finishing mark and the home pylon ound which the racers must turn their four-lap dash over the triangular course.

At the west end of the field nd about a half mile north of ridgeton are the great hangars, achine shop and supply depot. The utside of the entire field has been enced with barbed wire, and the nclosure roped off with wire cable.

Thousands of reservations have een made by out-of-town people, nd the local seat sale at the ticket ffice on the mezzanine floor of the rcade Building is meeting the expectations of the Air Board, which as charge of general arrangements for the meet. There will be eats for about 45,000 persons and arking space for thousands of automobiles just inside the grounds, est of the seating sections.

One-Way Road Traffic.

Arrangements have been made ith county officials to have oneay traffic on the roads that touch he field, and no parking will be ermitted on these roads during the acing hours.

Lieut. Muir Fairchild, assistant ilot of the Barling Bomber, largest irplane in the world, yesterday inpected St. Louis Field to determine the great bomber can safely be rought here. He said it would be asible to land and take off at St. ouis Field with the bomber, and ll report his observations to the my Air Service. Lieut. Harold Harris, official pilot of the Barg Bomber, is to be official announcer of the air races here, and ieut. Fairchild and Engineer Dougs Culver will fly the bomber to Louis. The ship has a wingread of 120 feet, 160 feet long and feet high. She is equipped with 400 horsepower Liberty motors d develops a speed of 95 miles hour.

EONARD DARWIN WRITES ON "MARRIAGE AS IT OUGHT TO BE"

moral and Unpatriotic for Wise and Healthy Couples to Have Fewer Than 3 or 4 Children, He Says.

LONDON, Sept. 14.—In an article "Marriage as It Ought to Be," aj. Leonard Darwin, president of e Eugenics Education Society, and urth son of Charles Darwin, author "The Origin of Species," writes: "All fairly healthy persons who mire the qualities of their parents d relatives and who also are proud the nation to which they belong, ould realize that by having less an three or four children when ey could have more, they would doing their best to stamp out the ock from which they sprang, and s merely to secure their own comt.

"Such a course of action is not ly immoral, but is certainly unpatriotic; for if the wise and healthy uples of today do not pass on their od qualities to posterity by havg a fair-sized family, the nation ll inevitably go slowly and steadily wn the hill.

"I am not advocating very large milies, for I hold that the populan is increasing too quickly as it But is this increase of the right d? I am told that bargains are w often struck before marriage to the number of children to be rought into the world. To an oldshioned person like myself such rgaining between lovers is simply gusting."

S. BENJAMIN O'FALLON DIES

dy Will Be Brought Here From Virginia for Burial.

Mrs. Mary Carter O'Fallon, 77 rs old, widow of Benjamin O'Fal of St. Louis, died yesterday of rt disease at her home in Mill. Clarke County, Va. The body be brought to St. Louis and innent will be in Bellefontaine etery, but arrangements for the ral have not been announced.

rs O'Fallon is survived by her Howard L. O'Fallon, of 4543 hing avenue, and three daugh Mrs. C. Hunt Turner of St. Mrs. James Nolan of Wash, and Miss Ethel O'Fallon of ood, Va.

FIRST OF AIR SQUADRONS DUE HERE TOMORROW

Motor Convoy of Twenty Trucks With Equipment on Way From Chanute Field.

The first air squadrons of the army and navy are expected to reach St. Louis tomorrow to make camp and prepare for the racing pilots who will arrive next week for the international air races at St. Louis Field Oct. 1, 2 and 3.

A motor convoy, consisting of 20 trucks with equipment and 100 men of the Fifteenth Aerial Squadron and Fifth Photo Section, from Chanute Field, Rantoul, Ill., will be the first big unit to arrive. They left Chanute Field yesterday and expect to reach St. Louis Field Monday, where the last touches in finishing the field are being given by a large crew of workmen.

Next week will be devoted to a study of the 30-mile triangular course, over which the classic Pulitzer Trophy Race for speed airplanes will be flown, and trial spins over the course probably will be made during the latter part of the week by some of the racers.

Field Mile Square.

St. Louis Field, which only a few months ago was obstructed with natural mounds, ditches and scattered trees, has been thoroughly cleared, graded, filled, rolled and sowed with rye, so that today it presents an emerald sward about one mile square and smooth enough to land an airplane safely at more than miles an hour.

On the south side, skirting Natural Bridge road and about midway of the field, are the boxes and reserved seat sections, and directly in front of the seats is the starting and finishing mark and the home pylon around which the racers must turn in their four-lap dash over the triangular course.

At the west end of the field and about a half mile north of Bridgeton are the great hangars, machine shop and supply depot. The outside of the entire field has been fenced with barbed wire, and the enclosure roped off with wire cable.

Thousands of reservations have been made by out-of-town people, and the local seat sale at the ticket office on the mezzanine floor of the Arcade Building is meeting the expectations of the Air Board, which has charge of general arrangements for the meet. There will be seats for about 45,000 persons and parking space for thousands of automobiles just inside the grounds, west of the seating sections.

One-Way Road Traffic.

Arrangements have been made with county officials to have one-way traffic on the roads that touch the field, and no parking will be permitted on these roads during the racing hours.

Lieut. Muir Fairchild, assistant pilot of the Barling Bomber, largest airplane in the world, yesterday inspected St. Louis Field to determine if the great bomber can safely be brought here. He said it would be possible to land and take off at St. Louis Field with the bomber, and will report his observations to the Army Air Service. Lieut. Harold Harris, official pilot of the Barling Bomber, is to be official announcer of the air races here, and Lieut. Fairchild and Engineer Douglas Culver will fly the bomber to St. Louis. The ship has a wingspread of 120 feet, 160 feet long and feet high. She is equipped with 400 horsepower Liberty motors and develops a speed of 95 miles an hour.

LEONARD DARWIN WRITES ON "MARRIAGE AS IT OUGHT TO BE"

Immoral and Unpatriotic for Wise and Healthy Couples to Have Fewer Than 3 or 4 Children, He Says.

LONDON, Sept. 14.—In an article "Marriage as It Ought to Be," Leonard Darwin, president of the Eugenics Education Society, and th son of Charles Darwin, author of "The Origin of Species," writes:

"All fairly healthy persons who desire the qualities of their parents and relatives and who also are proud of the nation to which they belong, would realize that by having less than three or four children when they could have more, they would be doing their best to stamp out the stock from which they sprang, and merely to secure their own comfort.

"Such a course of action is not only immoral, but is certainly unpatriotic; for if the wise and healthy couples of today do not pass on their good qualities to posterity by having a fair-sized family, the nation will inevitably go slowly and steadily down the hill.

"I am not advocating very large families, for I hold that the population is increasing too quickly as it is. But is this increase of the right kind? I am told that bargains are now often struck before marriage as to the number of children to be brought into the world. To an old-fashioned person like myself such bargaining between lovers is simply disgusting."

MRS. BENJAMIN O'FALLON DIES

Body Will Be Brought Here From Virginia for Burial.

Mrs. Mary Carter O'Fallon, 77 years old, widow of Benjamin O'Fallon of St. Louis, died yesterday of heart disease at her home in Mill- Clarke County, Va. The body will be brought to St. Louis and interment will be in Bellefontaine cemetery, but arrangements for the funeral have not been announced.

Mrs. O'Fallon is survived by her son, Howard L. O'Fallon, of 4543 ing avenue, and three daughters, Mrs. C. Hunt Turner of St. Louis, Mrs. James Nolan of Washington, and Miss Ethel O'Fallon of wood, Va.

Social News

HERE FROM CANTON

—Kandeler photograph.

MRS. GROSVENOR STEWART McKEE.

AMONG the out-of-town visitors now being entertained is Mrs. Grosvenor Stewart McKee of Canton, Ohio, the guest of her parents, Dr. and Mrs. Senter Gettys, of 5335 Delmar boulevard.

MRS. JAMES RICHMOND INGHAM of Buffalo is the guest of her parents, Mr. and Mrs. F. A. Leland, of 18 Windermere place. Mr. and Mrs. Leland and their family returned Wednesday from Charlevoix, Mich., where they spent the summer, and Mrs. Ingham, who had been a member of the bridal party of a friend in Chicago, returned with them. She will remain two weeks.

Mrs. Grace Wilson-Clark of 11 Vandeventer place will remain at Ocean Grove, N. J., until October. Her daughter-in-law, Mrs. Burgoyne Wilson, is expected home Thursday from Pointe-aux-Barques, Mich., where the Wilsons had a cottage for the summer. Mr. Wilson has returned.

Mrs. J. Percival Phelan of 5206 Waterman avenue, and daughter, Miss Janet, are expected home Sept. 26 from an extended tour of Europe. They have been abroad for more than a year, spending much of their time in Paris. Miss Phelan was graduated from Mary Institute a year ago, and will make her debut informally this year.

Mr. and Mrs. John Fowler of 35 Westmoreland place will return home early in October from Rockland, Me., where they spent the summer.

Mr. and Mrs. Wiggins of 17 Portland place are expected home in October from the East. At present they are at a Connecticut resort.

Mrs. James Martin Nelson Jr. and her three sons, who spent the summer in their cottage at Murray Bay, Can., are visiting in Montreal. They are expected home at "Nelsonia," Nelson Station, Normandy, next Monday.

Mrs. Alexander C. Good and Mrs. L. Frederick Good of Kirkwood entertained about 60 guests at tea yesterday at the home of the former, in honor of their sister-in-law, Miss Margaret Good, whose engagement to Gerald Bryant of Ferguson has been announced. The guests called between 4 and 6 o'clock. Those serving were Mrs. Hiram Shaw Liggett, Mrs. Robert Metcalfe, Miss Jane Rule and Miss Alice Henderson. Miss Good has chosen Oct. 16 as the date of her wedding. The ceremony is to take place in the Good home in the presence of only the immediate families. There will be no attendants. The bride-elect is the daughter of Mr. and Mrs. Maxwell S. Good of Kirkwood. Mr. Bryant is the son of Mr. and Mrs. W. B. Bryant of Ferguson

Mr and Mrs. George A. Baker Jr., of 20 North King's highway are at the Ambassador Hotel in Atlantic City for a short stay.

Mrs. Joseph Rollinson Barroll Jr., of 5535 Clemens avenue, is now in Paris with her hister, Miss Eleanor Wood, after a summer's tour of Europe. She will return to St. Louis in October.

Mrs. Murray Carleton of 4515 Lindell boulevard and daughter. Miss Annie Laurie Carleton, will return home Sunday morning from New Mexico, where they have spent the summer at a resort near the Carleton ranch at Shoemaker.

Mrs. Charlton Messick of 4537 Maryland avenue, has had as her guest for a fortnight her sister, Mrs. Mockridge of Louisville. She was entertained informally during her visit, which terminated a day or two ago. Mr. and Mrs. Messick recently returned from a trip to New Orleans and New York.

Miss Alice Muckerman, daughter of Mr. and Mrs. John C. Muckerman of 4464 West Pine boulevard, will give a bridge luncheon tomorrow in honor of Miss Louise Keeshan, who will depart soon to enter Eden Hall in Philadelphia. The guests will be a group of young women who have gone through school together, many of whom will enter finishing schools this fall. They are Misses Grace Layman, who will be a debutante; Margaret Eakin, Ruth Holman and Jane Whiteside, all of whom will enter the Finch School in New York; Marjorie Frampton, to enter the Sargeant School of Expression in New York; Virginia Cornwall, to be a Veiled Prophet maid; Mildred North, who will spend a year in Europe; Marie Stewart, still a student at Mary Institute, and Ruth Krause.

Mrs. August A. Busch of Grant's Farm, St. Louis County, is at the Ambassador Hotel in Atlantic City for a brief stay.

Miss Rose Muckerman, daughter of Mr. and Mrs. John C. Muckerman, and Miss Olquita Queeny, daughter of Mr. and Mrs. John F. Queeny, 3453 Hawthorne boulevard, who went abroad in the party chaperoned by Mr. and Mrs. Warne Niedringhaus, are in Paris. They will visit relatives of Miss Queeny in England before returning home in October.

Invitations have been received for the marriage of Miss Eleanor Ruth Fox, daughter of Mr. and Mrs. James Edward Fox of 4319 Lindell boulevard, and Dr. George Cecil Sutcliffe Jr., formerly of London, England, Saturday, Oct. 6, at Hotel Chase. The ceremony will take place at 8 o'clock.

Mr. and Mrs. J. E. Crossman have sold their home on Oakwood avenue, in Webster Groves, and have taken an apartment at 7260 Forsythe boulevard for the winter.

Mr. and Mrs. Richard Waltke of 4576 Red Bud avenue returned Monday from a two months' visit in California and Canada.

LECOINTE HOLDS ALTITUDE MARK

French Aviator's Record of 35,178.88 Feet Officially Recognized.

By the Associated Press.

PARIS, Sept. 14.—Sadi Lecointe, the French aviator, was yesterday officially recognized as holder of the world's altitude record. The laboratory of the Ministry of Public Instructions announced that the barograph showed Lecointe reached 10,722 meters, or 35,178.88 feet, on his last attempt on Sept. 2, thus breaking the record held by Lieut. J. A. MacReady of the United States army air service. Lieut MacReady's mark of 34,509.5 feet had stood since Sept, 1921.

By his feat, Lecointe wins a prize of 50,000 francs offered by the French Government, as well as a pension of 50 francs daily, offered by the manufacture of his Mieuport plane until his record is shattered.

M. U. ENROLLMENT OVER 3000

Total Number Expected to Surpass Last Year's Figure of 3800.

By the Associated Press.

COLUMBIA, Mo., Sept. 14.—With more than 3000 students enrolled, and the total number of students expected to surpass that of last year—3800—class work in the University of Missouri here began this morning. The opening convocation of the fall term was held this morning, Dr. Stratton D. Brooks, new president of the University, making his first address to the student body.

Missouri Road Conditions.

LEGION'S AVIATION POLICY

By the Associated Press.

INDIANAPOLIS, Sept. 14.—The proposal for an international air disarmament conference is not in conflict with the aviation policy of the American Legion, according to Reed G. Landis, former ace in the World War and head of the legion's committee on aeronautics.

"It is my belief that the legion stands firmly for intelligent limitation of all armaments as opposed to either militarism or complete pacificism," said Landis in a letter to legion headquarters here. "If we are going to have any wars we will stand a lot better chance if there has been an intelligent arms limitation program than if our foreign friends have been allowed to run riot and build up tremendously powerful fleets, armies and air establishments."

PRINCE STARTS FOR RANCH

Quebec Citizens Avoid Demonstration as He Departs.

By the Associated Press.

QUEBEC, Sept. 14.—The Prince of Wales, traveling as Lord Renfrew, left the capital yesterday afternoon on a special car for his ranch in Alberta.

Citizens of Quebec joined in his efforts to preserve his incognito of Lord Renfrew, and there was no demonstration as he boarded Lord Shaughnessy's special car, "Killarney," which has been placed at his disposal for the trip across Canada and return.

'OLD CURIOSITY SHOP' SOLD

Place Made Famous by Dickens Brings $11,250.

Correspondence of the Associated Press.

LONDON, Aug. 27.—The "Old Curiosity Shop" in Lincoln's Innfields familiar to all lovers of Dickens, has been sold for $11,250. The purchaser, J. A. Phillips, said he bought the shop to preserve it as a curiosity.

SECRETARY, 27, TO WED EMPLOYER, 70

Drawn Together by Mutual Detestation of Youth's Lack of Seriousness.

Special to the Post-Dispatch.

NEW YORK, Sept. 14.—The engagement of Merwyn Genung, 70 years old, president of the White Plains Stores Co., and the owner of department stores in White Plains, Mount Vernon, Tarrytown, Pleasantville and Bronxville, to his little blonde secretary, Florence Ferris, 27, of Mount Vernon, is a definite compact against youth, a strong mutual desire to defeat the "younger generation" at any cost.

Miss Ferris is as emphatic in her expressions of dislike of young men, as Mr. Genung in his detestation of the "flapper type" of young girl. She began her career as saleswoman in the Genung store at Mount Vernon with the idea of closing young men out of her life, of making for herself a business career in which young men would figure only as casually as the customers she waited upon.

Distrusts YoungM ne.

"For why should I bother about them?" she asked, in a recent interview. "No intelligent girl would. They are unreliable, insensible and selfish as a class."

But Miss Ferris soon discovered that she could not shut men out of her life. She was ambitious for business success, so ambitious that she devoted her evenings to the pursuance of a difficult business course at a school in Mount Vernon.

Her salesmanship improved, she became a figure in the art department in the Genung store. In short, she attracted the attention of none other than the president of the company, Merwyn Genung.

"Just about that time I had been wondering if it were worth while for a girl to want to better herself, to be just a little bit more intelligent than the average and to have a goal before her," said Miss Ferris. "I suppose it is the question that a hundred other girls are asking themselves—is it worth while? Does it lead anywhere?

"I can answer it for them now. It is worth while. It does lead somewhere. Every girl should have a goal and she should reach for it with blind determination.

Both Serious.

"Soon I was given the highest position in the organization—that of secretary to Mr. Genung. And almost in the same breath came a realization of the fact that I was right in my cynicism toward young men."

The story of the office romance between Genung and his young secretary is a curious one. Mr. Genung is a quiet, white-haired gentleman whose wife died just two years ago. He is the father of a daughter who is older than Miss Ferris and he is the proud possessor of a granddaughter.

Genung was attracted toward Miss Ferris for the same reason that she was attracted toward him. They both simultaneously found in each other the very thing that each had been looking for and failed to find—"seriousness." The young woman as well as the man had been embittered toward youth for its seeming selfishness.

"For youth is not interesting!" exclaimed Miss Ferris. "There is something steadier about an older man, something more reliable. It is rather an indefinable quality, but I suppose it is covered in that word 'unselfishness.'

"An older man can be more interested in a woman because he is not so engrossed in the furthering of his own interests. He has learned, if he is ever going to learn, to be generous in his attitude toward life, and hence in his attitude toward women.

"'On tires quickly of young men, while older, more settled men retain one's interest."

Pshaw! What Matter?

No more appropriate opening could have been required between Miss Ferris and Genung by the writer of the best-seller novel than the one which actually took place. It was—music. Not music wafted in upon the summer air, or even music listened to at the opera; but a serious discussion of music that opened to the young girl and the older man a mutual realization of the fact that their interests were one and the same.

This drew them together. Then there was the inevitable tie of the business. For three and a half years they worked together.

This engagement between Genung and his young secretary has aroused the curiosity of the inhabitants of Westchester County. Genung has never before been attracted toward a young woman. Miss Ferris, on her part, has never before been attracted toward any man.

"But," as Miss Ferris explained, "since we found the desired thing in each other, the thing which we had not found before—pshaw! what matter the difference in our ages?"

WALDBART LEFT $97,970 CASH

Florist's Estate Inventoried at $304,917.

An inventory of the estate of George Waldbart, florist, who died last March, was filed yesterday. It shows an estate valued at $304,917.04, including personal property worth $292,277.44 and realty appraised at $12,640. His will is being contested by five nieces and nephews. He left $75,000 to his housekeeper, Mrs. Marion Campbell; $10,000 and a farm in St. Louis County to her son, Leslie Campbell, and the bulk of the remainder to a sister and her children living in Germany.

He had $97,970 in cash and $133,790 in bonds; also stocks in corporations amounting to $39,000 and notes worth $37,956.

PIONEERS TO RE-ENACT 'RUN' TO THE CHEROKEE STRIP

Nearly 500 Gather at Enid (Ok.) to Celebrate Thirtieth Anniversary of Historic Event.

By the Associated Press.

ENID, Ok., Sept. 14.—Nearly 500 old timers have registered here preparatory to celebrating the thirtieth anniversary of the opening of the Cherokee strip, and have received badges denoting that they made the "run" for land in 1893.

Most of them were content to remain in groups to tell of the day, 30 years ago. Each was elated to tell again how he made the trip on horseback, in a wagon or on a buckboard.

Only once did the pioneers of a new land pause in their story telling—that was when at roll call no answer came from many who had made their "last run."

Today they will re-enact the "run." Many of the old timers, although some are bent with age, will climb again upon horses or ride in some conveyance to depict to the present generation the "drama of 1893."

Tomorrow there will be a historical parade.

WRIT STAYING DEPORTATION OF 5 I. W. W.'S DISMISSED

Court Holds Presidential Commutation of Sentence Was Not a Pardon.

By the Associated Press.

NEW YORK, Sept. 14.—Federal Judge Manion yesterday dismissed writs of habeas corpus granted last month staying the deportation of five members of the International Workers of the World recently released from the Leavenworth (Kan.) penitentiary on conditional pardons granted by the late President Harding.

The five, Richard Brazier, Peter Green, Joseph Graber, Don Sheridan and James Slovik, were released under conditional pardon issued by the late President shortly before he departed on his Alaskan tour. They had been serving 20-year sentences imposed in 1918 when they were convicted in the Chicago I. W. W. trial for obstruction of the draft under the wartime espionage act.

On their release they were seized by immigration inspectors at the direction of the Department of Labor and ordered deported, Green to Scotland, the others to Russia. Arriving in New York, proceedings were checked by a writ of habeas corpus granted by Federal Judge Goddard.

In dismissing the writs, Judge Manton declared the presidential commutation of sentence was not a pardon which absolved the quintette from punishment for past offenses.

GIRL CHOOSES FOSTER-MOTHER

Court Abides by Her Wish and Denies Mother's Plea for Custody.

By the Associated Press.

OMAHA, Neb., Sept. 14.—Mother love lost yesterday in a battle with the love of her child for that of a foster mother when District Judge E. L. Day gave Mrs. Mary Kerrigan the custody of Doris, 11-year-old child of Mrs. Iva Gannaway. Judge Day declared he was influenced to a great degree by the wishes of the little girl who declared she would prefer to live with her foster-mother.

When the decision was announced, Doris ran to Mrs. Kerrigan's arms and then skipped lightly to the bench and thanked the Judge. The mother was not present when the verdict was announced.

Doris was adopted by Mrs Kerrigan several years ago, testimony showed, and in an effort to regain custody of her child, Mrs. Gannaway filed suit, charging that the home of Mrs. Kerrigan was an "unfit place for her daughter to remain." The mother also charged that she had permitted the adoption on the understanding that she could gain possession of her daughter any time. Mrs. Kerrigan in turn testified that the mother was "unfit for the duties and responsibilities of motherhood."

Madden Materially Better.

By the Associated Press.

WASHINGTON, Sept. 14.—Representative Martin B. Madden of Illinois, ill here from a heart attack, was said by physicians to be materially better this morning. They said they believed he had passed the crisis.

GEN. PERSHING APPEALS FOR STILL MORE AID FOR JAPAN

Says U. S. Must Not Be Surpassed in Giving—Red Cross Fund Over $6,295,000.

By the Associated Press.

WASHINGTON, Sept. 14.—The American Red Cross relief fund for Japanese earthquake and fire sufferers now exceeds by a million and a quarter dollars the original $5,000,000 asked for. The total reported up to 6 p. m. last night was $6,295,000, with donations coming in steadily. Of the six divisions to which the work of collecting funds was allotted, four have exceeded their quotas and the others are making ground rapidly. A check for $600,000 was received yesterday from the New York County Chapter, bringing the cash received at headquarters up to $3,670,000. A check for $25,000 from the Knights of Columbus was received by Chairman John Barton Payne.

In a letter made public by the Red Cross, General Pershing, who at one time served as military attache in Japan, called upon every one in the United States who could do so to contribute something to the fund, declaring the best the country could do would effect only a small measure of amelioration of the terrible conditions.

"This disaster is a world tragedy and all civilized countries are rallying to the assistance of their stricken associates," said Gen. Pershing. "The United States must not be surpassed in this service of mercy."

The subscriptions to the fund to date, by divisions, follow: Washington, $3,644,000; New England, $434,400; Southern, $151,300; Central, $1,000,000; Southwestern, $850,000; Pacific, $503,300; Insular and Foreign, $201,500.

67,000 New Houses Yearly.

LONDON, Sept. 14.—Houses are being built in England and Wales at the rate of 67,000 a year. About half this number are constructed under the government housing plan whereby the government pays a percentage of the cost. Shelter will be provided for 340,000 persons.

A Store Which We Are Proud of and a Store You Will Like to Trade In

Men's 2-Pants Fall Suits of Real Quality

We believe there are thousands of men and young men in St. Louis who want to spend $35 for a good-quality two-pants Suit—no more, no less! With this thought in mind we went into the market, determined to give St. Louisans the best $35 Two-Pants Suit that money could buy. And here they are! New, roomy, easy-fitting Suits with an English touch—3-button high lapels or 2-button wide lapels; vests with blunt edges; pants with straight lines and large bottoms; others in one, two and three button double-breasted, form or semi-form fitting. There are handsome pencil stripes, pin checks, club checks, blue serges, cassimeres, worsteds and Scotches.

$35
Outvalues Anything in St. Louis
And that goes likewise for our Men's Fall Suits at
$25 to $60

Men's Overcoats and Topcoats

Here's the finest group of men's Overcoats that has greeted the eyes of St. Louis men in many a year. We've spent many months in the market searching for them. And we know you'll like them. Think of blue and black kerseys, Oxford Vicunas, whipcords, gabardines and Bedford cords—all lined with Skinner's satin or serge silk. There are ¾-length, loose and semi-form-fitting styles in tan, gray and fancy mixtures. There are double-breasted styles with inverted pleats and plaid backs. All wanted shades to choose from.

Manhattan Shirts
$3 to $8
Finest silk and cotton mixtures, silk striped madras cloth, finest woven madras and printed madras. Collar-attached and neckband styles. All sizes.

Interwoven Hose
40c to $2
Some of lisle, others of silk and lisle, others of pure thread silk—all with the toe and heel interwoven. Sizes 9½ to 12.

Men's Ties
50c to $4
Knitted silks in the newest shapes and patterns. A variety so extensive that every taste can be easily satisfied.

Men's Sweaters
$1.95 to $13.50
Pullover and coat styles of pure worsteds, wool, wool-mixed, burnished weaves, rip stitch, cardigan stitch and regular smooth stitch elastic rib with two or four pockets. All sizes.

Boys' 2-Pants Suits
All-Wool! Outstanding Values at.. $10.75
Mothers Will Come Hurrying for These

There simply can't be any better Suits made at the price! Boys like style, good fabrics, and here's an unbeatable combination of both. Snappy new models in handsome patterns—tweeds and cassimeres in all colors. Coats are alpaca lined. Both pairs of knickers are full lined. Sizes from 6 to 18 years.

Society Club Hats for Fall
$5

Fine Velours, $3.95, $5.95 & $8
Nothing more popular for Fall than these Velours, particularly in the lighter colors.

If You See It in a Schmitz & Shroder Ad, It's True

NEGRO SHOT DURING QUARREL

Alfred Evans, 27 years old, a negro residing in the rear of 1435 Franklin avenue, was shot and killed at 7 p. m. yesterday at his residence during an altercation between his sister, Mrs. Estell Johnson, 22 of the same address, and her estranged husband. Police were told that the husband, David Johnson, 27, of 922 North Fifteenth street, accompanied by two men, went to the Evans' place seeking a reconciliation. When Mrs. Johnson rejected peace overtures, Johnson is alleged to have become abusive and to have been taken from the house by Evans and his brother, Edward, 18. One of Johnson's companions fired when the three appeared in the yard and Alfred Evans fell dead. His brother procured a revolver from the house and fired several shots at the three fleeing men. Johnson was found an hour later at Fourteenth and Market streets with a bullet wound in his shoulder.

WIFE OFFERS SECRET DOCUMENT AT TRIAL

Written Six Months Before She Killed Egyptian, It Accused Him of Vowing Her Death.

Special Cable to the Post-Dispatch and the New York World.

(Copyright, 1923, by the Press and Pulitzer Publishing Cos., the New York World and the Post-Dispatch.

LONDON, Sept. 14.—A secret document was offered in evidence in the case of Mme. Marie Fahmy, beautiful French woman on trial at the Old Bailey Court for shooting and killing Ali Fahmy, her young Egyptian millionaire husband. The document was drawn up by her Jan. 23, 1922, six months before the tragedy. It reads:

"I, Marie Marguerite Fahmy, of full age and of sound body and mind, do formally accuse, in case of my death, violent or otherwise, Ali Bey Fahmy of having contributed toward my disappearance. Yesterday at 3 o'clock in the afternoon he took his Bible or Koran, or whatever it is called, in his hand, kissed it and swore to revenge himself on me tomorrow, in eight days, or in a month, or three months, and said that I must disappear by his hand. This oath was taken without any reason, neither jealousy nor any bad conduct nor scene on my part.

"I desire and demand justice for myself and my family. Today he wanted to take my jewelry from me. I refused, hence a fresh scene."

This document concluded Mme. Fahmy's evidence. The case was concluded this afternoon.

FIGHT TO GET COPPER MAGNATE OUT OF AN ASYLUM DROPPED

Application for Writ Withdrawn on Advice of Judge Who Visits Man in Institution.

By the Associated Press.

NEW YORK, Sept. 14.—An application for a writ of habeas corpus to release Walter Lewisohn, copper magnate, from an asylum at Greenwich, Conn., was withdrawn last night on recommendation of Judge Walsh, before whom the application was brought at South Norwalk, according to advices received here.

Jeremiah D. Toomey, counsel for Lewisohn, told Judge Walsh that Lewisohn said he had been tricked into accompanying two men to the sanitarium under the belief that he would find there Leonora Hughes, a well-known dancer, with whom Toomey said Lewisohn was friendly.

Judge Walsh made his recommendation after he had visited Lewisohn at the sanitarium. Toomey said Lewisohn had written friends that he was being held against his will, and that he brought the action to get at the facts. He and Judge Walsh learned, he said, that Lewisohn last May signed a voluntary commitment of himself to the institution and recently signed a letter asking that Toomey stop his efforts to obtain his release.

$5000 FIRE AT PACKING PLANT

Blaze in East St. Louis Attributed to Overheated Stove.

Fire, believed to have been caused by an overheated stove, caused an estimated damage of $5000 in one section of the smokehouse of the plant of the East Side Packing Co., Second street and Lynch avenue, East St. Louis, early today.

The blaze was discovered by workmen at 6:25 a. m. Three East St. Louis fire companies fought the flames until 8:30. E. J. Delmar, assistant general manager of the plant, said the chief damage was to about 15,000 pounds of ham and bacon in process of being cured in the smokehouse. Other sections of the building were protected by fire walls. Hickory wood is burned in large stoves in the smokehouse.

INMATE LEAVES HOME $10,000

"Conscience" Bequest in Will Follow Discovery of Possessions.

By the Associated Press.

SAN FRANCISCO, Sept. 14.—A "conscience" legacy of more than $10,000 was left to the San Francisco Relief Home by Nicholas Mulvaney, 90 years old, an inmate of the home, as a result of the accidental discovery that he was the possessor of $23,000 in cash, it became known when his will was admitted to probate.

A few months before Mulvaney died, an attendant at the home picked up his bank book showing the $23,000 deposit. The superintendent of the home criticised him for living on public charity, but Mulvaney begged to remain at the home, saying he had spent the happiest years of his life there and that he would remember it in his will. His request was granted.

$100,000 Fire Laid to Incendiary.

By the Associated Press.

NEW STRAITSVILLE, O., Sept. 14.—Fire believed to have been of an incendiary origin early today destroyed half a block in the heart of this town, burning a total of 11 buildings and causing a property damage estimated at more than $100,000. A bundle of oil-soaked rags was found burning on the stairs leading to the Elks' clubrooms in the Griffiths Building. The fire spread rapidly.

Genuine
BAYER
Aspirin

SAY "BAYER" when you buy Aspirin

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for colds, headache, toothache, earache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

GERHART CHALLENGES OPINION ON USE OF MUNICIPAL BRIDGE

Quotes Transportation Act of 1920 on Compelling Railroads to Provide Through Routes for Freight.

Frank H. Gerhart, leading proponent of the theory that the city could compel use of the municipal bridge by making a physical connection between the bridge and the roads in the construction of a northeast approach, today in a prepared statement impeached the opinion of the City Counselor's office that there is no act of Congress which could be invoked to force railroads to use the bridge.

He asserts in the statement that he is in possession of an opinion of "one of the ablest and most experienced lawyers in the city," which is directly contradictory to that of the City Counselor's office, written by Associate City Counselor Dolan.

Gerhart quotes the transportation act of 1920 to support an assertion that railroads are compelled to provide through routes for freight tendered from any branch line of railroad or switch. He regards the municipal bridge as a branch line.

Dolan, in his opinion, declared that the question raised by Gerhart—that of compelling acceptance of a municipal bridge routing if made by shippers—had been directly decided in what he declared to be nearly an identical situation arising over the existence of a bridge at Keokuk, which one of the roads had declined to use.

The Board of Aldermen has postponed until Nov. 2, consideration of the Mayor's veto of its ordinance directing that condemnation proceedings leading toward the construction of a northeast approach to the bridge proceed at once. Associate Counselor Dolan's opinion was in response to a request from the Aldermen.

WIDOW, UNCONSCIOUS SINCE STREET CAR HIT HER, DIES

Mrs. Annie Heany Was on Way to Bank With $1162 When Run Down.

Mrs. Annie Heany, 65 years old, of 1481 Laurel street, a widow, died at City Hospital at 5:50 p. m. yesterday from a fracture of the skull and other injuries suffered Wednesday when hit by a northbound Taylor avenue street car at Newstead and San Francisco avenues.

Mrs. Heany, police reported, alighted from a southbound car and was crossing to the east side of the street behind the car when struck by the northbound car. She had in her possession at the time $1,162.98 and a will. A son, Martin, told the police his mother had recently realized on some investments and was on her way to a bank when the accident occurred.

Roy A. Price of 3624 Park avenue, motorman of the car, told the police Mrs. Heany walked into the front side of his car. He said the car was running at a moderate rate of speed. Mrs. Heany was the widow of Dennis Heany and mother of six children, five of whom survive. She was unconscious from the accident until her death. An inquest will be held today.

FLOGGING CASE EXPECTED TO REACH JURY IN GEORGIA TODAY

Dr. Yarbrough Asserts Klan Does Not Countenance Whippings or Other Lawlessness.

By the Associated Press.

MACON, Ga., Sept. 14.—With the State expected to introduce only a few rebuttal witnesses and the defense a number in surrebuttal, it was expected at the opening of City Court here today that the trial of Dr. C. A. Yarbrough, charged with rioting in connection with the flogging of R. L. Mills, would reach the jury late this afternoon.

The defense yesterday concluded its direct evidence with a prepared statement by the defndant in which he entered a general denial of all charges. He admitted that he was a member of the Ku Klux Klan, and asserted that the order did not countenance flogging or other lawlessness.

ESKIMOS SEEK MISSIONARIES TO REFORM VICIOUS WHITES

Anglican Bishop Admits Church Is Unable to Protect Natives From Bad Element.

By the Associated Press.

SASKATOON, Saskatchewan, Sept. 14.—Eskimos in the Canadian Northwest, some of them living far north of the Arctic circle, have asked the Anglican Church to send missionaries to offset the demoralizing influence of vicious whites, Bishop Stringer yesterday told the nineteenth triennial synod of the Anglican ecclesiastical province. He said the church was unable to protect the natives from the worst element in the white race, with which they are coming in contact because of the lack of workers.

BANKERS STRIKE MARK OFF LIST

Wall Street Begins to Give Up Trying to Compute its Value.

By the Associated Press.

NEW YORK, Sept. 14.—The German mark has sunk so low in value that American banks are giving up the task of trying to compute its value, and are beginning to strike it off their list of foreign exchange. The National City Bank was the first large Wall Street institution to abandon all efforts to adjust its figures on foreign bills to the rapidly shrinking paper mark, and other large banks are contemplating similar action.

DAUGHERTY RULES NAVY CAN'T HELP ENFORCE DRY LAW

Holds No Emergency Exists and So Authorization by Congress Would Be Necessary.

OPINION REGARDED AS APPLICABLE TO ARMY

No Statute Empowers Use of Naval Forces by President to Enforce Ordinary Civil Laws in Peace.

By the Associated Press.

WASHINGTON, Sept. 14.—Except in an emergency rendering civil processes of enforcement impotent, which was held not to exist, the navy cannot be used in enforcing prohibition without the express authorization of Congress, Attorney-General Daugherty rules in an opinion submitted to President Coolidge.

The Attorney-General's opinion, published today, thus answers in the negative both questions asked by the late President Harding last spring. These were whether the executive had power to use the navy in prohibition enforcement in the absence of an emergency, and, if not, whether an emergency existed authorizing its use.

No Change in Situation Likely.

The opinion held there was no authorizing emergency, because, although there have been numerous violations of the prohibition law, and "unfriendly public opinion" has made enforcement difficult in places, there have been no unlawful obstructions of the functions of the courts or the executive agencies in enforcing the law. All departments of the Government, the opinion added, "are functioning and making a steady advance against lawless elements."

While some special statutes exist authorizing the President to use the Navy for specific purposes, none of these, the opinion held, confers authority for the use of naval forces to enforce "ordinary civil and criminal statutes." Power to determine when and for what purpose the naval forces may be used is vested in Congress by the Constitution, it was held.

Although dealing specifically only with the navy, the opinion was regarded as applicable to the army as well. Because of its negative nature, no resulting change was expected in the enforcement situation.

No Power in Special Laws.

Congress has made no appropriations available for prohibition enforcement work by the navy, Daugherty ruled, adding that only in one instance—in suppression of slave traffic—had the military forces been called upon in time of profound peace to aid in making criminal statutes effective. Some laws exist, the opinion said, authorizing the President to use the navy under certain circumstances, such as execution of Court process when Federal officers have been obstructed, quarantine laws, neutrality proclamations and other measures.

"However, none of these special statutes," said the opinion, "confers the authority of the use of naval vessels to enforce ordinary civil and criminal statutes, such as the national prohibition act and the revenue laws."

Denby's Position Sustained.

"Constitutional provisions relating to the maintenance and duties of the navy were cited, together with appropriation and other laws from which, Daugherty said "it would therefore seem that Congress did not consider that the President possessed the power to use the naval forces in time of peace for the execution of civil or criminal laws without its expressed authorization."

The provision was regarded as applicable to the army as well as the navy, precluding also the use of military forces in assisting prohibition enforcement, although it dealth spesifically with the navy.

Secretary Denby and other officials who have been opposed to diversion of their forces to prohibition work were sustained by the Attorney-General.

Prohibition Commissioner Haynes declined to comment, but prohibition headquarters officials were quoted as taking the view that the ruling would not change the enforcement situation.

CUSTOMS SERVICE MAY BE USED TO HUNT RUM RUNNERS

By DAVID LAWRENCE,
A Special Washington Correspondent of the Post-Dispatch.
(Copyright, 1923.)

WASHINGTON, Sept. 14. — The Navy is elated today. It doesn't have to chase bootleggers. For months the professional pride of the American Navy has been touched by the posibility that it might be turned into a domestic police force. Sailor men said they were willing to

CLEVER COUNTERFEITING FOUND IN $100 BILL MAN DEPOSITS

Investigation of Buenos-Aires Foreign Exchange Bank Ordered After Foreigner Tells Story.

A few days ago Ivan Mavric, a native of Jugo-Slovakia, opened a savings account at the Jefferson Bank and deposited approximately $200, including what appeared to be a $100 Federal Reserve note of the 1914 series.

Fred Marchek, head teller, suspected something wrong when he observed that on the bill was a likeness of President Lincoln. He knew that the $5 bill of that issue bore Lincoln's picture. The genuine $100 bill of that issue bears a likeness of Benjamin Franklin. The bill Mavric had deposited was turned over to Stephen a Connell, head of the United States Secret Service Bureau, who pronounced it one of the cleverest pieces of counterfeiting he had seen in his years of experience.

The numeral "5" in each corner on both sides of the original bill had been erased with chemicals and the numeral "100" had been substituted with pen and ink in such perfect style as to escape detection by the naked eye.

Mavric said he came from Jugo-Slovakia by way of South America and that on July 28 he exchanged 1000 Argentine pesos for United States currency at an agency for a Jugo-Slovakia Bank at Buenos-Aires. He had been given two $100 bills for 600 pesos, he said, on the way to this country has exchanged one of the $100 bills on an ocean liner so that he would have the necessary $50 bill to show to immigration officers at the American port.

Secret Service agents feel that Mavric is an innocent party to the counterfeiting, and have directed the official representatives of Jugo-Slovakia to have their country investigate the bank at Buenos-Aires.

Dismissed Dry Agent Reinstated.

John M. Pryor Jr., one of five Federal prohibition agents in Missouri dismissed last month by Prohibition Commissioner Roy Haynes, was reinstated yesterday by Haynes. Before joining the prohibition forces Pryor was a member of the Republican State Committee. It is understood that his dismissal brought forth a general protest from his friends and political adherents. He resumed his duties with the local enforcement squad today.

DAUGHERTY RULES NAVY CAN'T HELP ENFORCE DRY LAW

Continued from Preceding Page.

fight all right, but couldn't see much glory in pursuing smugglers.

Attorney-General Daugherty's formal opinion that the Navy couldn't legally be used to enforce the prohibition act without special legislation by Congress, temporarily, at least, has given naval men relief from what might have been to them an obnoxious burden. The "drys" in Congress are numerous enough to pass a law permitting the Navy to be used, but the Navy Department probably would be found too busy in national defense maneuvers, and the hundred and other things the Navy has to do to keep in commission, to have the ships ordered on police duty. For, candidly, the sentiment of the Navy itself is against chasing the rum fleet.

Questions of Customs Fleet.

There are also those who think the use of the Navy inside the three-mile limit with its shallow waters would be dangerous and that relatively few vessels could be assigned to that duty.

Basically, the whole question is not the use of the Navy at all but efficient operation of the customs service. The fact that the use of the Navy has been discussed is a direct consequence of the inability or unwillingness of the customs service to pursue the small craft engaged in liquor traffic. There are plenty of revenue cutters maintained by congressional appropriation for the special purpose of preventing smuggling on the seacoast of the United States. It is true the coast line is long, but within the last two years the rum fleet has been concentrated in only a few places along the Atlantic Coast, in plain view of everybody.

The government has known that only by small craft putting out from American shores could the liquor be obtained, and also has known that any American engaged in the business of getting liquor ashore from the rum fleet could be arrested and prosecuted under conspiracy statutes, which carry adequate penalties. A good detective force on land would make the use of the Navy or the revenue cutters virtually unnecessary.

Harding Aware of Weakness.

The customs service is under the Treasury Department which also includes the prohibition unit itself. The first cry for the employment of the ships of the navy occasioned much curiosity as to why another department had to be asked to enforce the prohibition act. The late President Harding was well aware of the weakness in the customs service with respect to liquor smuggling, and realized that it was necessary to build up among the customs employes, especially men who had been in the service for years, a sentiment in favor of prohibition itself.

The decision by the Department of Justice that the navy cannot be used, unless Congress passes a special law, will turn attention once more to the customs service, with the probability that appropriations will be asked for additional revenue cutters or for the conversion and manning of some of the submarine chasers which have been tied up since the armistice. As far as the personnel of the navy is concerned, there is, however, today joy that the navy will not have to do domestic police duty.

She watches the little ones day by day. She knows how important it is that every care and precaution be exercised in their food. How careful she is to see that the milk, the fresh fruits, the custards and all the baby's food is always kept in the refrigerator.

POLAR WAVE ICE

PLANE UPSET BY TROLLEY WIRE, RAVIATOR BURNED BENEATH IT

Dropped From Flaming Wrecks by Negro, Flyer Is Believed to Be Fatally Hurt.

By the Associated Press.

HOUSTON, Tex., Sept. 14.—C. L. Kennard, a Houston aviator, flying a newly equipped airplane, fell and probably was fatally burned before several hundred persons at the end of Main Street boulevard last night. The accident ended a spectacular exhibition of twilight low flying over Rive Aviation Field and Main Street boulevard.

Soon he was flying over Main Street, and the stream of cars going out and coming in the boulevard was almost completely stopped as they drew up to the curb to watch his aerial antics. Again and again the flier looped when not more than 300 feet from the ground and swooped along not more than 50 feet above the earth. He had just completed one of these daring dives and had headed up into the air and swung over on one wing and headed back northward when the bottom of his plane caught a street car trolley and electric wires and fell in a heap in the ditch at the roadside.

Tre flooding gasoline caught fire and the plane was a mass of flames.

Kennard was heard groaning under the plane, but the fire was so hot that no one could get within 40 or 50 feet of it for several minutes. Finally, two men, throwing their coats over their heads dashed under the burning wing and tried to drag Kennard out. Three or four times they were driven back. Finally, one of them, a negro, succeeded in getting hold of Kennard's arm and others, grabbing the rescuer's arm pulled Kennard out.

RESIDENTS URGE REPEAL OF INCINERATOR ORDINACE

Resolutions Adopted at Mass Meeting Calls for Move to Block Project on De Tonty Street.

Residents of the southwestern section of the city, who are opposing a city plan to erect a garbage incinerator on De Tonty street, near King's highway, met last night at Bryan Mullanphy School, 4221 Shaw avenue, and adopted a resolution urging Alderman Uhlemeyer of the Fifteenth Ward to introduce a bill in the Board of Aldermen to repeal the ordinance authorizing construction of the plant at that site.

Due to the fight on the project the Board of Public Service has deferred action on bids received for erection of the plant. The board meanwhile is investigating the proposal of a Kansas City engineer to build a garbage disposal plant at Chouteau avenue and the river, which, in connection with the city incinerator already there, would dispose of all garbage collected in the city.

Indorsement of the fight on the De Tonty street and King's highway project by the Southwest Property Owners' Protective Association was received at the meeting last night from the Tower Grove Heights Improvement Association and from the South St. Louis Business Men's League. A letter from the Board of Education was read, stating the board had filed a protest with the city against selection of the De Tonty street site. About 125 persons were present.

CAPTURED HERE, MAN SAYS HE ESCAPED FROM PENITENTIARY

Ran When Detectives Sought to Question Him—Companion Won Clear

A man describing himself as Robert Fielding, 38 years old, who says he escaped from the State penitentiary at Jefferson City a month ago, was arrested last night after a chase which begain when detectives sought to question him and a companion.

Detective Sergeants Kistler and Price saw the two walking near Fifteenth street and Cass avenue about 6:30 p. m. Both ran. The man chased by Price escaped. The other was captured at Fifteenth and O'Fallon street after several shots had been fired.

An automatic pistol of Belgian make fell from his belt as he was captured. Twenty-nine cartridges for another make of pistol, a flash light and six skeleton keys were found in his pocket.

He sair he was sentenced to the penitentiary from Kansas City for seven years for robbery and had served three weeks when he escaped. He denied having violated any law since coming to St. Louis.

TAX OFFICE TO BE OPEN SUNDAY

Tomorrow Last Day to Pay Federal Income Taxes.

The offices of the Collector of Internal Revenue in the Federal Building will remain open Sunday to receive payments of the third quarterly installment of income taxes and the Federal Reserve Bank will remain open to receive deposits. Those who deposit their payment in the mails before midnight tomorrow will escape penalty for late settlement.

Collector Hellmich reports that payments of income tax have been much more prompt this year than last and there seems to be no last-minute rush, most taxpayers sending in their checks by mail.

CASTLE NOW HOUSES REFUGEES FROM RUHR

Princess Hermine Turns Over Szabor Estate to the German Government.

By the Associated Press.

BERLIN, Sept. 14.—All romance has been crowded out of the famous castle of Szabor, in Upper Silesia, which is the property of Princess Hermine, wife of former Emperor William of Germany. Szabor is the most recent of German historic institutions to be brought into use for practical purposes. The stately rooms which years ago were the scenes of many social functions of royalty, and, in fact, the entire building, now are housing the strangest guests within the recollection of the oldest of the caretakers.

Instead of being the domicile of Princes and Princesses the castle has been made into homes for several scores of families of workmen expelled from the Ruhr and the Rhineland. They may have felt somewhat out of place at first, but they quickly adapted themselves to their new surroundings.

When the word was passed around that the German Government was hard pressed for housing facilities properly to take care of the hundreds of thousands of men, women and children who were being sent from the occupied area as an outcome of passive resistance to the French and Belgians, Princess Hermine volunteered to turn over her old home to the Government. In fact, the Princess made a special journey from Doorn, Holland, where she and the former Kaiser are living, to Szabor to put the castle in order for the new guests, who are to make it their home as long as is necessary.

The castle was by no means stripped. Much of the ancient furniture remains, and all the copper cooking utensils in the immense kitchen were left for the use of the refugees. The kitchen is used as a central cooking place for all the families. Part of the garden and the grounds near the castle also have been given over for use by the refugees and for a children's playground.

Hermine continues to supervise the operations of the estate which is devoted chiefly to agriculture. For this purpose she makes frequent trips to Szabor, usually taking with her several of her five children. For herself, Hermine has reserved one great room. This room she and her children occupy when they are at Szabor. They usually remain there a week or so on each visit.

MOTHER OF 3 SHOOTS WIDOW STANDING WITH 2 DAUGHTERS

Fires in Presence of Sheriff, at Fair in Oklahoma, Then Surrenders to Him.

By the Associated Press.

CHILDRESS, Tex., Sept. 14.—Mrs. Albert Whitesides, wife of a Hollis, Ok., ranchman, surrendered to Sheriff Crane last night, following the shooting of Mrs. S. A. Maxwell. Physicians said Mrs. Maxwell's recovery was doubtful.

Both women are about 35 years old. Mrs. Maxwell, widow, and mother of two girls, 15 and 17 years old, was shot four times. She was standing with her daughters at the entrance to the Childress fair grounds here and a crowd of about 500 persons witnessed the shooting near the grand stand.

Sheriff Crane was standing about 10 feet from the scene and Mrs. Whitesides faced about and walked to him and surrendered. She has a daughter 2 years old and a son 7 years old.

Released on a bond of $5000, which some of the most prominent ranchmen in this region made, Mrs. Whitesides and her father-in-law, F. S. Whitesides, returned to their homes in Hollis, 35 miles northeast of Childress.

No motive for the shooting has been discovered, according to Sheriff Crane.

14 FRAUD INDICTMENTS AGAINST OFFICIALS OF R. L. DOLLINGS CO.

President and Secretary of Ohio Concern Charged With Obtaining Money Under False Pretenses.

By the Associated Press.

COLUMBUS, O., Sept. 14.—Fourteen indictments charging William G. Benham, president, and Dwight Harrison, secretary and treasurer, of the R. L. Dollings Co. of Ohio, with obtaining money under false pretense and with aiding and abetting in obtaining money under false pretenses, were returned by the Preble County grand jury yesterday at Eaton, O., according to announcement today by Attorney-General C. C. Crabbe.

Harrison was arrested at his home here last night by Sheriff C. R. Nehrley of Preble County and today was being held in the Preble County jail at Eaton. Benham has not yet been arrested. He is said to be out of the State.

Clerks Negotiate for More Pay.

The petition of the clerks employed by the Missouri Pacific Railroad for a wage increase has been withdrawn from the United States Railroad Labor Board, under an agreement to negotiate directly with officials of the road. Discussions are now under way between representatives of the road and of the 6000 clerks. The clerks, whose wages were lowered 3 to 4 cents an hour last year under a Labor Board decision, are asking for increases of from a few cents to 9 cents an hour, it is said. Officers of the union estimate the average wages at about a month.

Welch & Co. MUST Make Room to Begin ALTERATIONS & REPAIRS
Days of Feverish Activity & Drastic Price Cuts!

THE walls and ceilings of our eastern building (1105 Olive St.) became water-soaked and damaged during the unfortunate fire suffered by our neighbors recently.

Within a few days—as soon as our stock is sufficiently cleared away—plasterers, carpenters, masons and painters must begin their work at once. Ceilings, walls and floors of this entire building require alterations and repairs.

Every item in this building will be sacrificed as much as necessary to clear them out and make room for the workmen. The public gets the savings—averaging at least 35 cents on the dollar. Usual credit terms prevail.

Come early and share in these remarkable savings. All are floor samples.

PROPOSAL TO AID BLIND MEN

Permission to Establish Cigar Stands in City Buildings Sought.

An inquiry was made of the City Counselor today to determine whether the city would permit three blind men to establish cigar stands in the City Hall, the Municipal Court Building and the Broadway courthouse.

Joseph Untergerger, placement officer for the Missouri Commission for the Blind, said that permission would establish the men as self-supporting. City Counselor Haid was doubtful whether permission could be granted without the formality of taking bids upon the privilege. He agreed to take the matter up with the Mayor upon the Mayor's return to the ctiy next Monday.

DROVE THROUGH BURNING OIL

Special Cable to the Post-Dispatch and the Chicago Daily News.

SHANGHAI, Sept. 14.—A new tale of American heroism was told here today by officers of the French liner Lebon. A Yokohama American named Lafaffin, in an open motor boat, took a hawser from the liner and drove through the burning oil to a permanent buoy, where he made the hawser fast, enabling the Lebon to pull herself out of the inferno which surrounded her.

U. S. ENGINEERS INSPECT RIVER IMPROVEMENTS

Retards Built by County, Dikes by City and Revetments Near Mouth of Missouri Visited.

Major-General Lansing H. Beach, chief of the Engineers' Corps, U. S. A., yesterday inspected Missouri River retards of the St. Louis County River Improvement District, below Centaur, and dikes of the city to change the channel for its new waterworks near Hine, for which Federal aid of 25 per cent is to be asked, and Government revetments near the mouth of the river.

He was accompanied by Congressman Newton, head of the bi-partisan bloc; May. C. C. Gee of Kansas City, in charge of Government improvements of the Missouri, for which this year's appropriation is $1,500,000; Maj. L. E. Oliver of the St. Louis district, other army officers, Water Commissioner Wall and a party of engineers.

Major-General Beach and Major Gee plan to work out details for including the county and city projects in the Government policy to cover a fourth of the cost of such work where it fits in with the comprehensive scheme of the War Department for a navigable channel.

County Project Completed.

Government inspection is required. The county job, protecting nearly 12,000 acres of rich bottom land from inroads by the river, has been completed, at a cost of $170,000. Government inspection was available only in part of its construction, but it is believed that the county inspection may be indorsed by the War Department.

This probability will be supported if, as is considered, the War Department arranges to accept city inspection of its work. This job has been estimated at somewhat more than $400,000, but engineers have figured that it may be more expensive than estimated. The city appropriation is $450,000, and Federal aid, if granted, will be sufficient to cover additional requirements.

Got Taste of Missouri Roads.

Major-General Beach's attention was somewhat pointedly directed to road conditions when the machine in which he was riding had two "blowouts" within some 20 minutes toward the western end of Olive Street road, beyond the recent improvements. That machine finally was unable to proceed, but its occupants crowded into the other two automobiles.

At Centaur members of the party boarded the steamer Alert of the Kansas City Bridge Co., and were guests of George Maitland of that company and Capt. John Campbell for lunch and for a trip past the county and city improvements.

Retards Made of Trees.

The county association of farmers has placed 23 current retards which protect the bank wherever it was crumbling, along a stretch of about 15 miles. The retards consist of masses of trees and brushwood, extending some distance into the current, anchored to piles driven into the bottom of the river.

Major-General Beach pointed out several advantages of that type of bank protection. The retards are strong enough to be placed on the outside bank of a bend against the full onslaught of the current. Their action is double: it not only protects the bank from the wash, but creates a sort of back-water in which silt is deposited to build up the bank. Time after time the party observed a fore-bank of silt built up behind a retard where a few months ago the banks were being rapidly eaten away. The retards in time become covered with the river's deposit, and so are virtually permanent.

Their reaction on the channel, which is the Government's point of interest, also was seen in many cases where sandbars which had formed where banks were being scooped away were now being cut out by the current.

System of Dykes Being Built.

The city proposes to place the intake for the waterworks at the St. Louis County bank, and for that purpose is building a system of dykes at the opposite side to deflect the current so as always to have plenty of water where it is needed. One of them was seen under construction, as a great mattress, woven of willows, putting out into the stream. It was the third downstream, and engineers of the bridge company, which is handling the job, thought it possible that the two shorter ones above could be dispensed with at some saving. Government engineers, however, were of the opinion that the long dyke could not unprotected withstand the full brunt of the current.

The Government work is intended to clear the channel of the Missouri at the Mississippi, where the former under some conditions empties at an upstream angle, creating an eddy which, through the resultant heavy deposit of silt, keeps the mouth impassable.

If the main channel is on the south side of Cora Island, about five miles upstream, it makes another bend to the south and empties downstream into the Mississippi, but when it follows the north side of the island, the second bend also is reversed and the eddy and its deposit follows. With the current reaching the Mississippi without confliction with the current of that river, it has a tendency to clean its own channel.

Dikes to Divert Current.

The remedy being applied consists of dikes just below Bellefontaine Bridge to divert the current to the south of the island, and revetment of the opposite bank, adjacent to where the canal will lie, for about two miles.

The estimate was $255,000, but Maj. Gee expects to keep $30,000 below it. Willows for the matresses, used both in the dikes and the revetment, are procured unusually cheaply on one bank, and the Gov-

(Continued on Next Page.)

Would Abolish Canadian Senate.

VANCOUVER, B. C., Sept. 14.—Abolition of the Senate of the Canadian Parliament was demanded by the Dominion Trades and Labor Congress in a resolution passed here in its thirty-ninth annual convention.

Defiant Italy's Challenge To Fifty-two Nations

Italy's drastic demands upon Greece after the murder of the Italian members of the Greco-Albanian boundary line, her bombardment and seizure of the unfortified Greek Island of Corfu, and her denial of the right of The League of Nations to intervene in the resultant crisis, American editors agree, have given the League its "first real test"—a test, "on which it may stand or fall." The New York *Evening Post* insists that "the challenge so roughly flung down by the Fascist dictator must be picked up by the representatives of the fifty-two nations now assembled at Geneva," and argues that "fear that the League may fail to vindicate its authority against the defiant Italian government ought not to enter into consideration." Read this article in THE LITERARY DIGEST this week. It not only presents the gist of public opinion in America, but also in Italy and Greece.

Causes and Effects of Greatest Disaster in History
A survey of Japan's destruction and a forecast of the nation's future.

Bolshevik Craving for American Recognition
The great consideration being shown to distinguished American visitors in Russia, some observers believe, is a carefully staged performance to impress the American people.

Motor Poison in City Streets
How the poisonous gases in motor exhausts may be rendered less harmful to the people.

Mexican Recognition A Spur to Business
How a large volume of trade is expected to flow in both directions across the border.

Where Our Navy Is "Ridiculous"
Chinese pirates very properly consider our fleet in this light because Americans in China must rely for protection of their lives and property upon part of the old fleet captured from the Spanish in 1898.

The Liberal Side of the Religious Controversy
Proposals made by Liberal Protestants, to offset the tactics of the Fundamentalists.

Other Interesting News in this Week's Digest:

In the Theaters—"FUN from the PRESS"

is a mark of distinction. For nearly two generations The Literary Digest has been a symbol of refinement and taste in the literary appreciation of the American public. And a confidence so rigorously gained will never be lessened. There is a covenant in the name. So, discriminating patrons of the cinema art who desire robust spontaneous humor, free from all taint, may ever enjoy "FUN from the PRESS." It is an ace of amusement, the cream-collection of the farce and fun from the press of the world—a mirror of the happier hours of life. In leading theaters everywhere. Watch for it weekly. It bears the seal of The Literary Digest. FUN from the PRESS produced by The Literary Digest. Distributed by W. W. Hodkinson Corporation.

It is a mark of distinction to be a reader of

Is Excess Fat Making Your Summer Miserable?

—Reduce Easily and Safely with Melto!

EXCESS fat, even if it's only in one or two parts of the body, generates an enormous amount of body heat. Large hips, a heavy bust, stout legs, fat arms—one or more of these is probably causing you to suffer from the heat.

But don't try to reduce by going through torturing exercises! They'll never make you feel any cooler. Don't put yourself on a starvation diet. What is the sense in trying to reduce all over when only one or two places are really fat?

Melto Reduces You Only Where You *Want* to Reduce!

Melto will reduce your arms
Melto will reduce your chin & cheeks
Melto will reduce your bust
Melto will reduce your diaphragm
Melto will reduce your hips
Melto will reduce your waist
Melto will reduce your thighs
Melto will reduce your ankles
Melto will reduce your calves
© 1923 Melto Laboratories

Melto is a delicately fragrant, rose-colored cream with remarkable reducing properties. Scientists invented it. Chemists have analyzed it and pronounced it harmless. Rub it into the skin where you want to reduce, for five short minutes every night. It will get into the pores and *under* your skin and literally *melt* away your excess fat, leaving your skin smooth and firm!

In a short while the mirror will show that you're getting slender and the tape measure and scales will prove it.

Thousands of men and women who never enjoyed a comfortable summer before, are cool, slender and happy now, and are writing us letters that simply overflow with praise for Melto.

Melto Is the Sure Way!

No matter how many methods you have already tried without results, Melto will absolutely do for *you* what it is doing for everybody who is using it—*melt* away your excess fat, give you a slender and graceful figure, and make the warm summer weather not only tolerable but enjoyable!

All good drug stores and toilet goods counters have Melto in stock and are selling it *fast!* It comes in an 8-ounce jar at $3. Get it today—and start reducing the Melto way tonight.

It's Absolutely Harmless!

FREE—A valuable booklet on reducing will be mailed to you, free, on request.

JUDGE DYER TALKS TO ALIENS ON DUTIES OF CITIZENSHIP

Tells 100 Applicants They Must Not Permit Themselves to Be Led by Selfish Politicians.

About 100 persons were before Judge Dyer, in the United States District Court today, as applicants for naturalization. Out of 100 such applicants yesterday, the court admitted 60 to citizenship. Most of the refusals were for ignorance, or because the applicant was shown to have claimed exemption from the draft as an alien, after having declared an intention to become a citizen.

Judge Dyer talked to today's group of applicants about the requirements for citizenship, and said that anarchists, who are not admissible, are "persons believing in mob rule and men who interfere to prevent others from earning a livelihood. All men have the constitutional right to work when they see fit and quit when they choose," the Judge said. He advised the new citizens against being led by selfish politicians, and told them to study political questions for themselves.

In impressing on his hearers the duty of obeying law, Judge Dyer said there were some laws of which they might not approve, but that a constitutional means was provided for amending or repealing laws not approved by the people.

CEMETERY LEGISLATION SOUGHT

Petitions to Gov. Hyde Circulated in St. Louis County.

Taxpayers of St. Louis County are circulating petitions asking Gov. Hyde, if he convenes the Legislature in special session this fall, to make special references in the call to the necessity for legislation governing cemeteries. The petitions appeared last night at a meeting and entertainment at a moving picture theater at Page and Ferguson avenues. The Midland neighborhood is included in the Normandy Consolidated High School district, whose taxpayers are trying to prevent the old Maxwelton race track from being transformed into a cemetery.

The school district recently floated a bond issue of $250,000. With part of the money the Board of Education purchased Eden Seminary on the St. Charles Rock road. Senior and junior high schools were opened in the building Sept. 4. The Board of Education instituted suit last week at Clayton for a restraining order against the Laurel Hill Cemetery Association to prevent it from establishing a cemetery on the old track property.

FOUND IN HOSPITAL POISONED

Young Woman Tells of Learning Suitor Was Married.

Leonard Anguish, an attendant at City Hospital attracted by groans outside the main entrance to the institution at 4 a. m. today, found Miss Jeanette Shockly, 20 years old, of 1620 Dolman street, lying in a semiconscious condition near the door.

The young woman was taken into the hospital and treated for poisoning. A farewell note addressed to a man, in which she said she "could stand the strain no longer," was found in her clothing. When questioned later by the police Miss Shockly said she only recently had learned that the man, who had been attentive to her, was married and had two children. She did not remember how she got to the hospital, she said. Her condition is serious.

20 YEARS FOR VILLA SLAYER

Confessed Leader of Assassins Member of House From Durango.

By the Associated Press.

MEXICO CITY, Sept. 14.—Jesus Salas, confessed leader of the band which ambushed and killed Francisco Villa and four of his companions in the outskirts of Parral last July, has been sentenced to 20 years' imprisonment. He refused to reveal the names of his accomplices and was taken immediately to the Chihuahua State Penitentiary.

Salas was a member of the House of Representatives from Durango.

U. S. ENGINEERS INSPECT RIVER IMPROVEMENTS

(Continued From Preceding Page)

ernment has opened a quarry, at nominal expenditure, in the bluffs at the upper end of the revetment and has a narrow-gauge track running along the bank, so that cars dump directly down on the revetment.

With these jobs completed, there will be a navigable five-foot channel to Jefferson City. The present object of the War Department is a channel to Kansas City. That will be accomplished soon, declared Clark E. Jacoby, engineer for the farmers' district, if the Department will take up the prewar plan of $2,000,000 a year for the Missouri and continue its policy to aid olcal projects. Great impetus to river improvement will be given if the Government awards aid to the two local projects inspected.

"Every section where the bank is in danger will form its district as was done in St. Louis County," Jacoby said, "if it is shown that the Government will advance one dollar to every three put up by the farmers."

Whisky in Auto; Driver Is Arrested.

Paul Noto, 30 years old, of 5040 Shaw avenue, a shoeworker, was arrested last night on the Gravois road, near the town of Sappington, St. Louis County, when Deputy Sheriff Toman found two five-gallon containers of "moonshine" whisky in the back seat of Noto's automobile. He later was released on $1000 bond to appear in the Circuit Court at Clayton next Monday on a charge of possession and transportation of liquor.

City News in Brief

A THREE-DAY OPEN-AIR CARNIVAL given by Rosati Council, Knights of Columbus, will open tonight at 7100 Virginia avenue. Radio returns of the Dempsey-Firpo fight, as broadcast by Station KSD will be received.

WILLIAM SCHMIDT, 40 YEARS OLD, of 1621 South Third street, was taken to the city hospital from his home at 6 p. m. yesterday, said by doctors to be suffering from alcoholism and poison. Schmidt denied having swallowed any poison. His condition is serious.

JOHN KOTIS, PROPRIETOR OF A SAloon at 2728 Franklin avenue, and his bartender were arrested yesterday after policemen, with a search warrant, reported finding at the place 15 half-pints of colored liquor said to be whisky, nine half pints of "moonshine" whisky and three five-gallon jugs partly filled with whisky.

AN ICE PICK AND SCREWDRIVER were used by burglars to pick a lock on a rear door of the home of Mrs. Nellie Schulze, 5330 Delmar boulevard, in the absence of the family yesterday. Clothing, furs and jewelry valued at $450 were stolen.

THE REV. LINN McGEE OF 6116 Minnesota avenue, a negro minister, was held up at 9 a. m. today at Gravois and Giles avenues by an unidentified negro, who escaped with $35 which the minister was taking to a bank.

New Auto Tourist Camp Planned.

The South St. Louis Business Men's League last night voted in favor of an automobile tourist camp, similar to the one now in use in Forest Park, to be established on Lemay Ferry road in Carondelet. They also voted to ask the city to spend $25,000 under the direction of the Automobile Club in erecting danger signs along the outlying roads. The league also voted to request the Board of Aldermen to pass the bill to condemn property for the northeast approach to the Free Bridge over the Mayor's veto.

Firpo Victory Tonight Would Be the Greatest Surprise in History of Boxing, Wray Writes

Sporting Editor Expects Dempsey to Send His Right to the Body and His Left to the Jaw in First Round—"That Firpo Can Stand as Much as 3 Rounds of It Is All but Incredible."

By John E. Wray,
Sports Editor of the Post-Dispatch.

NEW YORK, Sept. 14.—What will be the thoughts of this somber, swarthy giant from Argentina, Luis Angel Firpo, tonight, when he climbs between the ropes into the ring that, if the concensus expert view is believed, will be a shambles for him? He who can answer this question holds the clew to any surprise that may result in the outcome of the bout.

If Luis has read or had translated to him one tithe of the reams written about him, he will be indeed a man of iron purpose, one to be feared of all men, if he can hear the gong sound with no more than the usual flutter of anticipation with which he is accustomed to regard his ring contests.

For not one critic in the country has selected him unconditionally to win. On the contrary, his boxing has been derided, his training scoffed at, his condition and wind questioned, his fighting strength compared to a stevedore's and his past achievement viewed with suspicion. He has been dissected from every angle and in one respect only is he given credit for superiority, and that is purely physical. The records make it impossible for his detractors to overlook his advantage in weight, height and reach.

Could Anyone Be Calm?

Carrying into the ring the weight of all this criticism, in a foreign land with a hostile army of 85,000 persons howling for his defeat, supported only by his little band of three faithful followers and a sprinkling of countrymen, with a million dollar title hanging on his right arm's efforts, it is impossibe that he can start the fight unshaken by doubts.

And yet, to have a chance, Firpo's mind must be unperturbed. However, men have stood up under greater discouragements than Firpo will face, and have come through.

If the forlorn Luis can flout his critics and flatten the world's champion, he will have administered Old Man Dope the greatest knockout in the history of pugilism. Not even when Gibbons lasted 15 rounds with Dempsey was the surprise as great as would follow the champion's overthrow by Firpo. Yet history of the ring shows that nothing is impossible to the man whose courage and strength hold good.

Critics believe Firpo is over-rated and "built up." Perhaps he is. But what about Dempsey, whose reputation was built of the same rotten timbers which buttress the challenger's reputation?

Similarly "Built Up."

Like the champion, Firpo owes his place in the ring tonight to knockouts of Willard, Brennan and a number of men of lesser or insignificant merit. Dempsey has bowled over a few more of them than Firpo. Unless Firpo's achievements were the result of "arranged" fights, as gossip says, his record gives him a look-in with Dempsey. When Dempsey climbed up, we recall that it was said his fights, too, were framed.

One could even show that Dempsey's man-killing record has blowholes in it. Bill Brennan gave him a terrific battle. Tom Gibbons held him for 15 rounds, though lighter and much older. Willie Meehan, fat and punchless, beat him twice. Georges Carpentier, little more than middleweight and a mere shell of his former self, knocked the champion back on his heels, easily landing a number of hard rights.

One might conjure up doubts about Dempsey, if he went at it systematically. For, truth to tell, Firpo is the best physical man Dempsey has ever faced—having youth, great strength and punch—on paper, at least.

Physical Comparison Of Dempsey and Firpo

By the Associated Press.

NEW YORK, Sept. 14.—The comparative measurements of Luis Angel Firpo and Jack Dempsey follow:

Dempsey.		Firpo.
28 years	Age	27 years
6 ft. 1½ in.	Height	6 ft. 2½ in.
189 pounds	Weight	214 pounds
73 inches	Reach	79 inches
17 inches	Neck	17 inches
15 inches	Biceps	13¼ inches
41 inches	Chest (normal)	44 inches
44½ inches	Chest (expanded)	48½ in.
32½ inches	Waist	36¼ inches
8¼ inches	Wrist	8¼ inches
22 inches	Thigh	23¾ inches
15 inches	Calf	15 inches
9 inches	Ankle	9¼ inches

Dempsey Never Has Been Extended Or in Dire Danger, Wray Points Out

But it is not wise to take the belittling of Dempsey too seriously. For although he has defeated no men of his own power, it is likewise true that nobody has ever extended him or had him in dire danger, when he was in condition. Tom Gibbons ran away and clung to the champion and should have been disqualified after the twelfth. Willard should have been counted out in the first round, as indeed he was; but the referee reversed himself. Fred Fulton barely had time to smell powder before he was snuffed out. The foxy Billy Miske was a mere toy in the champion's hands; and the testimony of all Dempsey's sparring partners as to the severity of Dempsey's blows makes it certain that he can hit hard.

Digesting all the facts about both and giving due weight to all that is possible in favor of the Argentine, one may compare the important features of the challenger and the champion about as follows:

AGE—Firpo has edge, 27 as against 28.

WEIGHT—Firpo at least 20 pounds heavier.

REACH and Height—Firpo has a considerable margin.

SPEED—Dempsey very much faster.

PUNCH—Records of both indicate knockout wallops. Dempsey's delivered very much faster.

SCIENCE — Dempsey skilled workman; Firpo crude.

ACCURACY—Firpo has none; Dempsey deadly against a slow man like his opponent.

BEST BLOW—Dempsey knocks them over with either hand from any position; Firpo has a wide open right hook to the body and a right loop to the jaw.

BEST HAND—Firpo's left is almost useless; makes no difference to the champion which he hits with.

COURAGE—Dempsey's unquestioned. Firpo's doubted in some quarters, but he has won two or three fights after getting the worst of it at the start.

CONDITION—Both appear in satisfactory shape.

EXPERIENCE — Dempsey, eight years against the world's best; Firpo has had only seven or eight fights against known boxers.

RECORD—Both knocked out Willard and Brennan. Homer Smith, who lasted but a moment with Dempsey, stayed 10 rounds with Firpo. Joe Downey, a fifth rater, also stood up the limit with Firpo. Dempsey has flattened the very best men available with the exception of Tom Gibbons, whom he defeated.

Thus, in the essence, we have a big, brawny, crude, slow, ONE-handed slugger pitted against a smaller but alert, powerful, resourceful TWO-handed knockout hitter who can think and act rings around his opponent and outhit him two for one with either hand.

It is the sword-fish against the whale, once more. In addition to sheer fighting superiority, Dempsey is inured to the crowds and their hostility. Although champion of the world he has not been popular and in the last two engagements heard his opponents applauded while he himself was received almost in silence. He proved then that his poise cannot be shaken—something that is still a matter of doubt in Firpo's case.

There is still another matter that has not been settled in the minds of observers: Can Firpo "take it?" Can he mentally and physically take a beating and come back for more, with real fighting spirit?

Can Firpo Take Punishment?

Firpo has never been hurt in his fights in this country. He has, however, come from behind to win in several bouts—a favorable sign. For the first time he will meet a man capable of really hurting him and his actions under fire are therefore mere conjecture. There is a decided opinion here that he tried to "dog" it in the fight with Brennan so that his morale is in question.

There is no doubt as to the champion. He was jolted in his Brennan fight but won by a knockout. Georges Carpentier sent him staggering back on his heels in the second round at Jersey City. But Dempsey then promptly settled down to business and Carpentier's passing was recorded a very few minutes later. Dempsey's brother, Barney, had this to say of Dempsey's fighting qualities:

"You've never seen him FIGHT, yet. Nobody has had him on the floor. But in the days when he was beginning he bumped the canvas and you ought to see the tiger he was then! If this big fellow clouts and hurts Jack, you're going to see the biggest thing in ring storms ever put on."

Now this may be more of the bunky-doodle-do. But it is probable, and in keeping with Dempsey's nature.

Everything about this bout seems to favor Dempsey and it is impossible to believe that he will not cut down this South American aspirant in quick time, despite all "ifs," "perhaps" and "buts."

Firpo's Test Will Come Early.

This much is certain: That within the first two minutes of the fight Firpo is going to be hit hard in vital places. I fully expect to see Dempsey's right go home to the body and the left to the jaw just as it did against Willard.

Perhaps the result will not be as fatal, for this Firpo is a much better man than Willard, in physique and years; but that he can stand as much as three rounds of it, is all but incredible. I expect to see Dempsey pursue his usual tactics with Firpo. That is to say, circle around, feinting, provoking a lead in order to create an opening through which the killing shot may slip.

But here is where the game may be "gummed up." For Firpo does not respond to feints and backs off, forcing the other fellow to lead. That would compel Dempsey to do the leading which is not his way with big opponents as a rule.

Jack May Have to Carry the Fight.

If Firpo does not come out of the shell, Dempsey then may start rushing, confusing Firpo with the rapidity of his motions. With Luis' scant boxing equipment how he is to keep Jack away is not to be guessed.

Dempsey must win this fight early, if it is to end in a knockout, seemingly. The effort he puts into the early rounds will probably deprive him of a knockout punch and he will be forced to box for a point decision, unless his man is weak, if it passes six rounds. That much his camp admitted at Saratoga.

Firpo's only chance is to have a rubber frame, unparalleled gameness and strength enough to weather the storm and win on sheer endurance. On that, or a wild swing, rests his chance to gain the title.

It seems a feeble foundation on which to build championship hopes.

KSD to Broadcast Fight Round by Round

KSD, radio broadcasting station of the Post-Dispatch, will take the air at 7:15 tonight with preliminary information about the fistic battle to take place in New York at the Polo Grounds.

The Dempsey-Firpo contest is expected to start at 7:30 o'clock Central standard time. When it begins, the details will be broadcast as fast as received by wire from the ringside. There will be no music program at KSD tonight.

ARCHDEACON IS SOLD TO CHICAGO WHITE SOX

By the Associated Press.

ROCHESTER, N. Y., Sept. 14.—The sale of Maurice Archdeacon, St. Louis boy and outfielder of the Rochester (International League) club, to the Chicago White Sox was announced here last night. The purchase price was not stated, but expected to be in the neighborhood of $50,000.

Brooklyn at Pittsburg (two games).
New York at Chicago.
Boston at Cincinnati.

AMERICAN LEAGUE.

Browns at Philadelphia (two games).
Detroit at Washington.
Chicago at New York.
Cleveland at Boston.

Johnston Meets Hunter Today in U. S. Net Tourney

Tilden Picks Little Bill to Win —Titleholder Opposes Norton.

By William T. Tilden II.

PHILADELPHIA, Sept. 14.—William M. Johnston, the little Californian, plays Francis Hunter in one of the semifinal matches of the national singles tennis championship tournament on the Germantown Cricket Club courts today. This will continue the final round argument at the Wimbledon world's title tournament earlier in the year. I look to see Johnston win, but believe that Hunter will make a far better showing than he did abroad.

B. I. C. Norton, the South African, plays me in the other semifinal, with little to choose between us.

The surprise in the tournament yesterday was the defeat of R. Norris Williams II, captain of the United States Davis cup team, by Norton, after a five-set struggle, 1—6, 6—3, 6—4, 3—6, 6—4.

Francis T. Hunter continued his march to victory by eliminating Robert Kinsey of California in three sets, 6—2, 6—4, 8—6. It was a battle of speed against steadiness; drive and volley against chop and the former won as it always will when it is going well. Hunter rushed the net at every chance. He followed his service and volleyed brilliantly. Kinsey tried to lob him away from the barrier, but could not keep his returns deep enough. Kinsey's backhand was very soft and short, allowing Hunter to win repeatedly with a killing volley.

I surprised myself, the large gallery and Manuel Alonzo by hitting a streak of "crazy" tennis which allowed me to swamp the great Spaniard, 6—0, 6—0, 6—2. I believe I have never played better tennis in my life, while Alonzo was over-anxious and pressing.

Senators Buy Two Players.

By the Associated Press.

CHATTANOOGA, Tenn., Sept. 14.—Announcement made last night of the sale of Fred Wingfield and "Lefty" Roe by the Chattanooga (Southern Association) club to the Washington (American League) club.

Rickey to Devote Rest of Season to Testing Recruits

Three Youngsters Will Be in Action Today in Contest With Phillies.

By Joseph F. Holland,

The Cardinals will utilize the major portion of the present home stay in determining what part young players picked from the minor leagues this season can be expected to play in the make-up of the Cardinals of 1924. Rickey still has a chance to finish fourth, but the difference between fourth and fifth places is of such small consequence that the time can be better utilized by trying youngsters in the remaining games.

With that policy in view, Rickey will use three rookies in the opening game of the series with the Phillies today. Lee Hudgens, a St. Louis boy recalled from the Nebraska State League, will play first base; Edgar Flowers, who appeared in two games with the Reds, will likely play shortstop, and Taylor Douthitt, who came up from Fort Smith, will play an outfield position.

This trio looked exceptionally promising in the classes from which they arose, and there are many who set forth the allegation that the jump from the Western Association to competition against the Phillies is not a tremendous leap.

Cy Williams, leading home run hitting of the major leagues, will be the central figure in the five-game series. Cy made four home runs in as many games on the occasion of his last visit here and would appreciate the opportunity to make four more. He now has 37 to his credit and leads Babe Ruth by one. Babe made his thirty-sixth yesterday in New York off Ted Blankenship of the White Sox.

Jess Haines probably will pitch the game today against either Mitchell or Weinert, left-handers. Mitchell is one of baseball's rarities, a southpaw spitball pitcher, and he has achieved success this season despite the Phils.

Fletcher's team is just one-half game out of last place. If the youngsters trotted out by Rickey do anything at all the Phils may seek their old home in the present series.

Rogers Hornsby may not play today because of a slight skin infection. Jim Bottomley returned this morning from his home in Nokomis, Ill., and probably will play in one of the games of tomorrow's double-header.

Firpo to Win on Points by a Big Margin, Is the Tip Bernard Shaw's Maid Hands Out to Ring Lardner

Bernard Was Out Roller Skating, but He Left Word How He Expected the Fight to Go—Argentine Has Advantage of Not Having Been Picked to Win by the Lady Experts.

By Ring W. Lardner.
(Copyright, 1923.)

NEW YORK, Sept. 14.—On the eve of the 2d battle of the century, friends and admirers from all sections of the country kept ringing up my training quarters on Long Island to try to find out my opinion in regards to the outcome of the struggle before placing their bets on same. To each and all of these friends and admires, my handlers gave the same reply, namely that I was out. As a matter of fact, I wasn't no more out than the promoters of the fight, but I do not like to make no predictions without knowing what I am talking about and in this case I did not want to put myself on record without first consulting Bernard Shaw who I consider the greatest male boxing expert in the world.

Late last night I succeeded in getting Mr. Shaw's apartment on the long distance and was told by a maid that he had went roller skating, but had left word that he thought the fight would go the full limit of 15 rounds and that Firpo would win on points by a wide margin. That is Mr. Shaw's opinion according to his maid and I would advice my friends to make their bets accordingly though personly I think the fight is a toss-up, but aint saying which corner the tossing will be done from.

Firpo may not last as long as Carpentier did, but the Argentine will enter the ring with one big advantage over the Frenchman, namely no women that I know of has picked him to win. The ladies vote put a awful crimp in Georges' chances and the fact that most of the fair sex favors the champion vs the Wild Bull should make the bout a even money proposition with the odds about 2 to 1 against Dempsey.

Some Freak Bets.

So much for the betting on the result itself. Aside from that a few freak bets has been recorded around the town where I live. One prominent mechanic wagered a pocket comb against a empty beer bottle that Firpo would not come up for the first round. An employee of the local post office bet a lock box against a package of after dinner mints that both men would be off their feet between the first and second rounds. A fat man who refused to tell his weight put all his superfluous flesh against a second-hand tripod that they will be one or more photographers in the ring before the main event starts.

Personly, after watching both men in their daily preparation for the bout, I would not be surpdised to see the fight decided by one punch.

Tex Rickard announced last night that the show would start at eight o'clock irregardless of a cabled request from Argentine fans that he postpone it till they get there. These fans left Brainless Aires on a special excursion boat yesterday morning and even if they miss the fight itself they should ought to reach the Polo Grounds in time for the world serious.

One of Those Open Spaces.

Six ringside seats has been set aside for a little group of wilful bankers from Eaves Trough, Montana, who will try to persuade the winner to come to their city during October and fight Johnny Wilson for this year's deposits in the local banks. Eaves Trough has a population of 235 men and women and wont half to depend on New York, Chicago, San Francisco and etc. for patronage. It is located 12 miles from a railroad so they wont be no danger of the two contestants getting ran over by a train.

Last minute statements were issued last night by both challenger and champion.

Dempsey said: "I will give him everything I've got except my 37 and ½ per cent of the gross."

Firpo said: "I hope he leaves me some good teeth as a man like I can't live on soup alone."

On Saturday morning I will tell my readers what come off from the viewpoint of a eyewitness provided they don't call in no Jersey City policemens to se that newspaper men gets seats outside the grounds.

BOXING FOLLOWERS IN BRAZIL PICK DEMPSEY

By the Associated Press.

RIO JANEIRO, Sept. 14.—Interest in the Firpo-Dempsey fight exceeds that taken in any previous sporting event, not even excluding the Dempsey-Carpentier battle, which started amateur boxing throughout Brazil.

The sentiment here as to who will be the victor in tonight's fight in New York is divided, but the majority of the followers of the sport pick Dempsey as the winner. The betting, which is by no means heavy, favors the world's champion. Sporting writers agree that public interest in the championship battle is giving a tremendous impulse to the boxing game in South America.

Those who are interested in the fight are preparing for an all-night vigil to receive the returns. The newspapers will publish special editions and also are arranging telephone and wireless services.

BUNGE SENDS FINAL MESSAGE TO FIRPO

By the Associated Press.

BUENOS AIRES, Sept. 14.—"If Jack Dempsey wins over Firpo it will be in a manner which Firpo, Lavalle and myself have foresetn and tried to guard against," Felix Bunge told the correspondent of The Associated Press last night. Bunge, who is Firpo's backer and mentor, said he would announce what he had in mind after the fight, together with the plan of combat which Firpo will follow—a plan which Lavalle, Firpo's manager, took with him when he left Buenos Aires for America.

According to Bunge the plan has been shown by Lavalle to Benny Leonard, the lightweight champion, who gave it his hearty approval.

"I sent Firpo his final message yesterday," Bunge added. "It was a message of encouragement and a caution not to forget to keep himself covered. I await the good news of his triumph in all confidence."

Oscar Egg Sets Records.

By the Associated Press.

PARIS, Sept. 14.—Oscar Egg yesterday broke the world's one and two kilometer unpaced bicycle records, standing start. The one kilometer unpaced was made in one minute 13 4-5 seconds and the two kilometers in 2 minutes, 28 1-5 seconds. The former records were respectively one minute, 14 3-5 seconds and 2 minutes, 42 3-5 seconds

LONDON EXPERTS PICK DEMPSEY TO RETAIN WORLD'S HEAVY TITLE

By the Associated Press.

LONDON, Sept. 14.—None of the boxing experts writing in the London newspapers anticipates anything but victory for Jack Dempsey in tonight's fight. After an examination of the records of both challenger and champion they come to the unanimous conclusion that Dempsey's superior skill will triumph over Firpo's crude strength; that is, unless the Argentine manages to put home one of his sledge-hammer rights.

Firpo's victory over Jess Willard last July, it is contended here cannot be regarded as anything like a real test of the Argentine's ability on account of the former champion's age.

One newspaper prediction is that Dempsey will win within three rounds. Another expert expects Firpo will last six or eight rounds, but on the whole the opinion of British fight fans may be summed up as follows: "If Dempsey is unable to beat Firpo, there's nothing in boxing."

DEMPSEY IS FAVORED BY FRENCH WRITERS

By the Associated Press.

PARIS, Sept. 14.—The Dempsey-Firpo right holds a place on the first page in all Parisian newspapers, which are printing columns of details of the battle and also photographs of both the fighters. The fights is creating the greatest interest ever evinced in a pugilistic encounter in the history of boxing, with the exception of the Carpentier-Dempsey battle at Jersey City.

The newspapers recall the fact that the Willard-Dempsey fight in 1919 was very little mentioned by the French press in order to show the immense stride the sport has made in France under impulse of the championship bouts between Carpentier and Dempsey, Criqui and Kilbane, and Criqui and Dundee.

Dempsey is the unanimous choice of the sport writers and has been installed the favorite in what little betting is going on. There will, however, be few tears shed by the rank and file of the boxing enthusiasts should the American be defeated. This feeling is due partly to the fact that Dempsey shattered the French idol, Carpentier and partly to the satisfaction the Latins would feel in wresting supremacy in the art of boxing from the Anglo-Saxons, who they feel have always monopolized it in the heavyweight division.

Williams' Error Defeats Danforth In Hurling Duel

Brownie Southpaw Strikes Out Eight Men in 11-Inning Contest.

Special to the Post-Dispatch.

PHILADELPHIA, Sept. 14.—Today's game between the Browns and Athletics was called off because of cold weather.

PHILADELPHIA, Sept. 14. — "Bing" Miller's single to left in the eleventh inning broke up an overtime battle between the Athletics and Browns yesterday, the A's winning, 3 to 2. Fleetness by Sammy Hale made the victory possible. Two were out in the eleventh and the expensive Portlander was on first base as the result of getting hit by a pitched ball, when Miller singled. Hale rounded second under full steam and was more than half way to third when Williams, the left fielder, fumbled the ball slightly. Ed Rommel, coaching at third, gave Hale a clear track and he just about beat Williams' throw to the plate by inches.

Heimach waged an uneven southpaw battle with Dave Danforth until the eighth, when Hauser muffed a throw to first base which should have retired the side. Singles by Tobin and Williams then made the score 2 to 1 in favor of the visitors. The Macklets' run in the third was driven home by Perkins with a double to right which scored Walker from first. Perkins repeated his feat in the eighth, slapping the ball far out along the right field foul line, again scoring Walker from first.

Slim Harris pitched the last three innings due to Bruggy's pinch hitting for Heimach. Slim allowed a hit in each inning, but none of the Browns reached third base.

Danforth Strikes Out Eight.

Danforth and Heimach both pitched excellent ball, with the latter having a slight edge up to the time that he gave way to Bruggy, despite the fact that the St. Louis hurler turned back eight men by by the strike-out route.

On one occasion Danforth faced the situation of having men on second and third with none out. A single and a double paved the way for this situation. The next man popped to Gerber. Chick Galloway, who always has been good in a pinch, took a toe hold and swung. At the crack of the bat Hauser, who was on third, dashed for home. The ball, traveling on a line, shot into the waiting hands of Ezzell, who stepped on third base for a double play.

OUIMET AND GUILFORD TURN IN LOW CARDS

By the Associated Press.

CHICAGO, Sept. 14.—Francis Ouimet and Jesse Guilford, former champions, led the field in practice play at the Flossmoor Country Club yesterday, in preparation for the national amateur golf championship tournament, which begins tomorrow. Both Bostonians negotiated the difficult course in a 76, two above par.

Of the dozen leading golfers who played yesterday but few turned in cards under 80. Jess Sweetser, defending champion, took an 82. George von Elm, Salt Lake City, former Trans-Mississippi champion; Rudy Knepper, Sioux City, Ia., and Capt. E. F. Carter, former Irish champion, finished with 78, 77 and 77 respectively.

Dempsey and Firpo Confident of Victory In Tonight's Battle

By the Associated Press.

NEW YORK, Sept. 14.

PRE-BATTLE declarations of confidence in their conquering ability were flung out last night by Jack Dempsey and Luis Angel Firpo. Statements of the fighters follow:

Jack Dempsey: "I have trained hard for this match because I expect it will be a tough one. I do not pay any attention to those who expect Firpo will be an easy opponent. I am not holding him lightly, but I do not fear him. Firpo is big and strong and dangerous. They are all dangerous until you have them on the floor. I am in good condition and if beaten will have no alibis to offer. If I can end the fight in one round, I'll do it, because I can't take any chances with him. Perhaps the fight will go further than many expect because Firpo probably can take a lot of punishment. I'll give him plenty of chances to demonstrate this, because I intend to sock as hard as I can from the start, but not take any early risks myself. He is too dangerous with his right hand."

Luis Angel Firpo: "I am in good shape; I feel like fighting as I never have before. In the arena there will be many voices raised against me; some will be shouting for me. In far off countries where Latin tongues are spoken they will be expecting me to win. I am confident; I am not afraid. If I am knocked down and again I will come up again and again. There will be no towels tossed from my corner. I don't think Jack Dempsey can beat me and I don't think that he can stand up under my punches. I came to the United States to win the world's title; I conquered every man that stood on the road to the big test. On my body there are no scars of those battles. In my heart there is no fear of any living thing. I think I will conquer Dempsey."

FIRPO GAVE OCCUPATION AS "BOXEADOR" WHEN HE GOT HIS FIRST PASSPORT

By the Associated Press.

BUENOS AIRES, Sept. 14.—Twenty-one months ago today a young Argentine, husky and of solemn mien, walked into the United States consulate and asked Vice Consul H. G. Waters to vise a passport bearing the name Luis Angel Firpo. The holder's occupation was given as "boxeador."

"What's the object of your visit to the United States?" asked Waters.

"I'm going to get a fight with Jack Dempsey," was the answer.

"You think you can lick him?" queried the Vice Consul with a smile.

"That's what I'm going for," replied Firpo quietly.

"You don't tell me," exclaimed Waters, as he entered in his record book the object of Firpo's visit as "training for boxing." On the margin he penciled, "Says he's going to lick Dempsey. We'll see."

When Firpo sailed a few days later on his first trip to New York his departure was noted with only brief items in the Argentine papers. Today he is a national hero not only of this country but all Latin-America.

Orange Polo Team Wins.

By the Associated Press.

PHILADELPHIA, Sept. 14.—The Orange County four defeated the India Tigers, 10 to 5, in the semifinal round in the international polo tourney on the Philadelphia Country Club Field at Bela yesterday.

Barnes to Play Karl Kammann in District Final

Washington U. Tennis Captain Qualifies by Defeating Reppert in 4-Set Match.

By Davison Obear.

Karl Kammann, Washington University tennis captain, reached the final round of the St. Louis District Tournament at the Triple A Club yesterday afternoon by defeating Arthur Reppert, former city champion, in a four-set contest. The score was 9—7, 6—2, 4—6, 6—4.

Reppert did not exhibit his usual playing ability as the first set opened. Kammann ran up a lead of 5 games to 1, passing Reppert at the net for needed points. By steadier playing Reppert won four straight games, bringing the score to deuce. He led at 6—5, but Kammann again took the net and finally won the set, 9—7.

In the second set Kammann had his drives under better control. He took the net frequently and was aided by Reppert's lobs which were too deep.

The players alternated in winning games in the third set until the score reached 3-all. Reppert then won two games for a 5 to 3 lead. Kammann managed to annex the next game, but Reppert took the following, winning the set at 6—4. Play was in the backcourt during most of this set. Reppert directed his strokes closer to the baseline and lobbed better when Kammann came into the net.

Reppert won the first game of the fourth set, but Kammann evened the score. The former city champion then tried net play and took a lead of 3 to 1. Kammann, realizing that the match might go into the fifth set, mixed the pace. He drove deep to the baseline and down the sides. In addition he came into the net and chopped to Reppert's backhand. By these tactics he won five straight games and the set 6—4.

As a result of his victory yesterday Kammann will meet his doubles teammate, Charlie Barnes, in the singles final tomorrow afternoon at 2:30 p. m. Harvey Frohlichstein will umpire the contest.

Carbone and Malone Box Here Sept. 25

Special to the Post-Dispatch.

NEW YORK, Sept. 14.

ONE of the best middleweight fights arranged for St. Louis in many seasons was closed here last night, when Matt Sofka, acting for the Angelica Athletic Club, signed Jock Malone to fight Frank Carbone a 10-round, no-decision contest at the Coliseum, Sept. 25.

Malone is the middleweight's candidate for the 160-pound crown, while Carbone is a veteran of many wars and still a capable fighter.

BUSINESS MEN'S A. A. TO HOLD AN AMATEUR BOXING SHOW SEPT. 21

The second amateur boxing show of the Business Men's A. A. will be held at Battery A drill yard, Sept. 21, it was announced yesterday by Matchmaker Harry Cook. This show will end the club's outdoor activities for the season. It is the intention of the officials to schedule at least 16 bouts.

Some of the boxers Cook is trying to line up for the show are Eddie Kaiser, George Cubano, Bill Johnson, Joe Shepard, Gus Perrone, Sollie Kessler, Lawrence Richardson, Butch Morlein, Elmer Hemingway, and Abe Kramer. An effort is being made to match Max Baum, the Staunton 85 pounder, against Larry Semon.

FIRPO GLORY, IF ANY, TO BE ALL - ARGENTINE

By the Associated Press.

BUENOS AIRES, Sept. 14.—Whatever the outcome of tonight's bout for the world's heavyweight championship, it will be purely an Argentine victory or an Argentine defeat.

Such is the note sounded by the newspaper commentators who dwell with pride on the fact that Firpo followed the Argentine system of training, understood by North American opinion that in so doing he lessened his chances of winning. The writers say it would be better to lose with an Argentine trainer than to win with one of another nationality, with whom Firpo would have to share the credit for his victory.

Shooting Club Opens.

A trap-shooting tournament will inaugurate St. Louis Shooting Park 6500 Page avenue, temporary grounds of the St. Louis Gun Club, at its formal opening tomorrow and Sunday. Twenty prizes are offered for the best scorer of the five classes.

Layton to Oppose Reiselt Sunday

Cannefax and Denton to Meet in Other Match of Three-Cushion World Series.

Johnny Layton, world's three-cushion champion, will oppose Otto Reiselt, the Philadelphia star, in the first match in defense of his title in the world's series tournament, which starts at the Layton-McEniry parlor Sunday. This game will be played in the evening.

In the opening match of the tournament, which will be played in the afternoon, Bob Cannefax of Detroit, a former world's title holder, will play Tiff Denton of Kansas City. Denton holds the high run record for championship play with 17. He finished third in last year's Interstate League campaign.

Herbert Levis of Chicago will referee the matches.

Cannefax, Reiselt and Denton are expected to arrive here today to complete their practice. John Scanlan, secretary of the Interstate League, also will be here.

Matches will also be played here Monday and Tuesday. All games will be 60 points.

STEADIER TONE ON STOCK EXCHANGE; PRICES IRREGULAR

Early Selling Orders Well Absorbed—Bond Market Fairly Steady—Exchange Rates Range Upward—Call Money Eases.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 14.—The Evening Post in its copyright financial review today, says:

"While the selling movement which began on the Stock Exchange two days ago had enough momentum left today to make for considerable irregularity, the tone of the market was distinctly steadier. In fact, all the principal financial markets gave evidence of recuperation from the recent weakness. With the early selling orders in stocks executed and well absorbed professional activities on the short side slackened perceptibly during the early trading and a counter movement began, many stocks not only making up a portion of their losses, but forging ahead of the previous close. Apparently professionals had accomplished their purpose of putting a temporary stop to the recovery which started last August by taking advantage of a stale condition to shake out timid holders. Bonds were fairly steady on a fairly large turnover. Call money after opening at 5½ per cent was reduced to five during the noon hour and to 4½ per cent in the final hour.

Rise in Exchange Rates

"Heavy buying of French francs and Italian lire, and a good demand for sterling, were the features of the foreign exchange market. Francs were firm in London before the opening here, but thereafter ran up to 5.85 cents for a 10-point gain. All but one point of this advance was held. Italian lire gained four points, at 4.45 cents and sterling, after touching $4.54½ yielded to $4.54 on the presentation of commercial bills. At the latter price the pound was ⅛ of a cent higher on the day. Most of the former neutrals were slightly lower, but Spanish pesetas recovered two points more at 13.36 cents. London was inclined to minimize the importance of the trouble at Barcelona. German marks were little changed, although the Reichsbank published another bizarre statement which disclosed an increase in circulation of 289 trillion marks, or 142 per cent.

"Cotton meanwhile continued to show a strong undertone, better Liverpool cables than had been expected, and a bullish domestic consumption report producing a forty point rally in the early trading. The Government consumption report quite exceeded expectations, which called for something in the neighborhood of 450,000 bales. As a matter of fact the figure turned out to be 491,000 bales, which represents an increase of 30,000 bales over the takings of the previous month. Realizations in the afternoon, which coincided with week-end statistics showing an increase in the visible supply, cut the gain in the December future to 9 points at a late price of 27.29 cents.

"Wheat meanwhile had an early rally on covering of shorts but failed to hold its gain, the increased estimate of the Canadian crop having weakened the market for this commodity considerably. Corn failed to respond to the reports of frost in the growing areas, sufficient time not having elapsed to allow for an estimate of the damage done.

Federal Reserve System

"Only slight changes from the previous week are shown by the latest weekly statement of the Federal Reserve Banks. The system as a whole gained $9,300,000 in gold while its holdings of discounted bills declined $8,700,000. There was however, a gain of $4,700,000 in the amount of bills bought in the open market. Deposit liabilities increased to the extent of $34,100,000 and note circulation showed a gain of $5,200,000. As a result of these changes the reserve ratio declined 0.5 of a point to 75.9 per cent. Bill holdings declined at eight of the twelve banks during the week, the only institutions showing increases being those at Cleveland, Richmond, Atlanta, and Minneapolis. The Cleveland bank was also the only one showing any pronounced increase in reserve note circulation while there were substantial decreases reported by the banks at New York and Chicago.

Foreign Exchange

OILS CENTER OF ACTIVITY IN SESSION ON CURB

Special to the Post-Dispatch.

NEW YORK, Sept. 14.—The oils were again the center of activity on the curb market today. Heavy selling brought about further recessions and unsettled the entire list. Selling in this group was checked somewhat shortly after noon by announcement that directors of Prairie Oil and Gas had declared the regular quarterly dividend of $2. This stock had receded 7 points early in the day, but made up the greater part of the loss in the afternoon. Standard of Indiana, Vacuum and Prairie Pipe Line all reached lower levels but the declines were not as sharp as on the previous day. The Indiana stock later got above its close Thursday.

Mexican oils, however, were not subjected to the selling. Mariand of Mexico duplicated its action of a week or so ago by advancing above the $4 level, but failed to retain all the improvement.

Lower prices were reached in a number of the industrials, but certain issues were well taken at the bottom figures. Dubilier Radio established a new low for the year when it broke through 11. Gillette Safety Razor was better supported.

The new $50 par value stock of Chicago Nipple Co. was admitted to trading. Stockholders are entitled to one share of new for five shares of the old of both classes. The A stock opened at 38½ and ran up to 41 before the rise was checked. The B shares, after opening at 18½, sold at 20 in the afternoon.

In the mining section the majority of stocks held firm.

Stocks on the Curb Exchange reached their best prices in the last hour of trading. Up until that time offerings continued to make themselves felt, but were well absorbed and most issues made up their early losses.

NEW YORK CURB

Special to the Post-Dispatch.

NEW YORK, Sept. 14.—Following is a list of sales, highest, lowest and closing prices of securities traded in on the New York Curb market today, sales of stocks are in 100 share lots (except in the case of Standard Oil issues, sales of which are in full) and sales of bonds represent $1000 face value each:

R. notes in actual circulation, $72,297,000. Deferred availability items, $34,619,000. All other liabilities, $1,239,000. Total liabilities, $194,835,000.

Ratio of total reserves to deposit and F. R. note liabilities combined, 60.3 per cent, compared with 61.1 per cent on Sept. 5.

Memorandum—Contingent liability on bills purchased for foreign correspondents, $1,470,000.

New Orleans Cotton.

NEW ORLEANS, Sept. 14.—Scattered showers in the Western belt, favorable cables and reports of a better business doing in Manchester, put the cotton market higher today, prices rising 39 to 42 points in the first hour of the session. October rose to 27.19c. The Census Bureau report, counting August consumption by American mills at 491,604 bales, was larger than expected, but caused little stir.

Small mill takings increased offerings and at 12:30 o'clock October was off to 26.90c. According to Hester, the mills of the world took this week 144,000 bales of American cotton, against 173,000 this week last year and 219,000 this week two years ago.

COTTON FUTURES HIGHER ON NEW YORK MARKET

NEW YORK, Sept. 14.—The cotton market opened steady at an advance of 20 to 31 points in response to relatively firm Liverpool cables, covering by recent sellers for a reaction, and a renewal of commission house buying. October sold up to 27.83 and January to 27.10c during the early trading, or about 31 to 33 points net higher, but business was very active and orders appeared to be pretty well divided at the advance. Private cables from Liverpool reported a good spot demand, said that scarcity of cotton was keeping sales down and that all cotton afloat for Liverpool had already been sold. Another private crop report was published making the condition 53.2 compared with 58.7 toward the end of last month, but appeared to be without effect on the immediate market.

The census report showing domestic consumption of 491,604 bales for the month of August was not considered an important factor. Trading continued active, but after advancing to 27.97c for October and 27.20c for January, fluctuations were irregular. The bulges appeared to meet increased offerings, but they were absorbed on reactions of 8 or 10 points and prices at midday were about 35 to 36 points net higher. Stocks of American cotton in Liverpool decreased 17,000 bales for the week, now amounting to only 53,000, which is considered less than a week's consumption at the prewar rate.

The market was easier during the early afternoon under renewed realizing which may have been promoted by another private crop report making the condition 54 and the indicated yield 11,300,000 bales. October sold of to 27.62 and January to 26.89, making the market about 10 to 13 points net higher around 2 o'clock.

NEW YORK, Sept. 14.—Cotton spot quiet; middling, 28.70c.

St. Louis Spot Cotton.

Spot cotton was unchanged in St. Louis quotations; good ordinary, 26c; low middling, 26.50c; middling, 27.50c; good middling, 28c; middling fair, 28.50c.

New Orleans Spot Cotton.

NEW ORLEANS, Sept. 14.—Spot cotton dull and unchanged; sales on the spot, 2; to arrive, 200. Low middling, 26.50c; middling, 27.50c; good middling, 28c. Receipts, 2514; stock, 42,679.

Liverpool Cotton Firm.

LIVERPOOL, Sept. 14.—Cotton spot, demand restricted; prices firm. Good middling, 17.84d; fully middling, 17.39d; middling, 16.89d; low middling, 16.24d; good ordinary, 15.74d; ordinary, 15.44d. Sales, 5000 bales including 1700 American. Receipts, 1000 bales, no American. Futures closed steady. September, 16.32d; October, 15.62d; December, 15.20d; January, 15.05d; March, 14.85d; May, 14.69d; July, 14.42d.

August Cotton Consumption.

WASHINGTON, Sept. 14.—Cotton consumed during August totaled 491,604 bales of lint and 47,998 bales of linters compared with 461,575 of lint and 44,775 of linters in July this year and 526,380 of lint and 62,841 of linters in August last year, the Census Bureau announced today.

Cotton on hand Aug. 31, in consuming establishments, was 80,671 bales of lint and 106,036 of linters, compared with 1,089,230 of lint and 127,418 of linters on July 31 this year and 1,024,874 bales of lint and 117,558 of linters on Aug. 31 last year.

Stocks on hand in public storage and at compresses were 1,179,204 bales of lint and 24,832 of linters, compared with 903,689 bales of lint and 35,876 of linters on July 31 this year, and 1,530,141 bales of lint and 30,098 of linters on Aug. 31 last year.

Cotton spindles active during August were 33,708,667, as compared with 34,237,887 in July this year and 32,491,857 during August last year.

Imports during August this year were 3420 bales, as compared with 6356 during July and 14,678 during August last year.

Exports during August totaled 244,415 bales, including 31,825 bales of linters, compared with 171,460 bales, including 3061 of linters, during July and with 272,808 bales, including 4490 of linters, during August last year.

New York Cotton

NEW YORK, Sept. 14.—Cotton futures closed steady.

Broadway and Olive

Wall Street News and Comment

—SPECIAL DAILY—

By a Special Correspondent of the Post-Dispatch.

NEW YORK, Sept. 14.—Support which came into the market in the late trading made itself apparent toward the close and some of the speculative leaders recovered their early losses of the day and close at about the same levels obtaining Thursday night. Lima Locomotive was up about a point at the close and Davison Chemical recorded a gain of about 1¼ points on the day. Continental Can showed little change and Studebaker just above 102 was within less than ½ point of the previous close. Crucible Steel was another which showed little change on the day.

Prices of such issues as United States Steel common, Studebaker, American Can and Baldwin Locomotive fell below the Thursday lows before prices hardened. The oils attracted much attention because of recent events in the oil trade.

The passing of the Marland Oil dividend and the declaration of the Pan-American dividends seemed to have been pretty well discounted, although the stocks of both these companies were active. Marland sank to a new low, but responded to support. Prairie Oil and Gas, the important factor in the midcontinent field, announced the declaration of regular dividends.

* * *

The Bond Market.

Today's bond market showed improvement after Thursday's reaction, but the improvement was small.

United States Government loans were fairly steady with a little higher price for the third 4¼s, while the 3½s hung around Thursday's low. Trading in the high grade rails resulted in only fractional net changes. Union Pacific refunding 4s continued heavy under the competition of the new 5s. Canadian Pacific 4s were down half a point. There was, however, no real weakness in this group. Bethlehem steel and Midvale Steel obligations were heavy probably in sympathy with the weakness in the steel stocks.

Among the tractions the feature was a rally in Hudson and Manhattan income 5s, which under selling Thursday broke nearly two points. While interest is payable on this issue only if earned all arrears have been paid up, dividends have been inaugurated on the preferred stock and income statements are very favorable. The bond is secured by mortgage subject to the prior lien of the refunding 5s of 1957 and underlying bonds. At today's price it yields 8.2 per cent.

Rails were irregular. Missouri, Kansas & Texas adjustments were firm while there was selling again of the New Haven franc 7s and Seaboard adjustments. Erie bonds failed to rally much and the Chicago and Alton 3½s in which there has been such active speculation, were fractionally lower. St. Louis San Francisco income 6s lost ground.

The foreign list with the notable exception of the Cuban 5½s was relatively stronger than domestic issues. Jugo Slav 8s rallied on more favorable news from abroad. French issues, while inactive, were firm. The Cuban 5½s made another new low today. They are now selling to give a higher maturity return than Cuban 4½s, the issue of 1909.

Industrials were not much changed. American Writing Paper 6s had another sinking spell.

Financial Notes

NEW YORK, Sept. 14.—A total of 88 individual stocks were quoted ex-dividend on the New York Stock Exchange today. This is less than the record number of 103 quoted on June 15 last, but at that time many quotations were for companies which declare only semiannual dividends, while today's total covers only stocks on which quarterly dividends are paid.

NEW YORK, Sept. 14.—The Pan-American Petroleum Co. today declared its regular quarterly dividend of $2 on A and B stocks. The Mexican Petroleum Co. declared its regular quarterly dividend of $4 on common and $2 on preferred. All dividends are payable Oct. 20 to stock of record Sept. 29.

July Railroad Earnings.

WASHINGTON, Sept. 14.—Net operating income of the class 1 steam railroads comprising about 95 per cent of the total rail mileage in the United States, amounted to $84,614,945 for July, according to figures made public today by the Interstate Commerce Commission. For the same month last year the net income was $60,320,328. Total operating revenues for the month, the commission reported, were $535,813,616 against $443,840,164 for July, 1922. The carriers paid $414,519,968 in operating costs in July while in the same month a year ago the operating expenses were $341,081,191.

Dry Goods Market Review.

Special to the Post-Dispatch.

NEW YORK, Sept. 14.—Trading in the cotton goods market was brisk today, with prices holding firm, and in a few cases advancing slightly. Print cloths, 64x60, were quoted at Thursday's figure of 10¼c, and 68x72s at 12c.

Demand in the raw silk market was somewhat lessened and prices were off. Such Japan silk as available sold from $11.25@11.50 a pound. Italian from $10.25 to $10.75 and China around $10.75.

Turpentine, Flax, Linseed

Linseed oil in lots of 1 to 4 barrels, at $1 per gallon for raw and $1.02 for boiled.

SAVANNAH, Ga., Sept. 14.—Turpentine, firm, 95c; sales, 100; receipts, 747; shipments, 212; stock, 17,944. Rosin, firm; sales, 1525; receipts, 2089; shipments, 950; stock, 107,527. Quote B to I, 4.65c; K, M, 4.75c; N, 4.95c; W. G, 5.20c; W. W, 5.25c.

DULUTH, Minn., Sept. 14.—Close Flax, September, $2.31½ bid; October, $2.31½ bid; November, $2.31½ bid; December, $2.28 bid; May, 2.33 asked.

MINNEAPOLIS, Minn., Sept. 14.—Flax—No. 1, $2.35@2.33.

New York Sugar.

NEW YORK, Sept. 14.—The raw sugar market was easier today and under more liberal offerings, prices declined ⅛ cent to the basis of 4⅝ cents for Cubas cost and freight, equal to 6.65 for centrifugal. The only sale reported was a lot of 13,860 bags of Philippines to a local refiner. The easier turn in the spot market led to renewed selling in raw sugar futures with prices declining 2 to 9 points on active positions. Offerings, however, were not particularly heavy and there was a partial recovery around midday when prices were 2 to 5 points net lower.

No changes occurred in refined sugar, but business was less active. Fine granulated is listed at 8.40 by all refiners.

Refined futures nominal.

Raw sugar futures closed steady; approximate sales 17,000 tons. September, 4.83c; December, 4.40c; March, 3.86c; May, 3.78c.

New York Coffee.

NEW YORK, Sept. 14.—Coffee—Rio No. 7, 7½c; futures steady; December, 8.20c.

New York Sugar.

NEW YORK, Sept. 14.—The raw sugar market was easier today and under more liberal offerings, prices declined ⅛ cent to a basis of 4⅞ cents for Cubas cost and freight, equal to 6.65 for centrifugal. The only sale reported was a lot of 13,860 bags of Philippines to a local refiner. The easier turn in the spot market led to realizing in raw sugar futures with prices declining 2 to 9 points on scattered offerings, however, were not pressed around midday and there was a partial recovery when prices were 3 points net lower.

No changes occurred in refined sugar, but business is less active. Fine granulated was quoted at 8.40 by all refiners.

Refined futures nominal.

Raw futures closed steady; approximate sales 17,000 tons. September, 4.85c; December, 4.40c; March, 3.69c; May, 3.78c.

New York Coffee.

NEW YORK, Sept. 14.—Coffee—Rio No. 7, [illegible]; futures steady; December, 8.20c;

GRAIN LIST STEADY ON LOCAL MARKET

ST. LOUIS MERCHANTS' EXCHANGE, Sept. 14.—Grain futures closed mixed on the local market. Early short covering influence in wheat was not maintained. There was report of frost in the growing area of corn.

In the cash grain market red wheat was 1c lower in a dull, dragging trade. Hard wheat was steady. Corn was steady to ½c higher. There was good local and outside demand. Oats were steady to ½c higher. There was good shipping demand.

The report that Winnipeg was feeling the effect of heavy hedging sales of new wheat was a late factor. There was a report that 1460 carloads of new wheat would arrive at Winnipeg Saturday, as against 939 Friday and 233 last week.

The early market ruled fractionally above previous close, influenced in part at least by recent decline bringing about buying. Liverpool wheat closed ¼d to ⅝d lower. Corn moved along with wheat.

December wheat opened at $1.04¼. May wheat $1.08⅞, December corn 67¾c and May corn 68⅝c.

The three Northwestern markets combined had 1619 cars of wheat, compared with 786 a week ago and 2430 last year, Minneapolis receiving 463 cars, Duluth 221 and Winnipeg 935.

Local wheat receipts, which were 116,596 bu, compared with 110,400 a week ago, and 94,800 last year, included 71 cars local and 26 through. Corn receipts, which were 93,600 bu, compared with 79,700 a week ago and 62,400 last year, included 54 cars local and 18 through. Oats receipts, which were 106,000 bu, compared with 122,000 a week ago and 50,000 last year, included 43 cars local and 10 through. Hay receipts were 37 cars local and 15 through.

Stocks in St. Louis public elevators were 2,192,807 bushels of wheat, 21,933 bushels of corn, 119,592 bushels of oats. Grain stocks comprise 245,905 bushels of No. 1 red winter wheat, 728,419 bushels of No. 2 red winter wheat, 145,291 bushels of No. 1 hard winter wheat, 246,835 bushels of No. 2 hard winter wheat, 11,046 bushels of No. 2 corn, 9290 bushels of No. 2 white corn, 1595 bushels of No. 2 yellow corn, 2105 bushels of No. 2 oats, 55,753 bushels of No. 2 white oats, 29,723 bushels of No. 3 white oats, 9729 bushels of No. 2 rye, 12,685 bushels of Kafir corn.

Primary receipts of wheat were heavier than a week ago, and lighter than a year ago, being 1,770,000 bushels. Corn receipts were heavier than a week ago and lighter than a year ago, being 758,000 bushels. Oats receipts were lighter than a week ago and lighter than a year ago, being 814,000 bushels.

Primary shipments of wheat were lighter than a week ago and lighter than a year ago, being 1,028,000 bushels. Corn shipments were heavier than a week ago and lighter than a year ago, being 690,000 bushels. Oats shipments were lighter than a week ago and heavier than a year ago, being 64,500 bushels.

Clearances were: 32,000 bushels of wheat, 9000 bushels of corn and 73,000 bushels of wheat and flour.

Boston Wool Market.

Special to the Post-Dispatch.

BOSTON, Sept. 14.—Activity in woolens, coupled with reports that mills were running low on raw staple, imparted a tone of strength to today's wool markets. Less talk is heard of the possibility of lower prices, although it is felt that it is too early to talk about advances. Good lots of three-eighths blood staple wools, scarce, are firm at $1 to $1.50 clean. Quarter-bloods show a wider range, but for the most part are selling at 80@85c. Receipts at Boston yesterday were 58 bags of domestic wool.

London Wool Auction.

LONDON, Sept. 14.—There were 10,292 bales offered at the wool auction today. The selection consisted mostly of cross-breds, which were well absorbed at steady prices.

Hides.

Less 1 lb. tare per hide or wet salted:

Wet Salted.		Dry.	
No. 1	8	Flint	14
No. 2	7	Flint	11
Bulls, No. 1	4½	Salted pack	10
Bulls, No. 2	3½	Culls	6
Glue hides	2½	Culls, salted	4

Uncured hides, 1c less.

No. 1 horsehides, mane and tail on, $3.25; small and No. 2, $2.25; glue and pony, $1.50. Hog hides, 10c—glue and pig half price.

Feathers.

To command full quotations stock must be dry and full grown. Quote per pound: Prime white live geese, 78c; prime gray do 53; duck—white, 53c; colored, 33c; chicken—prime dry-picked body white, 12c; colored 3½c; green or damp, 2c—musty not wanted. Chicken and turkey—mixed body, 3c; turkey—body, white full fleece, dry, 40c; body colored, full fleece, 8c; do green, 5c; mixed quills (tail, wing and pointers), 3c. Old feathers, 5c to 50c. Tare, 10 per cent on small bags, 3 per cent on large.

New York Rubber.

NEW YORK, Sept. 14.—Rubber, smoked ribbed sheets, spot 28¾c.

LACK OF SELLING PRESSURE FEATURES TRADE IN WHEAT

Special to the Post-Dispatch.

CHICAGO, Sept. 14.—The feature of the wheat market today was the lack of selling pressure. After the housecleaning of yesterday, with much of the long interest cleaned out and some increase in short commitments, the local trade felt it would be a little too hazardous to press the decline any further. There was some covering by shorts for profits and there was commission-house buying on the setbacks, but the demand failed to last on the rallies. About the only piece of news received during the day was the official estimate of the Canadian carry-over of old wheat, the total being 11,749,000 bushels, against 19,462,000 bushels a year ago. There was a little export business in Manitobas, but not much in domestic wheat. Sterling, francs and marks were all quoted higher and this in a measure offset the decline in prices quoted in Liverpool. Minneapolis cash wheat was easier under increased receipts and Winnipeg reported enlarged offerings from the country.

Wheat closed featureless. Local cash sales were 6000 bushels wheat, 111,000 bushels corn, 54,000 bushels oats, 1500 rye and 60,000 barley. Seaboard reported 350,000 bushels wheat worked for export.

Wheat closed unchanged to ⅝c lower; September, 99⅛c; December, $1.02⅝ to $1.02¾; May, $1.08@1.08⅛.

Corn was affected by the frost reports over Iowa, Illinois and parts of the Ohio Valley. The buying power was rather light, in view of the cold weather, but reports from affected parts indicated little damage and this was one reason for the lack of investment buying. Most of the demand came from shorts who wanted profits and the slight advance could also be attributed to the lack of selling pressure. Cash corn followed the upturn in September. Shipping demand was good.

Corn closed ⅛c to ¼c higher; September, 84¼c; December, 66½@66⅝c; May, 68⅛c.

Oats followed the trend of other grains. Cash houses transferred hedges and commission houses bought December. Some hedging in December by Northwest. Canadian carry-over of old oats officially estimated at 21,811,000 bushels, against 15,740,000 bushels last year.

Oats closed ⅛c to ¼c higher; September, 39c; December, 39¾c; May, 42¼c.

Provisions were firm. Locals bought because of the upturn in hogs.

Lard closed 10c to 12½c higher. Ribs, 7½c to 12½c higher.

Livestock Elsewhere

CHICAGO, Sept. 14 (U. S. Dept. of Agriculture).—Hogs—Receipts, 24,000; steady to 10 cents higher on desirable grades; bulk good and choice 160 to 230 pound averages $9.10@9.35; top $9.30; bulk desirable 240 to 325 pound butchers $8.80@9.05; most packing sows $7.40@7.80; better grades strong-weight killing pigs, $7.50@8.25; heavyweight hogs $8.30@9.10; medium, $8.75@9.30; light $8.25@9.30; light light, $7.85@9.20; packing sows, smooth, $7.55@7.95; packing sows, rough, $7@7.55; slaughter pigs $6.50@8.25.

Cattle—Receipts, 3000; fairly active; uneven; killing quality plain; few beef steers and yearlings here of value to sell above $11.50; early top matured steers, $11.85; bulk grassy and short-fed steers, $7.25@10.25; some double wintered green fed rather weighty Kansas steers, $11; more desirable kind late yesterday at $11.90; lower grades fat she-stock, canners and cutters in demand; better class strong to 15 cents higher; most canners around $3; few strong-weight, $3.15; best heavy bologna bulls quotable at $5.25; veal calves very uneven; selected handy-weight vealers to shippers unevenly higher; upward to $14.25; packers buying less desirable kind 25 to 50 cents lower.

Sheep—Receipts, 12,000; killing lambs strong to 25c higher; others and sheep slow, around steady; fat Western lambs, early $14.60@14.75; some held higher; bulk natives, $13.75@14.25; top to city butchers, $14.50; cull natives mostly $10@10.50; strong-weight upward to $11; heavy fat ewes around medium weight, $5.75@6.25; one double 81-pound yearling breeding ewes, $11.75; some good twos to fours around $8.

KANSAS CITY, Mo., Sept. 14 (U. S. Department of Agriculture).—CATTLE—Receipts, 1500; calves, 300; no fed native steers on sales; fed westerns and grass steers steady; best fed western $9; canners and cutters strong to 10c higher; other classes, she stock steady; canners largely $2.25@2.50; cutters up to $3.50; bulls steady; calves steady; top veals $9.50; stockers and feeders around steady.

HOGS—Receipts, 5000; slow; few early sales to shippers steady to weak; spots 10c lower; shipper top $8.70; packer market steady to 5c higher than yesterday's packer market; top $8.60; bulk of sales $8.15@8.25; bulk good and choice 175 to 275 pound averages $8.50@8.70; packing sows around 15c to 20c lower; bulk $6.45@7.25; stock pigs strong to 5c higher; mostly $6.45@7.40.

SHEEP—Receipts, 1000; few in-between grades fat lambs strong to unevenly higher; odd head fat natives $13.50; good Texas $13.10; little doing on fat sheep or feeders.

KANSAS CITY, Mo., Sept. 14.—Butter, eggs, potatoes and poultry unchanged.

Weekly Wool Review.

BOSTON, Sept. 14.—The Commercial Bulletin will say tomorrow: "A wider interest in wool is reported in the market this week, with fairly heavy sales in a few individual cases. The trade is still spotty, however, and prices cannot be said to be stabilized fully, although there seems to be more uniformity of ideas on value than for some time past and it is asserted that manufacturers do not find it all their own way in the matter of prices as they did a short while back.

"Reports from London indicate a well sustained market, with prices generally firm at openng rates. Liverpool and East India sales have been 5 to 10 per cent over the previous sales. The Australian season open Monday at Sydney.

"The goods market is slightly improved, more especially at the retail clothing end, where fall school buying and clearance sales in men's wear have eased the congestion somewhat. The mills continue to curtail somewhat.

"Mohair is slow but seady."

The Commercial Bulletin will publish the followig wool quotations tomorrow:

Missouri and average New England—Half blood, 51@52c; ⅜ blood, 50@51c; ¼ blood, 45c.

Scored basis Texas, fine 12 months, $1.20@1.25; fine 8 months, $1.10@1.15. Territory—Fine staple choice, $1.30@1.35; half blood combing, $1.15@1.20; ⅜ blood combing, $1@1.05; ¼ blood combing, 80@82c.

Pulled—Detained, $1.25@1.30; AA, $1.15@1.20; AA, Supers, $1@1.10. Mohair best combing, 78@83c; best carding, 70@75c.

Rubber and Scrap Iron.

Country rags, $1.25 per 100 lbs.; old rope—manila at $4.50, common at $1. Rubber—No. 1 boots and shoes, 1c; No. 2, ½c; auto tires, ¼c and inner tubes at 1c per lb.

Per 100 lbs.: Light brass, $5; heavy red brass, $9; light copper, $9; heavy yellow brass, $6; heavy copper and copper wire, $10; zinc, $3; lead, $4; pewter, $18; tinfoil, $25; tea lead, $3; aluminum, $14; scrap iron in carlots, $11 to $12.

LOWER RANGE TO HOGS ON THE LOCAL MARKET

NATIONAL STOCKYARDS, Ill., Sept. 14.—Receipts today estimated: Cattle and calves, 2000; hogs, 14,000; sheep, 700; horses and mules, 100.

CATTLE—Receipts very light with native steers and yearlings of hardly sufficient volume to make a market. Cows, of which a good part of the offering again consisted, ruled steady to strong on the canner and cutter end and steady to possibly 15c lower on the butcher offering. Veal calves held steady, with top again making $12.50.

Quotations: Native beef steers, range, $6 to $12.75; bulk, $9 to $10.50; light yearlings, range, $3 to $12.75; bulk, $7 to $10. Butcher cows, range, $2.50 to $7; bulk, $4 to $5.25; cutter cows, range, $2.25 to $2.75; bologna bulls, range, $3.50 to $5; heavy beef bulls, range, $5 to $6; stocker and feeder steers, bulk, $4 to $6.75.

HOGS—Today's estimate of 14,000 hogs raised the week's total supply to 91,477 head, the largest since the week ending April 14, when the five-day offering totaled 91,040. Trading opened with prices about steady with the close yesterday, although prices slumped shortly after the first few rounds. The early top reached $9.15 for a few loads, with light hogs from 160 to 200 pounds selling in a range of $9.05 to $9.15. Medium-weight kinds from 210 to 250 pounds also sold generally steady with Thursday's close at $8.85 to $9.05. Little was done on the better-weight kinds from 250 pounds and up. Pigs opened with prices showing practically no change from Thursday. Best strong-weight pigs from 130 to 150 pounds sold from $8.25 to $9 largely; the medium-weight kinds from 110 to 130 pounds, selling from $7.25 to $8.25 generally. The light kinds, from 110 pounds and down, cleared at $5.50 to $7.25 mostly, according to the weight and quality of the offering. Sows were slow, with early sales showing little change. Bulk of the opening sales were from $7.25 to $7.35 mostly, smooth light sows in some cases going higher. Stags were practically unchanged, selling in a range of $5 to $5.50 mostly.

SHEEP—Receipts of sheep and lambs were very light today, the estimate calling for only 700 head. Prices continued upward with the lamb top 25c higher than Thursday. Packers paid up to $14 for best offerings of native lambs with some Southwest kinds clearing at $13.50. Culls sold steady at $8 to $8.50 mostly. Sheep showed little change, mutton ewes quotable at $5 to $6 for the light kinds and $3.50 to $4 mostly for the weighty offerings. Choppers and bucks were quotable at $2.50 to $3 and canners at $1 to $1.50 mostly.

HORSES AND MULES—There was little trading on the alleys and no change in the market was quoted. Commission receipts, totaling better than 600 head for the week, have practically all been cleared.

NATIVE HORSE QUOTATIONS.	
Good to choice drafts	$140@180
Medium to good drafts	100@140
Good to choice chunks	70@100
Medium to good chunks	40@70

ANSWERS TO QUERIES

The Post-Dispatch reserves the right to reject any query. Personal and telephone calls, or answers by mail, cannot be given attention, except letters on medical questions of undoubted sincerity, when accompanied by stamped addressed envelope.

G. I.—The organization of the Playground and Recreation Association of America was established in 1906. It has been active in helping communities throughout the United States to establish year-round municipal systems. During 1922 the association sent field workers into communities desiring their services, to help plan the work, and to secure municipal appropriations. The passage of important recreation legislation was secured through their efforts in New York State. The continuation service established in 1921 proved itself of value by giving help and advice in recreation problems to many cities already having recreation systems. A number of pamphlets and the monthly magazine "The Playground" were published by the organization during the year, and many inquiries regarding various phases of community recreation were answered through correspondence and consultation. The Ninth Recreation Congress was held under the auspices of the organization and attended by over 600 delegates from 33 states and 204 cities. The National Physical Education Service, inaugurated in 1918, worked during 1922 to secure additional state physical education legislation and conducted a campaign for national physical education legislation. The Community Service assisted local community service committees in a number of cities, who, in a volunteer committee, helped to build up neighborliness and community spirit. Field workers under this department gave help to cities in establishing and maintaining local leisure-times programs. Through the use of music, dramatics, and social recreation, the trained staff of the Community Service department helped to build community life. Joseph Lee was president of the association during 1922.

A DEAD UN.—You can purchase a book on etiquette, in any of the book shops.

ELIZABETH H.—Furs can be cleaned at home with a clean whisk broom, wet in benzine, thoroughly until saturated to the hide. Sift thickly into and over it sawdust; cover to keep out the dust, and do not touch for two days. Then brush and beat out the sawdust. Grime and soot will come out with it.

M. G. W.—The St. Louis World's Fair that was held in St. Louis in 1904 celebrated the centennial of the Louisiana Purchase. The Louisiana Territory, acquired from France by this purchase, embraced all the land lying between the Mississippi River, and the crest of the Rocky Mountains, and its ownership by the United States made possible the extension of the nation's boundaries to the Pacific Ocean.

E. T.—To remove rust from polished steel, cyanide of potassium is excellent. If possible, soak the instrument to be cleaned in a solution of cyanide of potassium in the proportion of one ounce of cyanide to four ounces of water. Allow this to act until all loose rust is removed, and then polish with cyanide soap. The latter is made as follows: Potassium cyanide, precipitated chalk and white castile soap. Take a saturated solution of the cyanide and add chalk sufficient to make a creamy paste. Add the soap cut in fine shavings, and thoroughly incorporate in a mortar. When the mixture is still, cease to add the soap. It should be remembered that potassium cyanide is a virulent poison.

A. G. Z.—An excellent flea powder is made with naphthalene, 4 ounces; talcum, 10 ounces; tobacco dust, 2 ounces.

LEGAL INFORMATION.

(By a Member of the St. Louis Bar Association.)

QUINCY.—When a wife files suit for divorce from her husband, it depends on the court's order who will pay the attorney's fees. The court ordinarily, orders the husband to pay the wife's fees, if the divorce is granted to the wife. There are some cases, however, where the court does not order the husband to pay the fees. If the wife has necessary articles charged to her husband before their separation, he is liable for the debts. The court costs are usually paid by the losing party.

ANXIOUS.—If your father has driven you out of your home, he has no further right to your wages. You should explain the circumstances to your employer, and, if your father makes any trouble, consult the Legal Aid Bureau in the Municipal Courts Building, Fourteenth and Market streets.

MARY JANE.—(1) The estate cannot be settled in less than a year after the death, and it may take longer than that. (2) A will can be broken if it can be proven that the testator was of unsound mind or was, under some one's undue influence at the time that he made the will.

THANK YOU.—(1) Under the circumstances described, you can file suit in the Circuit Court, for either divorce, or separate maintenance. (2) You would almost certainly be given the custody of the baby, at least for the present, but this would be in the discretion of the judge who tried the case. (3) Upon receiving a divorce, there is no law giving a certain percentage of the husband's wage to the wife and child for their support, but the amount of alimony and of support money to be paid is fixed by the court in its discretion. (4) If you obtained the divorce, he would have to pay the costs and your lawyer's fee, which would probably be from $75 to $125, if the case was not contested. (5) You have grounds for divorce, provided that you have not been at fault yourself.

MEDICAL QUESTIONS.

Health and sanitation questions of public interest only will be considered.. Diagnoses or treatment of individual cases will not be given.

ELIZABETH.—A metal taste in the mouth is due to some trouble with the teeth, or digestive derangement.

ANNA.—Biliousness may be remedied by taking one-half of a lemon squeezed in a glass of hot water, with no sugar, before breakfast, and just before retiring. Also keep the bowels open, and eat sparingly of meats and sweets.

BECKY.—An infected tonsil might well contaminate the blood, and produce pimples. All diseased tonsils should be removed, for they are a constant menace to good health.

READER.—The average weight for a woman 37 or 38 years of age is 124 pounds, and height 5 feet. Your weight is so little above the average that we think you should cease dieting, and return to a regular diet, which would correct the weakness you mention.

READER.—Galbanum is a gum resin obtained from a plant near the Caspian Sea, and is used locally, as a plaster, and for dressing sluggish wounds. It is also used internally as a stimulating expectorant. The drug is galbanum, and not garbanum. Pitch is a form of tar and is much used in combination with other drugs in making plasters.

Experienced beef and provision salesmen are required by Chicago manufacturer of specialty in demand in retail meat industry. This is an unusual opportunity for high-class salesmen to earn from $4000 to $8000 a year, on a straight commission basis. Box J-113, Post-Dispatch. (6)

SALESMAN

Valuable territory with established trade now available to young man capable of aggressive work and earning not less than $50 to $100 per week. We are manufacturers of the largest nationally known line of straw hats and cloth caps, selling to general stores; permanent position on liberal bases to right man; must have auto and qualify for bond.

CARADINE HARVEST HAT CO.,
2128 Washington. (c62)

Opening Our New 90-Acre Sub-Division for Flats and Apartments in University City.

—being the logical expansion of the Delmar Garden district.
—will be our greatest achievement.
—our biggest seller, being priced low and badly needed now.
—positively the only property for flats left in this fast-growing section. There can be none other.

Delmar Garden and other flat and apartment property has doubled and trebled. This flat property will double in 24 months. —It is the lowest priced flat property ever subdivided here.

Salesmen, here is a real opportunity to make big earnings and make them legitimately. If you are in a rut, use a little nerve and get into this exceedingly profitable business.

You know St. Louis is breaking records for growth; you know spending the $87,000,000 Bond Issue will be a tremendously big thing for the city. Use this knowledge and make this fall and winter months big months for you.

We have men making $150 to $250 a week who were making less than $75 a week in the mercantile business. Investigate. Perhaps you are wasting valuable time.

High Blood Pressure

Physician's Discovery Safely Reduces It to Normal and Dizzy Spells Disappear.

If your blood pressure is too high you cannot pass a life insurance examination.

Perhaps you don't know that you have this serious trouble which often causes apoplexy and unexpected death, but if you suffer dizzy spells, shortness of breath, hot flashes, are nervous, moody or don't sleep well, your blood pressure is undoubtedly higher than it ought to be even if you don't realize it.

Norma, the prescription of a Buffalo physician, reduces high blood pressure, then all the ailments caused by this abnormal and dangerous condition quickly disappear.

Wolff-Wilson, Judge & Dolph, Enderle and Johnson Bros. Drug Stores and reliable druggists everywhere have a big demand for Norma—it has helped thousands and should do the same for you. Be sure to ask for Norma, as this is purely vegetable and guaranteed to contain nothing harmful.

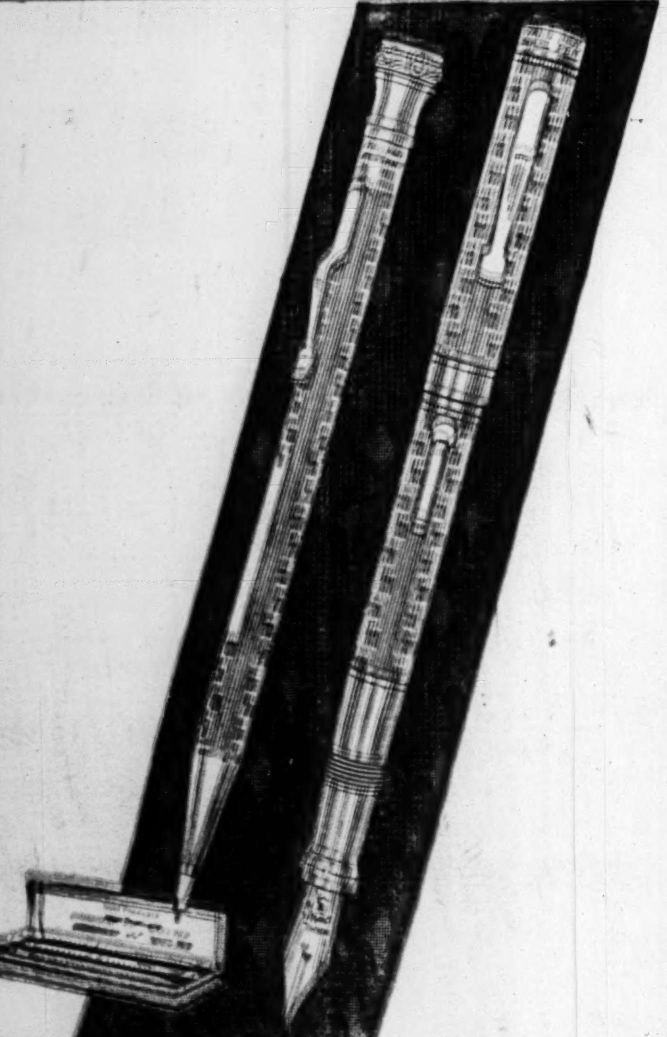
BROTHERS SUE TO SET ASIDE WILL OF MISS KATE THOEBES

Case of Samuel J. Tilden, 1876 Candidate for Presidency, Cited as Precedent.

Suit to set aside the will of Miss Kate Thoebes of 1839A Victor street, who died last March, was filed yesterday by her two brothers, H. C. and Frank J. Thoebes. They allege that she was not of sound mind when she drew up the will in which she left the bulk of her estate to Arthur R. Brunk, who, as executor, was directed to dispose of it to such charities as he picked out. The plaintiffs were not included as beneficiaries.

Their attorney, Henry Kortjohn, estimates the value of Miss Thoebes' property at $25,000. He said that her will was illegal not only because of her mental condition but for the further reason the courts have held that a will must designate what charities are to be beneficiaries in order to be valid. The question, he said, was first decided in the case of Samuel J. Tilden, Democratic candidate for the presidency in 1876, whose will was set aside because he left his property to trustees who were to use it for such educational purposes as they determined.

As indication that Miss Thoebes was at least eccentric, Kortjohn cited a clause in her will directing that "only friends may attend my funeral." It is believed, he said, this restriction was intended for her brothers, with whom she was not on friendly terms, although the brothers did not object when their mother left to the sister the whole of her estate.



Through SCHOOL—
Through COLLEGE—
In BUSINESS

Eversharp and Wahl Pen are America's finest-working and best-liked pencil and pen. When you buy these two you acquire writing companions for life.

Eversharp was the first successful mechanical pencil—and its features can't be copied. Eversharp lead never wobbles—the exclusive rifled tip holds it absolutely firm. The automatic index always tells how much lead is in the barrel. And Eversharp craftsmanship gives a balance to the pencil that suits your hand perfectly.

Wahl Pen in all-metal is the outstanding fountain pen achievement. The all-metal barrel cannot crack or split. You fill it less often because it holds more ink. And it will last a lifetime.

Eversharp and Wahl Pen are essential in school, in college and in business. Buy both, in gold or silver. Eversharp, $1 to $10; Wahl Pen, $4 to $10. Solid gold at higher prices.

The New Wahl Pen, engine-turned in jet-black rubber, is the best looking and most practical rubber fountain pen you have ever seen. Price $2.50 up.

EASIER HOUSECLEANING

-:- --o-- --o-- -:-

How the Vacuum Cleaner May Come to the Aid of the Woman Who Desires a Germless Household.

By Mrs. Christine Frederick

SOME day, when I have time, I am going to sit me down and write an "Outline of Housekeeping!" And I will design "window displays" for its sale showing the "then and now" of many household utilities, using as Ehibit A a typical corn broom of the dark ages and a vacuum cleaner of the Progressive Era of the Home!

CHRISTINE FREDERICK

Certainly there could be no greater contrast in principle than the old-fashioned broom or feather duster which served only to scatter the dust from floor to ceiling and back again to the floor in a truly vicious circle and the modern cleaner which operates on "free air," and whose slogan is absorption of germs and naughty little bacteria. Does any one recall the old "allover" thick Brussels of the past day, tacked tightly from edge to edge of the baseboard, on which one sprinkled tea-leaves or torn wet fragments of newspaper in order to lessen the barrage of dust raised by the mighty broomff Who says we are not marching on, if he contrasts with this unsanitary upheaval the present dustless cleaning of the vacuum hose?

I do not think history is clear as to the true inventor of the dustless vacuum cleaner, but at all events the mass of womankind owes him a great deal of time, leisure and the greater pursuit of happiness! For the vacuum cleaner, of whatever make or model, achieves that happy end of a floor and furnishings pumped free of embedded dust, grit and the grime that comes from no man knoweth whence. It is suction, just plain suction of air that does it, the same suction that transports the change from our parcels from floor to floor, that raises submarines and effects other marvels in the world we live in.

Generally speaking, the difference between one cleaner and another is in the power and quality of the motor. It is the motor which drives the "fan" that makes the suction that draws out the germs with as certain sureness as did the Pied Piper of Hamelin make the rats follow him. With enough suction, the dirt and grime are bound to be drawn out of whatever type of carpet and into the dust bag attached to the cleaner. Some cleaners use only air, others use air and some type of brush to catch up hair, line and raveling, and a third type employs air plus a brush that beats as well as sweeps.

Probably that cleaner which uses a brush as well as suction is the better machine. Also, it should be so light as to be convenient to handle and have the dust bag so located that it will not slip and spill the contents. The formation of the nozzle should be such that it will permit the suction created by the motor to be the most useful as a cleaner. Often too much suction makes the machine heavy. In this case, if the operator raises the nozzle while cleaning the carpet the effect will be better.

Few may realize that a good vacuum cleaner costs less to operate per hour than an electric iron. And since the proverbial "child can use one," the portable cleaner becomes really the housewife's most helpful silent servant, particularly at house cleaning time. Rugs which previously were thought necessary to send to a professional cleaner's may be cleansed at home, and this extra cost saved; the use of attachments makes it possible to clean mattresses, tufted furniture and hangings with ease; the same nozzle that cleans books will also clean under the strings in the piano case, or a typewriter needing a thorough dusting, or, of course, the tufted cushions of a motor car, where the cleaner may be attached to a nearby outlet.

Speaking of mattresses, this is one of the chief tasks which the vacuum has made easy. Gone are the days when Sally or Susie used to haul out the weighty mattress and bang it for hours with a carpet beater, much to the displeasure of the neighbors and their outhanging wash. No, Mrs. Housewife will find the price of a cleaner a good investment if used only on mattresses, for there is a surprising amount of silt or sifted dust continuously in every mattress, and treating this is neither wholesome nor wise. Fall house cleaning should by all means include a thorough free-air treatment of the family sleeping quarters, on both sides, top and bottom, pillows included.

Do not buy a cleaner merely because the glib salesman picks up with it a trail of flour and baking soda, both clean and inadhesive dust! Before you buy any cleaner insist on a free trial in your own home and try it on different kinds of carpets, hangings and furniture. Cleaners are something like husbands, there are many good varieties and the exact choice is largely a matter of individual preference!

The Housewife's Scrapbook

ONE woman whose windows and mirrors glisten attributes this to the newspaper she uses for the polishing. She also puts a sparkling polish on her glassware by using newspapers, both for washing and polishing.

* * *

It is often difficult to make labels adhere to the tin canisters. To overcome this, dip the side of the canister in a hot solution of soda and water and rub dry, then rub onion juice on the can and apply the label.

* * *

Screw a hook in the top of the broom handle. It will be easier to hang than it is on a cord and it will come in handy to lower windows that are out of easy reach.

* * *

Using soap on kitchen paint makes it look dingy. Boil one pound of bran in a gallon of water for one hour and wash the paint with this. It will not only cleanse the paint, but will retain the gloss.

* * *

When you return from your vacation, wash closets with hot turpentine water before hanging the garments. It will keep the moths away. This is also a good treatment for the inside of the trunk if you store articles in there when at home.

* * *

A piece of chamois basted over the heel on the inside of the shoe will do much to prevent holes in the stockings.

* * *

Tinware can be kept bright by applying soda with pieces of moistened newspaper and using dry newspaper to polish.

* * *

When dock, dandelions or other weeds spring up on the lawn, cut the plant off as near the ground as possible—just below is better—put a couple of drops of kerosene on the heart of the weed and it will not grow again.

* * *

Keep your white furs immaculate. As soon as they are slightly soiled, rub magnesia in small cubes well into the fur, then dust it out thoroughly. If badly soiled, apply white cornmeal, slightly warmed, and after a few hours brush it out.

DEVILED EGG SALAD

USE enough eggs to allow three halves to a person. For two people, cook three eggs until hard. Cool, cut in half and remove yolks. Mash the yolks and season to taste with salt, pepper, vinegar, prepared mustard and mayonnaise. Mix to a smooth paste. Refill the halved whites. Place on individual salad plates, three halves on a lettuce leaf. Garnish with mayonnaise, paprika and a slice of tomato.

Three Unusual Ways to Welcome Back the Delicious Oyster

By JEANNETTE YOUNG NORTON,
The Authority on Home Cooking

OYSTERS are always welcomed back to market by the housewife, for they are most useful in varying the menu, and also are delicious. Oysters cook so quickly that they are a real joy to the busy woman who has to cook a meal when she arrives home from a delayed shopping expedition or is detained later than usual at business.

If the dish is to be a stew, plain, heat the liquid, adding butter and seasoning, then drain the oysters and drop them in, allowing them to cook two or three minutes, until the beards curl, which is sufficient.

If the dish is to be creamed oysters make the sauce, then after draining and drying the oysters on a linen cloth, add them and cook them for two minutes as the sauce boils. As soon as the beards curl or ruffle, the oyster is done. More cooking only hardens and toughens the delicate texture of the meat.

Oyster Canape.

Scald a pint of oysters in their own liquor for three minutes. Drain and set them to cool. When ready to serve, dip a leaf of lettuce in heavy French dressing made without mustard and lay it on a delicate, buttered toast-round. Put four oysters on top, covering them with tartar sauce. Dust the oysters with paprika, garnish with olive curls, spread them with anchovy paste and serve them. To make olive curls, pare the flesh of the olives from the stones as one peels an apple, then spread the inside of the curls with paste and roll them back in shape again.

New England Scalloped Oysters.

Get a solid quart of freshly opened, medium-sized oysters. Butter a baking dish after wiping it very lightly with a cut bud of garlic. Cover it with a layer of crumbs, then a layer of oysters, dust them with pepper and salt, dot them with butter, then cover them with another layer of crumbs; dot that with butter, dust with a little pepper and sprinkle it with a tablespoonful of oyster liquor and two tablespoonfuls of cream. Add another layer of oysters. Season them, add more crumbs, dot them with butter generously, add a half cupful each of liquor and cream, and bake the mixture for a half hour.

Oysters in Tomato Curry.

Take a quart can of tomatoes or a dozen fresh tomatoes cut up and add to them a sliced onion, a half bud of garlic mashed, a few leaves and stalks of celery cut up, four cloves, half a bayleaf, a heaping teaspoonful of curry powder, pepper, salt, a quarter cupful of sugar, a thin slice of bacon and a dessertspoonful of Worcestershire sauce. Let this mixture simmer gently for a half hour. Strain it, thicken it slightly with a tablespoonful each of butter and flour rubbed to a fine paste, and, when smooth, add the oysters, which have been drained and dried. Have ready a rice ring on a hot dish, and turn the curry into the center.

Words of Wise Men

The praise of a fool is censure in disguise.

* * *

Nothing is so useless as a general maxim.

* * *

Enthusiasm is the genius of sincerity, and truth accomplishes no victories without it.

* * *

Solitude sometimes is the best society.

* * *

Light sorrows speak, great ones are dumb.

* * *

There is more strength in a true heart than a walled city.

* * *

Far better spend a whole life in diligent, cheerful, unremitting toil, though you never attain the pinnacle of your ambitious desires, than to turn back at the first appearance of misfortune, and allow despair to unnerve your energies.

FROM NOW ON

By FRANK L. PACKARD

A CONTINUED STORY

She pressed her hand a little wearily across her eyes. She was here now at the end of those thousands of miles, every one of which had seemed to yawn as some impassable gulf between her and her goal; she was here now, and, in spite of her fears she had reached that goal—in time. She had even outwitted—for the moment anyhow—Dago George. True, Dave Henderson lay there in that next room drugged, but she was not too late. She smiled a little ironically. In a purely literal sense she was too early! She dared not make a move now for perhaps hours yet, not until she was sure the house was closed for the night, and that Dago George—she did not trust Dago George—had gone to bed.

And so she must sit here and stare into the blackness. She would not fall asleep; there was no fear of that. She could not sleep. Already thoughts and memories, as myriad in divergence as they were in numbers, were crowding upon her, and goading her brain into an abnormal and restless activity.

She twisted her hands together now in her lap. She remembered, and she could not forget, the horror and fear of that night when her father had died, and of the days thereafter when she had performed—alone — the last duties that had devolved upon her. Yes, it had been alone. She had lied to Dago George. It had been alone! If Nicolo Capriano had had friends and been powerful in life, Nicolo Capriano had been alone in death. She had lied to Dago George; there had been no heritage of power. She had lied—but then her whole life was a lie!

A low sound, a bitter moan, came suddenly from her lips. It was not the Teresa now who had faced Dago George with cool complacence in the room below. She slipped from the chair to her knees, and buried her face in her hands. It was the black hour, of which she had known so many since that fearful night, that surged and swept upon her now again. It whirled scenes and thought of the past, and pictures of the future, before her like some bewildering and tormenting kaleidoscope. She could not define to herself her feelings relative to her father's death; grief seemed to mingle indissolubly with bitter abhorrence at his act of treachery. But in another way her father's death meant something to her that she was coming to grasp more clearly. It seemed to release her from something, from—from a tangled life.

All her life had been a lie. She was the daughter of a criminal, and all her life had been a lie; her environment had been a lie. In big things, in little things, it had been a lie. She had lied to herself that night when she had let this man in the next room here go without a word of protest from her lips to carry out a criminal act. She had been a coward that night, and it had shamed her. She had owed something to her father, a loyalty to her father; perhaps, fundamentally, that was the basis for her refusal to face the issue squarely that night; perhaps it was because the habit of years, the lies, and only lies, that had been lived around her, had strangled her and weakened her. Perhaps it was that; but if so, and if she had owed and given loyalty to her father, then she had given more than loyalty—she had given her soul. And her soul turned miserably away from this pitiful landscape of life upon which now she was forcing it to gaze.

But this was a picture of the past, for if it were true, or in any degree true, her father's death had brought her release—her father was dead. And so she faced the future—alone. In so many a different sense—alone. She was alone now, a free agent to mold her own life, and the test was before her: whether the lie, for example, she had acted that night when she had sent Dave Henderson away, was the outcome of things extraneous to her soul, or inherent in that soul itself. Her hands, that clasped her face, tightened. Thank God, she knew! Thank God, that from the moment her brain had staggered out of its blind pit of horror and darkness on that night, she had seen her way clearly lighted before her! Her first duty was to save the man in the next room from her father's treachery, and she was here now to do that; but she was here, too, to do something else. She could, and would, stand between Dave Henderson and the personal harm that threatened him through the trust he had reposed in Nicolo Capriano, and she would do this at any cost and at any sacrifice to herself; but she could not, and she would not, connive at anything that would tend to keep the stolen money from the possession of its rightful owners.

Her hands lifted now and pressed hard against her temples, which had begun to throb. Yes, and she must do even more than that. There had been not only treachery on her father's part toward Dave Henderson, there had been treachery and trickery toward the police in an effort to cover up the stolen money; and, tacitly at least, she had been an accomplice in that, and therefore morally she was as much a thief as that man next door, as much a thief as her father had intended to be—unless now, with all her strength, with all her might, she strove to undo and make restitution for a crime in which she had had a part. If it lay within her power, not adventitiously, not through haphazard, but through the employment toward that end of every faculty of brain and wit and courage she possessed, she had no choice now but to get possession of that money and return it to the authorities. Her conscience was brutally frank on that point, and brutally direct; there was no room to temporize, no halfway course—and here was the final, ultimate and supreme test.

Her face in the darkness whitened. Her lips moved silently. It was strength and help she asked now. Her mind was already made up. She would fight for, and, in any way or by any means that offered, get that money, and return it. And that meant that she must watch Dave Henderson, too. There was no other way of getting it. He alone knew where it was, and since it was not to be expected that he would voluntarily give it up, there seemed left but one alternative—to take it from him.

Her mind was almost overpoweringly swift now in its flow of tormenting thoughts. It seemed an impossible situation that she should warn him of danger from one source, only to do to him again what—no! His life was not in danger with her; that was the difference. But—but it was not easy to bring herself to this. She was alone now, with no bonds between herself and any living soul, except those strange, incongruous bonds between herself and that man in the next room whom she was in the same breath, both trying to save and trying to outwit. Why was it that he was a thief? They could have been friends if he were not a thief; and she would have been so glad of a friend now, and she had liked him, and he did not look like a thief. Perhaps her mother had liked Nicolo Capriano in the early days, and perhaps Nicolo Capriano then had not looked like a thief, and perhaps her mother had counted on turning Nicolo Capriano into an honest man, and——

Teresa rose abruptly to her feet. She felt the hot color flood her face. She saw the man as he had stood that first night on the threshold of her father's room, and he had looked at her so long and steadily—and there had been no offense in his look. She caught her breath sharply. Her mind was running riot! It must not do that! She had many things to accomplish tonight, and she would need all her wits.

King's Son and Granddaughter of American Who Are Reported Engaged

LADY ALEXANDRA CURZON.

PRINCE GEORGE OF ENGLAND.

LADY ALEXANDRA is a daughter of the Earl of Curzon, now British Foreign Secretary and former Viceroy of India, by his marriage with Mary Leiter, daughter of the late Levi Z. Leiter, Chicago merchant and capitalist. Her mother has been dead several years and about three years ago Curzon married again, his second wife being also American born, Mrs. Alfred Duggan, a widow and daughter of Monroe Hinds, former American Ambassador to Argentina.

Lady Alexandra Curzon is 19 and Prince George is 21. He is the King's younger son. No official announcement of an engagement has been made, but it is generally believed in London aristocratic circles to exist.

Theoretically all professions in Germany are now open to women. This includes even stock broking, and already the first woman broker has been admitted to deal on the Corn Exchange.

Bible Thought
:-: For Today :-:

Prepared by the Back to the Bible Bureau.

YE WILL REAP WHAT YE SOW:—Be not deceived: God is not mocked: for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting. And let us not be weary in well doing; for in due season we shall reap, if we faint not.—Galatians 6: 7-9.

The salary that would have gone to President Harding had he lived for the remainder of this year will go to his widow. She will also receive an annual pension of $5000 from the Government.

Hobbies of Noted Persons.

By LOUIS M. NOTKIN.

Roger W. Babson, Economic Engineer and Statistician.

Statisticians, who juggle with figures and sometimes with whole industries and who study carefully actions and reactions of world events, are expected to have some "high brow" hobbies. But Mr. Babson, very gently, breaks the news to us that his hobby is just farming. He writes:

"Next to the pleasure of my business is the joy of getting into overalls and working on my farm. First there are the hens, Rhode Island reds, and some very distinguished ladies among them. Next comes the vegetable garden. Here I raise enough to feed my family and household. Chopping trees splitting logs and sawing them into fireplace lengths is part of the winter farming.

"Many of my friends beg me to take up golf and other forms of recreation, but none of those things appeal to me as does my farm. Hence, farming is a 'hobby' I can heartily recommend for healthful recreation, exercise and pleasure."

..Fashion Frills..

PARIS.—Half the dresses one sees today are made up of lace, and the other half of the dresses one sees are trimmed with flowing lace panels, flounces, or sleeve ruffles. Bits of bright embroideries are appearing as supplements to the lace trimmings.

* * *

LONDON.—Colors go by hours just now. Early in the afternoon the prevailing shades are maroon, blue, sand and copper. In the evening, pastel tints predominate.

* * *

LONDON.—Lingeries are much in vogue today. Negligee itself is made up of the diaphanous fabric known as "vaporeuse" and this is inlaid with panne velvet. It is further adorned with dyed lace and embroideries.

* * *

NEW YORK.—Among the autumn hats shown here today is the postillion, a high crowned affair, rather mannish. The justly celebrated cloche is varied by a rolled brim. And the tam has forsaken its scottish ancestry in favor of a touch of Chinese.

* * *

NEW YORK.—Among the bits of Chinese influence which are appearing here and there today is the set of buttons of carved jade. These buttons on a coat or blouse, may be supplemented with an elaborate buckle of jade, carved fantastically.

* * *

NEW YORK.—The short coat was too universally becoming, too comfortable and too pretty to be eliminated. It is with us this autumn, especially in fur.

Miss Emilie Bullowa of New York, president of the Women Lawyers' Association, is said to have the largest earned income of any woman in the United States. She and two brothers comprise the law firm of Bullowa & Bullowa, specialists in admiralty law. Miss Bullowa is believed to be the only woman in this country specializing in that branch of the legal profession and her reputation is international.

Starting with a Shetland pony, a gift from her mother when she was 3 years of age, Peggy Keith of Warrenton, Va., now owns $10,000 worth of livestock. While she is only 15 years of age now, she has been given the title of "champion farm girl" by the United States Department of Agriculture.

My Beauty

Came from clay—and clay has kept it

By Edna Wallace Hopper

Today you hear much about facial clays. I learned about them 20 years ago in France. Then they were crude and muddy, like most clays now. But they multiplied my beauty. And now that same clay, vastly perfected, keeps me a beauty at my grand old age.

Some of you have been amazed at what clay does for women. Even these old-type clays. No other aid to beauty ever did one-tenth so much.

But there is now a new-type clay, white, refined and dainty. French scientists, by 20 years of study, have multiplied its powers. Mark what that clay did for me. After 40 years in the limelight, I look like a girl of 19.

Now I am enabling all to get it, and I urge you to find it out.

The supreme help

Clay does more for women's beauty than all other aids combined. It purges the skin of all that clogs it—the causes of sallowness, blackheads and blemishes.

It brings the blood to the skin to nourish and revive it. The result is that rosy afterglow which so amazes and delights. Many women, with one application, seem to drop ten years.

It firms the skin, combats all lines and wrinkles, reduces enlarged pores. My baby complexion, at the age of 62, shows what constant use will do.

No girl or woman who cares a whit for beauty can afford to omit clay. The users of clay stand out in every crowd.

A better clay

But there's a better clay that others offer now. It is a clay which France perfected for me. I call it my White Youth Clay.

If you have used another clay, this new clay will amaze you. If you have never used a clay, it will be a revelation.

Now this new clay is at your call. Out of gratitude for what it did for me, I am offering it to all.

Edna Wallace Hopper's White Youth Clay is supplied by all druggists and toilet counters. Price, 50c and $1 per tube. Also my Youth Cream, which should follow the clay. Also my Facial Youth—my famous liquid cleanser. Also my Hair Youth, which brought my luxuriant hair. My Beauty Book comes with each.

Let me aid you to the beauty I got and the youth I've kept. The first step is Youth Clay. Go learn what it means to you. Edna Wallace Hopper. Business address, Waukesha, Wis.

YOUNGEST SCHOOL HEAD

Only 24, She Runs College

MARJORIE F. WEBSTER, 24 years old, is head of the Marjorie Webster School of Expression and Physical Culture in Washington. She is regarded as the youngest president of an institution of learning in America. Despite her lack of years, Miss Webster's school, in the three years of its life has enjoyed phenomenal growth and has gained a wide reputation. Miss Webster, besides being an excellent instructor, is well-known as a chautauqua reader. She is a member of the League of American Penwomen.

RED CROSS MATTRESS
Kapoc Floss
NYMCo

Do You Sleep Well
Every Night?

If your sleep does not bring absolute relaxation—mental and physical rest—try the Red Cross Mattress. Let this luxurious bed prove to you the wonderful softness and solid comfort which the special Red Cross process produces in the treatment of its Kapoc Floss Filler.

It's this exclusive process that also makes the Red Cross Mattress self-ventilating, body conforming, and half as light as ordinary mattresses. That's why housewives find it easy and a pleasure to give the Red Cross an occasional sun and air bath to restore it to its original shape. Hand tufted, beautifully ticked and hand sewn. Sealed in a sanitary carton.

Don't buy a "Just-As-Good," but insist on a Red Cross Mattress. Look for the label on each mattress for your protection.

.:. Children's Bedtime Story .:.

By Thornton W. Burgess

PETER RABBIT had gone over the Smiling Pool hoping to find someone to talk with. Grandfather Frog was nowhere to be seen. Jerry Muskrat was too busy to gossip. You know Jerry is a worker. For awhile it looked to Peter as if he would have to go somewhere else to find someone to talk with. He was just about to turn away when he spied an old friend. It was Spotty the Turtle. Spotty was taking a sun bath on the end of an old log out in the water. At first Peter hadn't seen him because he was partly hidden in the bulrushes.

"Hello, Spotty!" cried Peter. "This is a fine morning. I hope you are feeling fine."

Spotty lazily blinked at Peter. "I feel fine most of the time," said he. "I always feel fine when I am taking a sun bath."

Now Peter had known Spotty the Turtle ever since he could remember. The first time he had ever visited the Smiling Pool, Spotty had been there, taking a sun bath, just as he now was. But now it occurred to Peter that though he had known Spotty so long he really didn't know him at all. That is to say, he didn't know anything about him. All he knew about Spotty was that he was a very good swimmer and dearly loved to take sun baths. It popped into his head now that he didn't know what Spotty ate or when he ate. He never had seen him eat.

Now, Peter never hesitates to ask questions. "No one who is afraid to use his tongue will ever find out much," is a favorite saying of Peter's. He didn't hesitate now.

"Spotty," said he, "don't you ever eat?"

"Hello, Spotty," cried Peter.

"Peter," replied Spotty, "if you must ask questions, do ask sensible ones. No one likes to be bothered with silly questions. Of course I eat. Everybody eats. If I didn't eat how do you suppose I would live and grow?"

"I hadn't thought anything about it before," replied Peter, "but now I remember that as long as I have known you never have I seen you eat. That seems queer to me. When do you do it? Where do you do it? What do you eat?"

"My, my, my, such inquisitiveness!" replied Spotty with a twinkle in his bright little eyes. "Let me ask you a question, Peter Rabbit. What business is it of your when I eat, where I eat, or what I eat?"

"None," replied Peter very frankly and honestly. "It is wholly your own business when you eat, where you eat, and what you eat. But it seems to me queer that as long as I have known you I never have seen you eat. Now, don't you think it queer yourself?"

"Not at all," replied Spotty, his little eyes twikling again. "There are reason, Peter, very good reasons. This talk about eating has given me an appetite I do believe. If you'll excuse me I'll go get a lunch right now."

"Can't I go along with you?" Peter asked eagerly.

"I'll be delighted to have you," replied Spotty, and those little eyes of his twinkled more than ever.

For Goodness Sake Serve
YUR-FAVORIT
CAKE Ask Your Grocer
Tebelmann Baking Co.

These Things Are Important for Every Housewife to Know

Nine women out of ten when buying toilet paper take what is offered to them. It may seem difficult to do otherwise. Yet nothing is easier to get than the best.

Quality varies widely among toilet papers, just as among other articles of daily use and necessity. Many kinds are carelessly made; thick, coarse and abrasive, with little attention paid to hygiene in their making.

Quantity also varies widely. Some of the big, bulky, loosely packed rolls actually contain fewer sheets than you get in the highest-grade, closely rolled product.

There is a way to make sure of getting the finest, the purest, the most economical paper.

Ask for "Northern Tissue."

Northern Tissue is hygienically pure and made under absolutely sanitary conditions, by one of the world's foremost paper mills.

It is a fine, firm, high-grade, pure white tissue, extremely soft in texture and of highly absorptive quality.

It is absolutely uniform in quantity—a generous, closely wound package, protected by a wrapping of sanitary glazed paper.

Your safe guide to uniform value, quality and economy in toilet paper purchases is to ask your druggist or grocer for "Northern Tissue."

ST. LOUIS POST-DISPATCH
DAILY MAGAZINE

The Man on the Sandbox

by L. C. Davis

KERCHOO!

HAY FEVER in the air is lurking,
As overtime the weeds are working;
Our noses get all red and swollen
When we inhale the pesky pollen.

We snuff it up upon the breezes,
Then wake the echoes with our sneezes.
Between the golden-rodand roses,
It's pretty tough upon our noses.

As regular as income taxes,
It comes around each year and wracks us.
There is no way that we can shake it,
And so the best of it we make it.

I don't believe in nursing rancor
And for revenge I do not hanker,
But if I had a foe, doggone him,
I'd like to wish hay fever on him.

TOO TRUE!

The Coal Commission finds that coal costs $1.20 at the mines. But on the journey from the mine to the cellar it increases in value by leaps and bounds, as the feller sez.

Two Ohio Senators say rum is gone forever. But there is still plenty of moonshine whisky.

An they do say that bootleg beer may be found if you know where to look for it.

Judging from the number of candidates for the Federal judgeship at St. Louis, Missouri must have been practicing conservation of her judicial timber.

As evidence of a better understanding and a spirit of reciprocity in their business relations, we note that North America and South America will shortly begin to trade punches.

Harry Wills may be a good dock walloper, but he couldn't land his knockout wallop on "Doc" Kearns.

NOT DOWNHEARTED.

To all intents and purposes the fight is now over. The scribes, the pharisees and the expert needle shooters have rendered a unanimous verdict in favor of Jack Dempsey. All that Firpo has is a forlorn hope, a Chinaman's chance and a pile-driving right. But is he downhearted? No. For, while Luis may be chasing a rainbow, don't forget that there is a 10-gallon pot of gold at the end of it.

Benny Leonard says that Firpo's best blow appears to be a right to the liver. Indicating that Luis is out for the liver and bacon.

THE BACON.

THOUGH everyone's picking the
Bull for a licking
His confidence still is unshaken;
He hopes to deliver a punch to the
liver
And quickly come home with the
bacon.

JUST IMAGINE!

See where Hornsby, Gerber and Shocker have all been given jobs on Babe Ruth's All-America team. However, they will finish the season with the Browns as they do not report for duty with Babe's mythical outfit until Nov. 31.

As Babe couldn't imagine himself knocking imaginary balls over imaginary fences and chasing imaginary flies over imaginary fields, he assigned himself to an imaginary seat on an imaginary bench.

By the Associated Press.
MADRID, Sept. 15.—It wa
nounced today after a confe
between King Alfonso and
Rivera that Spain, for the tim
ing, would be governed by a d
torate of generals made up of r
sentatives of every military di
in Spain, under the presidenc
Capt.-Gen. Rivera.
Absolute quiet prevails thro
out Spain, according to advices
the provinces. There is virt
no visible evidence that there
been a change of government. F
time to time a cavalry patrol p
through the streets of Madrid,
otherwise soldiers are a rare s

By the Associated Press.
MADRID, Sept. 15.—The mil
directorate announced after a m
ing last night that the name
the new Cabinet ministers w
be submitted today to Captain-
eral Primo Rivera. Asked whe
it was intended to reform the
stitution of Spain, the generals m
an elusive reply.
The Captain-General arrived
on the Barcelona express late
night. He was greeted by the ch
of thousands of workers, who
acclaimed King Alfonso and
army.
Quiet prevails in Bilbao. It is
pected that the 24-hour strike
end today as scheduled.

Probable New Cabinet.

It is said that Rivera today pr
ably will substitute a mixed milit
and civil cabinet for the director
and that he will designate the f
lowing as ministers:
President of the Council of M
isters—Munoz Cobo.
Foreign Minister — Marquis
Villa Urrutia, or Senor Freder
Pina.
Marine—Admiral Carranza.
War—General Bermudez de C
tro.
Justice and Courts—Magistra
Mena or Hita.
Finance—Gen. Altolaguirre.
Interior—Gen. Martinez Anido
Labor—Gen. Marva.
Commerce—Senor Montero.
Gen. Primo Rivera, before leav
Barcelona, declared that it was
his intention to give up his p
of Captain-General of Catalonia.

No Disturbances Reported.

Although martial law has b
proclaimed throughout the re
no disturbances have been repo
from any place. Martial law
been proclaimed and the street
Madrid are picketed by the L
Regiment.
Primo Rivera has instructed
military judges to institute proce
ings against Santiago Alba, form
Foreign Minister, and has issued
proclamation inviting all Spania
to declare themselves on the polit
al morality of the former minist
It is reported that Senor Alba is
refugee in Biarritz.
The military authorities have
dered all Government officials a
functionaries to carry on their d
ties under the direction of the m
tary. All justices and magistra
were notified that they were
ject to military orders.
Gen. Francisco de Aguilera, f
mer Minister of War, arrived in M
drid yesterday and announced hi
self as conforming with the milita
movement. Admiral Juan Bauti
Aznar, Minister of Marine in the A
hucemas Cabinet, has placed hims
at the disposal of the new Gover
ment.

Great Crowd Cheers Primo Rive
As He Departs From Barcelona.

By the Associated Press.
BARCELONA, Sept. 15.—A gr
crowd gathered at the railway st
tion last night to cheer Captain Ge
eral Primo Rivera as he departed
Madrid. The Mayor of Barcelo
bade him farewell on behalf of t
city.
Before leaving the Captain-Gen
al received an Italian naval offic
and begged him to transfer his gre
ings to King Victor Emmanuel, Pr
mier Mussolini and the Italian n
tion.
